Appearances:

For the Union: Shri Sushil Das Gupta, Advocate.

AWARD

The Government of West Bengal, Labour Department, by Order No. 4401-I.R./IR/11L-386/63, dated the 18th October 1963, referred under section 10 of the Industrial Disputes Act, 1947 (XIV of 1947), the abovementioned dispute to this Tribunal for adjudication.

Issue

Whether the termination of service of Shri Sarju Prasad Tewari is justified? To what relief, if any, is he entitled?

An industrial dispute was referred for adjudication by the order, dated 18th October 1963. After notices were served on the parties they appeared and filed written statement. The matter was posted to 15th July 1964 for hearing. The Company turned up with its representative. The Union's representative was present. The Secretary of the Union as well as the workman concerned were absent. The Union's lawyer states that he had talks with the Secretary of the Union who lost all touch with the workmen. The Union's lawyer accordingly pleads wants of instruction. I think the workman is not interested in the dispute, and as such, a "no-dispute" award should be made.

ANNEXURE

In the matter of a complaint under section 33A, Indian Disputes Act, filed by Shri Basdeb Singh, 34 Jaya Bibi Road, Bhot Bagan, Ghusuri, Howrah, against Messrs. Golden Steel Corporation, 64 G. T. Road (North), Lillooah, Howrah. (Case No. 146/63 under section 33A.)

BEFORE THE SEVENTH INDUSTRIAL TRIBUNAL, WEST BENGAL

Present:

Shri S. K. RAY, Judge, Seventh Industrial Tribunal.

AWARD

This proceeding arises out of an application under section 33A, Industrial Disputes Act, made by the applicant workman, Shri Basdeb Singh, against the O. P. Company, Messrs. Golden Steel Corporation, complaining of his alleged wrongful and illegal dismissal from service in contravention of the relevant provisions of section 33, Industrial Disputes Act, during the pendency of the adjudication proceedings of another dispute between the Company and its workmen, referred to this Tribunal by Government Order No. 3537-I.R., dated 6th August 1962.

It is alleged that a charge-sheet, dated 24th/25th June 1963, containing some false and baseless charges was issued against him and he replied to the charge-sheet and then the Company issued a notice of enquiry but no enquiry was at all held according to the notice, though he attended the factory in response to the notice and ultimately he was dismissed without any enquiry.

The Company has filed its rejoinder to the workman's application admitting the dismissal of the workman during the pendency of the adjudication proceedings of the dispute between the Company and its workmen, referred to this Tribunal by Government Order No. 3537-I.R., dated 6th August 1962, and stating that the dismissal was effected after charge-sheet and after a fair and proper enquiry regarding the charge-sheet after notice to the workman and in his presence and with his participation and he was found guilty of the charges by the enquiry officer and accordingly, he was dismissed from service in accordance with the provisions of section 33(2)(b), Industrial Disputes Act, and an application for approval of the dismissal has already been made to the Tribunal.

After preliminary proceedings and some adjournments, the case was fixed for hearing on 24th July 1964. On the previous date (13th June 1964) the parties took an adjournment on the ground that a talk of compromise was going on. On 24th July 1964 the applicant workman filed a petition stating that the connected case under section 33(2)(b), Industrial Disputes Act, arising out of his dismissal has been amicably settled as per joint petition filed therein and in view of the compromise in that case, he might be permitted to withdraw the present application under section 33A. I have looked into the record of the connected case under section 33(2)(b), Industrial Disputes Act (case No. 277 of 1963), and I find that this case relating to the dismissal covered by the present case under section 33A has been amicably settled as per terms of the joint petition of the parties filed therein. It is thus clear that he parties have settled their dispute regarding the dismissal and so the applicant workman does not want to proceed with this application under section 33A, Industrial Disputes Act. In these circumstances, his prayer for withdrawal of the application should be granted and the case should be disposed of as withdrawn on compromise.

In the result, I permit the workman to withdraw his application under section 33A and dispose of the case as withdrawn on compromise. I award accordingly.

ANNEXURE

In the matter of a complaint under section 33A, Industrial Disputes Act, by Shri Khagendra Lall Barua of 3 G. J. Khan Road, Calcutta-39, against Messrs. Banerjee Cycle Industries, 23P Huges Road, Calcutta-15. (Case No. 163 of 1963 under section 33A.)

BEFORE THE SEVENTH INDUSTRIAL TRIBUNAL, WEST BENGAL

Present:

Shri S. K. RAY, Judge, Seventh Industrial Tribunal

Award

This proceeding arises out of an application under section 33A, Industrial Disputes Act, made by Shri Khagendra Lall Barua, a workman of the opposite party Company, Messrs. Banerjee Cycle Industries, complaining of his alleged unjust, mala fide and vindictive dismissal with effect from 8th August 1963, during the pendency of the adjudication proceedings of another dispute between the Company and its workmen, referred to this Tribunal by Government Order No. 3537I.R., dated the 6th August 1962, and in contravention of the relevant provisions of section 33, Industrial Disputes Act.

The relevant case put forward in the application is that as the applicant was an active worker of the Union and did not comply with the Management's direction for making adverse report against the workmen in course of his supervision work, he was falsely and maliciously charge-sheeted on 31st July 1963 and he submitted his reply to the charge-sheet on 1st August 1963 but the receipt of the reply was not acknowledged by the Management and then he sent a copy of the reply to the Management by registered post on 7th August 1963 and thereafter when he went to resume his duties on 8th August 1963, he was finally told that he had been dismissed from service. It is alleged that he went to resume his duty earlier from day to day after the charge-sheet, but he was not allowed to do any work and finally on 8th August 1963 he was told that he had been dismissed from service. The dismissal was effected without any notice or enquiry.

The Company has filed a rejoinder to the workman's application denying all the material allegations made against the Company. The substance of the relevant case of the Company is that this workman was charge-sheeted thrice—on 31st July 1963, 1st August 1963 and 9th September 1963—for commission of major misconducts. He replied only to the charge-sheet, dated 31st July 1963. The other two charge-sheets were sent to him by registered post, but they were returned as refused. On 31st August 1963 the Company issued a notice by registered post to the workman intimating that 18th September 1963 had been fixed as the date of enquiry regarding the charge-sheet. But, this notice was also returned as refused. As no other communication was received from the workman and he never appeared before the Company, the enquiry regarding the charge-sheets was held ex parte on 18th September 1963. Witnesses were examined at the enquiry. The workman was found guilty of the charges by the enquiry officer in his report and on the basis of this report, he was dismissed from the Company's service by a letter which was issued to him on 26th September 1963 by registered post, but this letter also came back as refused. The Company acted bona fide, as the dismissal was justified.

After preliminary proceedings, the case was fixed for hearing on 11th June 1964. On that date, the Company's representative appeared but none appeared for the workman and no step was taken on his behalf. The Tribunal suo moto adjourned the case to 14th July 1964 for hearing and disposal according to law. On 14th July 1964 neither party appeared and no step was taken for either of the parties. From the absence of the applicant workman on two successive dates of hearing and further from the absence of the Company also on the final date of hearing it is clear that the applicant workman is not pursuing the dispute and the present application under section 33A and the dispute has ceased to exist. Accordingly, the application is to be dismissed for non-prosecution and on the ground that the dispute is not being pursued.

In the result, I dismiss this application for non-prosecution and on the ground that the dispute has ceased to exist. I award accordingly.

ANNEXURE

In the matter of an industrial dispute between the Head Office Canteen Committee of Messrs. Imperial Chemical Industries (India) Private Ltd., 34 Chowringhee Road, Calcutta-16, subsequently substituted by C.R.O. Canteen Committee of Messrs. Imperial Chemical Industries (India) Private Ltd., 18 Strand Road, Calcutta, and their Canteen Staff represented by Shri Mrinal Kanti Bose and six other Canteen staff, 34 Chowringhee Road, Calcutta-16. (VIII-213/61.)

BEFORE THE FOURTH INDUSTRIAL TRIBUNAL, WEST BENGAL

Present:

Shri R. BHATTACHARYA, Judge,
Fourth Industrial Tribunal.

For the Canteen Staff: Shri P. K. Sanyal, Advocate.
For the Company: Shri N. M. Das Gupta, Advocate.

This is a reference under section 10 of the Industrial Disputes Act arising out of Government of West Bengal, Labour Department, Order No. 3140-I.R./IR/11L-41(A)/61, dated 13th June 1961, followed by Corrigendum of the State Government No. 4854-I.R./IR/11L-41(A)/61, dated the 5th August 1961.

Notices were duly served and the parties entered their appearances and submitted written statement of their claims and cases.

A preliminary point on the question of jurisdiction was taken up by C.R.O. Canteen Committee of Messrs. Imperial Chemical Industries (India) Private Ltd. (hereinafter described as the C.R.O. Canteen Committee), on the allegations that the present reference based upon a corrigendum issued by the Labour Department is not maintainable in law and that this Tribunal has no jurisdiction to act upon the said corrigendum. The contention of the C.R.O. Canteen Committee is that the original reference cannot be cancelled, rescinded, amended or substituted by any corrigendum, and that the present corrigendum has changed the character of the original reference. On the other hand, the workmen appearing on behalf of the Canteen staff submitted that by the corrigendum there has been no substantial change in the original reference and that the corrigendum has simply corrected the name of one of the parties mentioned in the original reference. The argument was that the corrigendum is legal and that the Tribunal should adjudicate upon the issue involved in the original reference duly rectified by the corrigendum issued by the Labour Department of the State Government.

On the date fixed for hearing on the preliminary point raised, neither party adduced any evidence. They relied upon their argument advanced upon the points raised. In order to appreciate the contention raised, I should state, in short, the relevant fact. The State Government by a Notification, dated 13th June 1961, sent an industrial dispute under section 10 of the Industrial Disputes Act existing between the Head Office Canteen Committee of Messrs. Imperial Chemical Industries (India) Private Ltd., 34 Chowringhee Road, Calcutta-16, and their Canteen staff represented by Shri Mrinal Kanti Bose and six others of the Canteen staff, 34 Chowringhee Road, Calcutta-16, relating to the following issue:

> Is the dismissal of Shri Ramananda Bose justified? To what relief, if any, is he entitled?

Subsequently, by way of corrigendum the Government issued another Notification, dated 5th August 1961, in the following terms:

> "In the preamble to the Government of West Bengal, Labour Department, Order No. 3140-I.R./IR/11L-41(A)/61, dated the 13th June 1961, for 'Head Office Canteen Committee of Messrs. Imperial Chemical Industries

(India) Private Ltd., 34 Chowringhee Road, Calcutta-16', read 'C.R.O. Canteen Committee of Messrs. Imperial Chemical Industries (India) Private Ltd., 18 Strand Road, Calcutta.'"

There is no dispute before me at the time of argument that there is one Head Office Canteen Committee of Messrs. Imperial Chemical Industries (India) Private Ltd. at 34 Chowringhee Road, Calcutta-16, and that there is another Canteen Committee known as "C.R.O. Canteen Committee of Messrs. Imperial Chemical Industries (India) Private Ltd. at 18 Strand Road, Calcutta." There are, therefore, two separate canteens—one at 34 Chowringhee Road, Calcutta, and another at 18 Strand Road, Calcutta—under the management of two distinct committees. There is no dispute before me that the present issue relates to the management of C.R.O. Canteen Committee at 18 Strand Road, Calcutta. Admittedly, the issue, in fact, does not relate to the Head Office Canteen Committee of Messrs. Imperial Chemical Industries (India) Private Ltd. (hereinafter referred to as the Company).

In the original reference, dated 13th june 1961, the parties to the dispute were the Head Office Canteen Committee of the Company and their Canteen staff. The Government of West Bengal subsequently inserted by the corrigendum the name of C.R.O. Canteen Committee of 18 Strand Road in place of the Head Office Canteen Committee of the Company of 34 Chowringhee Road, Calcutta-16. Shri Das Gupta, on behalf of the Canteen Committee, has argued that the Government has no power to issue any Notification by way of corrigendum to cancel or rescind or amend or alter or rectify the first reference, and that by the corrigendum, dated 5th August 1961, the original reference has been virtually cancelled, or rescinded or altered on material particulars, and that this act of the Government was illegal. In connection with this contention Shri Das Gupta has referred to the cases reported in 1958 L.L.J. Vol. II, at page 634, 1962 F.L.R. at page 308 and 1960 F.L.R. at page 60. The first case between the State of Bihar and D. N. Ganguli and others was decided by the Supreme Court. In this case several provisions of law were considered, particularly, section 21 of the General Clauses Act, sections 10, 20, 17A, 19 and 12(5) of the Industrial Disputes Act. On consideration of all the points raised, it was decided by the Hon'ble Judges of the Supreme Court that the order of reference made by the appropriate Government under section 10(1) of the Industrial Disputes Act cannot be cancelled or superseded by a subsequent Notification. Such cancellation is invalid and ultra vires.

In the case of Keshoram Cotton Mills versus The Second Labour Court and others, reported in 1962, F.L.R. at page 308. Mr. Justice Banerjee has held that the State Government has no power to add party to the reference except under section 10(5) of the Industrial Disputes Act. At the same time it has been, however, stated that if there is any apparent error in the order of reference and if there is no question of supersession, cancellation or modification of or addition to the original reference, such error may be corrected by way of corrigendum. The Madras High Court in the case of the management of Thambi Service, Salem versus The Presiding Officer, Labour Court, Coimbatore and another, reported in 1960 F.L.R. p. 60, has held that the Government has no power to cancel, or modify the reference once made under section 10 of the Industrial Disputes Act. This decision is, of course, based upon the decision of the Supreme Court, just mentioned hereinbefore.

Shri Sanyal for the workmen has submitted at first that the Canteen Committee cannot take up the objection now after so much delay. This matter went up to the Hon'ble High Court in connection with an interlocutory matter. Before the Hon'ble High Court the Canteen Committee did not take up this point when the matter came up for hearing under Article 226 of the Constitution of India. An attempt has been made to argue that when this point was not taken up earlier, the Tribunal should not allow C.R.O. Canteen Committee to pursue this point. I cannot accept this contention. In the written statement this specific point was taken up by the C.R.O. Canteen Committee. Before the Hon'ble High Court the matter was taken in connection with another point and in that proceeding there was no occasion to take up this plea. Before the actual hearing either of the parties can certainly raise any preliminary or jurisdictional point and there can be no objection to it. There can be no question of estoppel, acquiescence and waiver. The point of law which goes to the very root of the case can certainly be taken up not only by the parties but also by the Tribunal, if not taken by the parties.

The next point taken up by the workmen is that Sec. 21 of the General Clauses Act allows the Government to issue corrigendum for correction, and

amendment of the original reference. As had already been decided by the Hon'ble Supreme Court, I must hold that this ground cannot support the workmen. This provision cannot be applicable in the case of Industrial Disputes Act regarding cancellation or rescission of the original order of reference made under section 10(1) of the Industrial Disputes Act as in the present case. Virtually speaking and for all practical purposes, the corrigendum issued by the State Government in the present case has changed the entire character of the original reference by deleting the name of the Head Office Canteen Committee and by substituting in its place the name of C.R.O. Canteen Committee of 18 Strand Road. This is not a case under section 10(5) of the Industrial Disputes Act for adding parties. After substitution of the new name of a different committee, the character and nature of the original reference has completely changed. In the original reference the dispute was between the Head Office Canteen Committee at 34 Chowringhee Road, and their Canteen staff, 34 Chowringhee Road, whereas by the corrigendum the dispute has become between C.R.O. Canteen Committee of 18 Strand Road and their staff, 34 Chowringhee Road. This is not a simple amendment or rectification of an apparent mistake. There has been by the corrigendum a material change, nay a new dispute between two different parties, not mentioned in the original reference. In this connection it has been argued from the side of the workmen that the subsequent notification simply sought to remove a mitsake which was apparent on the face of it. As I have already discussed, I cannot accept this argument. Shri Sanyal for the workmen has cited before me a Bombay Case, reported in 1961, L.L.J. Vol. II, p. 732, to argue that the Government can certainly correct the mistakes which have been made in the original reference. In that case the fact shows that there was no cancellation of the original order and that there was a simple mistake. I do not think that the mistake crept in the original reference of that case was substantial or changed the character of the reference. The case relied upon by Shri Sanyal is, therefore, of no avail. The other case relied upon by Shri Sanyal is reported in 1961, F.L.R., p. 186, to show that the government by a corrigendum can correct the original reference made under section 10 of the Industrial Disputes Act. In this case there was some addition to the issue mentioned in the reference, and this was done by a corrigendum. This case again does not support the workmen in the case before me because simple addition of something to the issue did not change the character of the original reference in the case just cited. On consideration of the facts and circumstances of this case, I hold that the Government by way of corrigendum changed the original reference completely by substituting a new party. This action of the Government is cancellation or rescission which has been done illegally.

In view of my findings above, the corrigendum issued by the State Government affecting the original reference was illegal and ultra vires and this Tribunal has no jurisdiction to adjudicate upon the issue between the parties after substitution of new party by the corrigendum.

The next question that arises for consideration is what should be the procedure at this stage to be followed by this Tribunal. When I have found that the corrigendum issued by the Government by the Notification, dated 5th August 1961, is ineffective and bad in law, the original reference arising out of Notification of the Labour Department of the State Government No. 3140-I.R./IR/11L-41(A)/61, dated 13th June 1961, stands good. Admittedly, there is, in fact, no dispute before me between the Head Office Canteen Committee of Messrs. Imperial Chemical Industries (India) Private Ltd., 34 Chowringhee Road, Calcutta-16, and their staff, and that is why the name of the Head Office Canteen Committee has been removed by the corrigendum. When this is a fact, I cannot hold that there is any industrial dispute between the Head Office Canteen Committee of the Company and their staff or workmen. There is no occasion for adjudication of any issue mentioned in the original reference as between the parties named therein.

In the result, I find no dispute existing between the Head Office Canteen Committee of Messrs. Imperial Chemical Industries (India) Private Ltd., 34 Chowringhee Road, Calcutta-16, and their

Canteen staff mentioned therein, and that this Tribunal has no jurisdiction to decide the dispute mentioned in the original order of reference as between the C.R.O. Canteen Committee of Messrs. Imperial Chemical Industries (India) Private Ltd., 18 Strand Road, Calcutta, and the canteen staff mentioned in the order of reference as the corrigendum, dated 5th August 1961, is invalid, ineffective and ultra vires.

The award is passed accordingly.

Shri K. P. MUKHERJI, Judge,
Fifth Industrial Tribunal.

This dispute between Messrs. Instrument Research Laboratory Ltd., 22 Prince Anwar Shah Road, Calcutta-33, and their workmen represented by Instrument Research Laboratory Ltd. Employees' Union, 40/1 Prince Anwar Shah Road, Calcutta-33, was referred to this Tribunal under section 10 of the Industrial Disputes Act, 1947, by the Government of West Bengal, Labour Department, Order No. 4712-I.R./IR/10L-226/63, dated the 22nd November 1963, for adjudication upon the only issue which is as follows:

Whether the dismissal of Shri Gouri Sankar Ghosh is justified? To what relief, if any, is he entitled?

This reference was received on 27th November 1963 and notices were issued to the parties fixing 17th December 1963 for appearance and filing of the written statement by the Union. The Company entered appearance on 17th December 1963, and after several adjournments it filed its written statement on 22nd February 1964. The parties were asked to file their respective doouments on 10th March 1964. The case was thereafter fixed for hearing on 29th June 1964. On that date the parties appeared and stated that a talk of compromise was going on between the parties for settlement of the dispute amicably. On that ground the parties took time and ultimately on 18th July 1964 a joint petition of compromise was filed by the parties embodying therein the terms of settlement. I have perused the petition of compromise and I am satisfied that the settlement is bona fide and the terms of settlement are fair and reasonable. The settlement is therefore recorded and an award be passed in terms thereof. The joint petition of compromise do form part of the award as Annexure A.

In the matter of an industrial dispute existing between Messrs. Hindusthan Development Corporation Ltd. Engineering Factory, 38 Tiljala Road, Calcutta-39, and their workmen represented by the Hindusthan Development Corporation Ltd. Engineering Factory Employees' Union, 88 Picnic Garden Road, Calcutta-39. (Case No. 231 of 1963.)

BEFORE THE FIFTH INDUSTRIAL TRIBUNAL, WEST BENGAL

Present:

Shri K. P. MUKHERJI, Judge, Fifth Industrial Tribunal.

Present for the Company: Shri J. N. Chatterji, Deputy Labour Adviser of Indian Engineering Association.

Present for the Union: Shri Nikhil Roy and Shri Shyam Sundar Choudhury, Advocates.

This dispute between Messrs. Hindusthan Development Corporation Ltd. Engineering Factory and their workmen was referred to this Tribunal under G.O. No. 4124-I.R./IR/10L-115/63, dated the 1st October 1963, for adjudication upon the only issue which is as follows:

Is the dismissal of Sarvashri Sudhir Kumar Ganguly and Dukhi Ahir justified? To what relief, if any, are they entitled?

The case of the Union, shortly, stated is as follows: Messrs. Hindusthan Development Corporation Ltd. Engineering Factory is a prosperous concern and it maintains a factory at 38 Tiljala Road. There are two Unions of the workmen—one is a Communist-cum-R.S.P. Union, known as the Hindusthan Development Workers Union, and the other known as Hindusthan Development Corporation Ltd. Engineering Factory Employees' Union under the banner of the Indian National Trade Union Congress. Shri Sudhir Kumar Ganguly and Shri Dukhi Ahir, who were members of the Workers' Union, severed their connection with that Union and took active part in the formation of the Employees' Union. The management, however, did not take in good grace the formation of the Employees' Union, and consequently the Trade Union activities of these two workmen. Shri Sudhir Ganguly was given a charge-sheet on 21st January 1963 untruly alleging that he disobeyed the order of the General Manager by absenting himself from his duty on 20th January 1963. He submitted his explanation. He was given notice of an enquiry to be held against him on 28th January 1963, but on that date no enquiry was held, and another charge-sheet was given to him. Shri Ganguly submitted his explanation on 29th January 1963 denying the charges brought against him. Then, after a so-called enquiry he was dismissed from service with effect from 1st March 1963.

The management issued a charge-sheet to Shri Dukhi Ahir on 24th January 1963 on a false allegation. He submitted a reply in which he denied the charge that was brought against him. Thereafter the management, after a sham enquiry and without giving him any opportunity to defend himself, dismissed him from service with retrospective effect from 24th January 1963. The dismissal of this workman with retrospective effect has been challenged by the Union as illegal and inoperative. It is stated that the dismissal of these two workmen has been wholly unjustified, unfair and mala fide, and in violation of the principles of natural justice with ulterior motive and for extraneous consideration. The workmen have prayed for their reinstatement to their former posts and also for their full wages and allowances during the period of their wrongful non-employment.

The case of the Company as made out in its written statement may shortly be stated as follows: Shri Sudhir Kumar Ganguly was a compounder in the First Aid Dispensary of the Company, and Dukhi Ahir was employed in the Sleeper Department of the Company. The workmen by and large voluntarily agreed to work on any Sunday and to contribute their earnings on that date to the National Defence Fund. This agreement was made with the recognised Union, and the Company issued a notice on 19th January 1963 directing the workmen to attend to their duties on Sunday, the 20th January 1963 to enable them to contribute their earnings of that date to the Defence Fund. Shri Ganguly deliberately absented himself from duty on 20th January 1963 and a charge-sheet was issued to him. He submitted a reply to the charge-sheet. Another charge-sheet was issued to him on 28th January 1963 alleging that he tried to dissuade other workers from attending the factory on 20th January 1963. He submitted a reply to the charge-sheet, and after a proper enquiry into the charge-sheets the management came to the bona fide conclusion that he was guilty of gross misconduct which warranted his dismissal. He was accordingly dismissed from service with effect from 28th February 1963.

Shri Dukhi Ahir also did not attend his duty on 20th January 1963 as directed by the General Manager of the Company. He also insisted other workmen not to work on 20th January 1963 and also held threats to other workers and abused them. A charge-sheet was issued to him for misconduct, and after a proper domestic enquiry the management found him guilty of gross misconduct, and accordingly dismissed him from service. It is said that the dismissal of both these workmen is just and proper and bona fide, and they are not entitled to any relief, as prayed for.

AWARD

The only issue for adjudication in this case relates to the dismissal of Sarvasri Sudhir Kumar Ganguly and Dukhi Ahir. The dispute between Shri S. K. Ganguly and the Company has been settled amicably out of Court and a joint petition to that effect has been filed by the parties. The terms of compromise as stated in the petition appear to be quite fair and reasonable and there is no reason to suspect the bona fides of the settlement. Shri Ganguly has given up his claim for reinstatement in lieu of a lump sum ex-gratia payment of Rs. 1,700 and a receipt has also been filed to show payment of this amount to him. The dispute, so far as Shri Ganguly is concerned, has become non-existent, and no adjudication of his dispute is called for.

I shall now deal with the dispute of Dukhi Ahir. The undisputed facts bearing on his dismissal are these:

He was given a charge sheet on 24th January 1963, the charge against him being that he wilfully disobeyed the order of the General Manager by absenting himself from duty on 20th January 1963, and also threatened and abused Nagina Singh, a workman of the Company, which constituted a major misconduct on his part. He submitted a reply to the charge-sheet denying the charges brought against him. Thereafter an enquiry was held into the charge-sheet issued to him and, as a result of the enquiry he was dismissed from service with retrospective effect from 24th January 1963. The dismissal of this workman has been challenged on two grounds, in the first place it is contended that the order of dismissal with retrospective effect is illegal and as such the order of dismissal cannot be allowed to stand. In the next place, it has been urged that the finding of the enquiring officer cannot be said to be a reasonable one in view of the evidence which was adduced by him, and his finding also suffers from this infirmity that he did not weigh and consider the evidence that was produced before him. Admittedly, a charge-sheet was issued to Dukhi Ahir on 24th January 1963, and he was suspended with immediate effect pending enquiry (vide charge-sheet Ext. A). Thereafter, by the letter, Ext. C, he was dismissed from service with effect from the date of his suspension, i.e., 24th January 1963. It is now well settled by a series of decisions that suspension or dismissal or removal from service with retrospective effect is illegal and invalid. In the case of Satyendra Kumar Dutta, and Administrator, District Board (1959-I L.L.J. 585) it has been held that the order of dismissal with retrospective effect must be held to be an illegal order and consequently dismissal must be held to be wrongful. The same view has been taken in the recent case of Sudhir Ranjan Haldar and the State of West Bengal and another, reported in F.L.R. 1961, p. 98. In view of these decisions it must be held that the dismissal of Dukhi Ahir with retrospective effect from 24th January 1963 is illegal and cannot stand. This workman is, therefore, entitled to the reliefs claimed on this ground alone.

I now propose to deal with the merits of the case as arguments have been advanced by the learned representatives of both sides. It is an admitted fact that an enquiry was held on 4th February 1963 into the charge-sheet, Ext. A, which was issued to the workman. It is also not disputed that the workman Dukhi Ahir was present at the enquiry and he also put his signature on the enquiry proceedings which have been marked Ext. D. O.P.W. 1 Shri Santimoy Mukherji, who was formerly the Labour Officer of the Company, has been examined. It is stated by him that Dukhi Ahir was given opportunity to cross-examine the witnesses examined at the enquiry on behalf of the Company, but he declined to do so. He also did not want to examine any witness on his behalf. It is further stated by this witness that the statements of the witnesses were explained to them

in presence of Dukhi Ahir. There was no cross-examination of this witness on this point, and the endorsement in the enquiry proceedings also supports the statement. It is, therefore, difficult to believe that the workmen concerned was not given opportunity to defend himself, or that he did not understand the contents of the proceedings. It is admitted by this workman that he did not make any complaint in writing to the Company regarding the enquiry made against him. The Secretary of the Union also did not inform the Company regarding the unsatisfactory nature of the enquiry. It is stated by Dukhi Ahir that he told the Union Secretary that the proceedings of the enquiry were not explained to him, and that he was not allowed time to examine witnesses from Barrackpore whom he wanted to examine. The Secretary of the Union, P.W. 1, does not corroborate him. In view of the evidence on record, it must be held that there was a fair and proper enquiry against the workman concerned, and he was also given full opportunity to defend himself. It has been urged that the finding of the enquiring officer cannot be regarded as reasonable in view of the fact that the witnesses named in the complaint, Ext. F, made by Nagina against Dukhi Ahir, on the basis of which the charge-sheet was issued against Dukhi Ahir, were not examined at the enquiry. It is true that except Jagadish Tewari, the two other witnesses named in the complaint of Nagina, viz., Gurudas Chatterji and Musafir Roy, have not been examined at the enquiry. Jagadish Tewari, although named as a witness to the incident, has denied having seen any occurrence. Besides Jagadish, the other witnesses examined at the enquiry are Nagina Singh, Sadhu Charan and Nandalal Purkayet. They have deposed to prove the charge brought against Dukhi Ahir. They were not cross-examined by Dukhi Ahir although he was given opportunity to cross-examine them, and their evidence stands unchallenged. It is no doubt true that the witnesses mentioned in the complaint, Ext. F, made by Nagina would have been the best person to prove the alleged occurrence. But the evidence that was adduced before the enquiring officer and recorded by him was considered as sufficient to prove the charge against him, and on the evidence on record it cannot be said that the finding arrived at by the enquiring officer is perverse or such a finding could not be arrived at by a prudent man. I accordingly hold that the charge against Dukhi Ahir was established at the domestic enquiry, which enquiry was fair and proper. In view of the fact, however, that the order of dismissal was not legal and valid inasmuch as it was given retrospective effect, the order of dismissal cannot be maintained and is liable to be set aside. In the result, the order of dismissal of Dukhi Ahir, the workman concerned, is set aside. The Company is directed to reinstate him and to pay him back wages from the date of his suspension till the date of his reinstatement within a month from the date of publication of this award in the Calcutta Gazette. This is my award.

And whereas the arbitration award on the said industrial dispute given by the said Arbitrator was received by the State Government on the 3rd August 1964;

Now, therefore, in pursuance of the provisions of sub-section (1) of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE

Arbitration award in the matter of an industrial dispute between Messrs. Rolls Print Co. (P) Ltd., 1/2 Taratolla Road, Calcutta-27, and their workmen represented by Press Employees' Association, 249B Bipin Behari Ganguly Street, Calcutta-12.

BEFORE THE ARBITRATOR

PRESENT:

Shri H. M. GHOSH, Deputy Labour Commissioner - Arbitrator.

For the Association: Shri Anil Das Chowdhury, Vice-President, Press Employees' Association.

For the Company: Shri Satish Krishen, In-charge, Factory Administration.
Shri Lahiri, Legal representative of the Company.

Government of West Bengal in the Labour Department by Order No. 57-I.R./IR/13L-41/63, dated 10th January 1964, published the Arbitration Agreement as shown in the annexure hereto, under sub-section 3 of section 10A of the Industrial Disputes Act, 1947 (XIV of 1947), in respect of the industrial dispute between Messrs. Rolls Print Co. (P.) Ltd., 1/2 Taratolla Road, Calcutta-27, hereinafter referred to as the employer and their workmen represented by Press Employees' Association, 249B Bipin Behari Ganguly Street, Calcutta-12, hereinafter referred to as the Association, and the said dispute was referred to Arbitration by the employer and the workmen under sub-section (1) of section 10A of the said Act.

The Arbitration Agreement between the employer and the workmen referred the following specific matters of dispute to me for arbitration:

Whether the dismissal of Bachha Singh (Watchman) is justified? To what relief he is entitled?

The above reference was received on 18th January 1964. The employer and the Association were requested to submit written statements and the employer's written statement was received in the last week of February 1964 and the Association's written statement was received earlier. The written statements submitted by the parties were respectively sent to the opposite party for information and comments, if any. The parties submitted their further comments in the second week of March 1964. The date for hearing of the representatives of both the parties was fixed on 23rd March 1964 and examination of witnesses and arguments were held on 6th April 1964, 17th April 1964, 12th May 1964, 22nd May 1964 and 5th June 1964. These dates were fixed to suit the convenience of the parties in consultation with them.

The Association's case as per written statement is that the employer is a very old, big and prosperous printing concern, engaged in quality work of a very high order and is a regular printer of State Bus tickets, Telegram papers, Brooke Bond label, etc. The prosperity and the reputation of the employer have been built up through the efficient, hard and loyal services of the workmen and that notwithstanding the steady progress and prosperity the workmen are subjected to various kinds of exploitation. For the purpose of collective bargaining the workmen joined the Union which was not to the liking of the Company. Shri Bachha Singh was an active member of the Union who has served the Company as Durwan for long six years with clean service to his credit, but the Company by way of victimization illegally suspended and framed charge-sheet against him on 27th August 1963 bringing false and vague allegations which were denied by Shri Bachha Singh in his explanation, dated 28th August 1963. The Company, therefore, without holding any enquiry and actuated by mala fide intention terminated the services of Shri Bachha Singh in gross violation of the principle of natural justice. As the termination of services of Shri Bachha Singh was unjustified, illegal, mala fide and an act of victimization, the Association claimed reinstatement with all back wages including bonus, leave wages for the period of unemployment and other relief as may be deemed fit and proper.

The employer's case is as follows:

Shri Bachha Singh was employed as a Watchman in the factory at Taratolla Road and his duty included inter alia to keep watch at the gate of the factory so that no goods could pass out of the factory without verification of the goods as per the Gate Pass issued for the purpose. On 27th August 1963, while Shri Bachha Singh was on duty at the gate, Shri Santoshi Yadav, an employee of General Timber Works, 50/2 Hazra Road, took delivery of certain corrugated iron sheets from the employer's factory and proceeded with the goods loaded on a handcart drawn by a handcart puller towards the factory gate at about 4 p.m. Shri Santoshi Yadav was given a Gate Pass so that the watchman on the strength of the Gate Pass would allow the goods to be taken out of the factory after verifying the contents mentioned in the Gate Pass. Shri Santoshi Yadav on reaching the gate produced the Gate Pass and handed over the same to the Watchman Shri Bachha Singh. Bachha Singh demanded Rs. 5 from Shri Santoshi Yadav as "baksis" for opening the gate for him and allowing the goods to be taken out. Santoshi Yadav refused to pay and there was a hot altercation between Santoshi Yadav and Bachha Singh over this, which drew attention of some employees of the factory who came to the gate. Santoshi Yadav thereafter reported the matter to Shri Satish Krishen, In-charge of the Factory Administration. At the intervention of Shri Satish Krishen, Santoshi Yadav was allowed to take the goods out of the factory. Shri Satish Krishen asked Bachha Singh and the employees who reported the matter to him to submit their statements in writing. While two employees submitted their statements under their signature, Bachha Singh refused to do so and insisted that it was his right to claim such "baksis." Thereupon a charge-sheet was issued on the same date to Bachha Singh and a letter suspending him was also issued to him on the same date. At first he refused to accept this letter in presence of witnesses. However, he later accepted the letter but refused to give acknowledgement receipt. Bachha Singh submitted his explanation on the next day denying the charges. On 28th August 1963 the proprietor of General Timber Works, employer of Santoshi Yadav, forwarded a letter of the same date through Shri Santoshi Yadav to the Company and Santoshi Yadav was asked to submit his written complaint which he did under his signature, although the Management issued charge-sheet to Bachha Singh and received his explanation and the verbal complaint of Shri Yadav which was confirmed in writing under his signature. The Management on receipt of signed statements from witnesses decided not to continue disciplinary proceedings any further as pursuing the disciplinary proceedings might lead to Bachha Singh's dismissal which in turn would affect his future career. The Management, therefore, taking compassionate view decided to terminate his services by way of discharge simplicitor and offered one month's wages in lieu of notice. The employer denied that Bachha Singh was dismissed by way of punishment or that they acted in a mala fide manner which amounted to unfair labour practice or victimization. It was contended that the observance of the principle of natural justice which was initiated was dropped in the interest of the employee concerned. With these arguments the employer denied liability for grant of any relief whatsoever as the workman is not entitled to any relief.

It appears from documents exhibited before me during arbitration that the letter, dated 27th August 1963, asking Bachha Singh to explain, runs as follows:

"You are hereby asked for explanation that why you have not allowed the cart at 4 p.m. today when he approaches to the gate to go out of the factory although the necessary Gate Pass has been duly signed by me. You are advised to give reply within 24 hours on receipt of this letter."

In the second letter, dated 27th August 1963, his services were suspended from the same date until further notice.

Extract from Bachha Singh's written explanation is quoted below:

"I deny the allegation that I did not allow the cart to go out. When the Gate Pass was shown to me by the cartman I started immediately verifying the Gate Pass with the actual count of the empty tins which the cartman was carrying in the cart. This was necessitated in the interest of the Company as in the Gate Pass the size and the number of the tin containers were mentioned and I wanted to have it verified. My action in counting the containers was justified lest I would have been held responsible if the number of tins mentioned in the Gate Pass did not tally with the number actually being carried in the cart. The cartman unnecessarily got irritated and shouted at me to allow him to go without verification. When I refused to oblige him he threatened that he would go to the office and complain against me that I refused to allow him to go out.

I deeply regret that for carrying out my duties I have been put under suspension. Under the circumstances mentioned above I feel sure that you will kindly withdraw the charge-sheet and also the suspension order and allow me to resume my duty with full wages for the period of suspension."

The Management's letter, dated 2nd September 1963, addressed to Bachha Singh, runs as follows:

"We are in receipt of your reply, dated 28th August 1963.

Immediately after the incident you were questioned in the presence of responsible persons about your action, when you clearly admitted having demanded money from the handcart man despite his producing a genuine Gate Pass and contended that there was nothing wrong in it. You also admitted that this practice was followed by you all along. You also alleged that other Durwans do the same thing.

This action on your part is a clear case of taking illegal gratifications in which you have been indulging in all along and constitutes a misconduct deserving immediate dismissal without notice.

Your services are therefore terminated forthwith but considering the length of service you will be paid a month's salary in lieu without prejudice or precedence.

You may collect your dues from this office at any time on any working day during office hours."

The receipt of this letter, dated 2nd September 1963, by Bachha Singh has been denied by the Association on behalf of Shri Singh.

During the course of hearing the employer produced four witnesses, namely, Shri Satish Krishen, In-charge, Factory Administration, Shri P. C. Sharma, Chief Engineer, Shri Tapan Kumar Banerjee, Assistant, Time Office and Shri Santoshi Yadav, who came with the handcart on behalf of General Timbers to take delivery of goods on 27th August 1963. They were all cross-examined by the Association's representative. The Association produced Shri Bachha Singh, Durwan, who was also cross-examined by the employer's representative. The employer at a later stage submitted through their legal representative written statements of Santoshi Yadav, a letter dated 28th August 1963, from General Timber Works, signed statement of Shri P. C. Sharma, dated 29th August 1963, statement of Shri Tapan Kumar Banerjee, dated 27th August 1963. The Association's representative, however, did not admit these letters as they were not produced by persons concerned but submitted through Company's representative.

The issue for arbitration before me is: "Whether the dismissal of Bachha Singh (Watchman) is justified? To what relief he is entitled?" and the issue for arbitration was agreed upon by both the employer as well as the Association.

The employer's plea that it was a case of "discharge simplicitor" cannot be accepted as it would appear from the charge-sheet issued to Bachha Singh, dated 27th August 1963, and also the letter, dated 2nd September 1963, purported to have been issued to Bachha Singh that the termination of service is punitive and the Management had the intention to punish Bachha Singh for misconduct and it is not a bona fide exercise of the employer's right to terminate the services of an employee on payment of a month's notice as per condition of service and the order of discharge is in effect an order of dismissal and in the present case this dismissal has been effected without proper enquiry with the result that the employee concerned has been denied natural justice.

It is a well-settled principle that in cases where an industrial dispute is raised on the ground of dismissal and is referred to a Tribunal or an arbitrator, the arbitrator or Tribunal would naturally want to know whether the impugned dismissal was preceded by a proper enquiry or not or in other words whether natural justice by way of proper enquiry into the charges levelled against the employee concerned, was shown and the charges were ultimately proved through such enquiry. In the event the charges levelled are proved through proper enquiry, it would be open for the employer to award such disciplinary punishment as may be deemed fit by them and the industrial tribunal or adjudicator should not sit in appeal over the findings recorded and should not normally interfere with the Management's decision. The tribunal or the arbitrator could, however, interfere where there is want of good faith, where there is victimization or unfair labour practice or the Management is guilty of basic error for violation of the principle of natural justice. It follows, therefore, that the issue about the merit of the impugned order of termination of service is at large before me as an Adjudicator and on the basis of facts and evidences revealed before me it would have to be decided whether the termination is justified and if not, what would be the proper order to make in this case. It is well settled that where no proper domestic enquiry has been held the employer can lead evidence before the arbitrator and justify his action and the case has to be considered on its own merit and the arbitrator should come to its own conclusion without having any regard for the stand taken by either parties.

During arbitration proceedings before me both the employer's as well as the Association's representatives

were given full opportunity to lead evidences in support of their respective claim and stand and to cross-examine the witnesses produced by either parties.

I now propose to deal with the depositions made before me by the witnesses on behalf of the employer.

Shri P. C. Sharma, Chief Engineer, stated before me that when he went to the factory gate on 27th August 1963 hearing some "golmal" he was told by Shri Yadav that the Durwan refused to open the gate demanding money and when he asked Bachha Singh what all these were, Bachha Singh told him that all the Company's men pay him "baksis." Shri P. C. Sharma further stated that he told Bachha Singh that it was not proper and reasonable and he took Santoshi Yadav to Shri Satish Krishen, In-charge, Factory Administration, and asked Shri Satish Krishen to see the "golmal" at the gate.

Shri Santoshi Yadav during deposition before me stated that the Durwan asked him to give Rs. 5. Shri Yadav told him that he was an employee and he would report to his employer and if the employer paid the money he would pay him. Then the Durwan asked Yadav to promise that he would come following day to give him Rs. 5 if the amount was not then with him and the Durwan told him that unless he assured this he would not open the gate. Thereafter Shri Yadav asked the Durwan that as he had produced the necessary Gate Pass and the goods were counted he should open the gate and some altercation ensued. Shri Yadav also stated that Shri Sharma asked him to report the matter to Shri Satish Krishen—"Barra Saheb" and he went to him and explained to him that the Durwan was demanding Rs. 5 which he could not pay because he had no money. He also reported the matter to his own employer and with a letter from his employer he again reported to the Factory on 28th August 1963 and gave a statement to Shri Satish Krishen explaining the incident and also signed a written statement. He said that even when Bachha Singh was asked by Shri Satish Krishen to open the gate, Bachha Singh did no. do so and another man opened the gate.

Shri Tapan Kumar Banerjee, an assistant of the Company, during deposition before me stated that on 27th August 1963 on hearing "golmal" at the gate at about 4 p.m. he went to the gate and heard that Bachha Singh was demanding Rs. 5 from the man accompanying the handcart. He said that he heard clearly Bachha Singh saying that unless he was paid Rs. 5 he would not allow the cart to go out. Bachha Singh at the same time told the man that if he promised to pay him next day then he would allow him to go out of the gate. He also said that he heard Bachha Singh telling the man that the money he asked for was his "hak" and it would not affect the Company in any way. He asserted that the written statement given by him regarding the incident to the Management is correct.

Shri Satish Krishen, In-charge, Factory Administration, corroborated that Shri P. C. Sharma and Shri M. Bhargava along with Shri Yadav at about 4 p.m. on 27th August 1963 reported the incident at the gate. During deposition he corroborated the statements of the other witnesses regarding demand of money by Bachha Singh. He also confirmed that after going to the gate he ordered Bachha Singh to open the gate and allow the cart to go out. But Bachha Singh did not obey him. In the meantime he found another Durwan coming towards the gate and ordered him to allow the cart to go out of the gate and this Durwan, viz., Hari Singh opened the gate. He said further that termination of services of Bachha Singh was for demanding money but the Company offered one month's wages to him.

Shri Bachha Singh during his deposition before me denied that he asked any "bakshis" from Shri Yadav or having told anybody that it was a practice for Durwans to take "baksis". He said that he wanted to check the goods before the cart was allowed to go out. At this the cartman went to the office. He denied having received any order of dismissal but said that he was verbally told so. Bachha Singh, during cross-examination by the Company's representative, however, admitted that he was staying inside the factory premises but after he was suspended he was asked to stay out of the factory premises. He further admitted that he did not communicate to the Company any address where he could be found. He admitted that he was told by Shri Satish Krishen whom he met at the gate that he would receive a letter at his home address and he has been dismissed. During cross-examination he denied that Shri Satish Krishen, Bhargava and Sharma went to the gate with Shri Yadav on that date. Bachha Singh admitted that there was no enmity between him and others of the Company or Shri Yadav.

From facts and circumstances as revealed before me during arbitration it has been proved through corroborative evidences beyond doubt that on 27th August 1963 the Durwan in question did not allow the handcart of Shri Santoshi Yadav to go out of the factory by opening the gate and when Shri Satish Krishen, In-charge, Factory Administration, asked the Durwan to open the gate, he also did not obey him and the gate had to be opened by another Durwan. Shri Bachha Singh in his explanation stated that while he was counting the articles Shri Yadav got unnecessarily irritated and shouted at him to allow him to go without verification but when he refused he threatened to lodge a complaint against him. Shri Satish Krishen, In-charge, Factory Administration, in his deposition has stated that on receipt of the complaint he himself went to the gate and ordered Bachha Singh to open the gate but he did not obey him and in the meantime another Durwan came near the gate and he opened the gate after which the cart passed away. There is no corroborative evidence to show that Shri Yadav behaved in the manner stated by Shri Bachha Singh.

Shri P. C. Sharma in his deposition also stated that when he went to the gate hearing the "golmal" Shri Yadav reported to him about Bachha Singh's demand of money.

Shri Tapan Kumar Banerjee in his evidence stated that Shri Hari Singh, Durwan (not Bachha Singh) opened the gate for the cart to pass.

Shri Bachha Singh during cross-examination admitted that he had no enmity with any employee or Shri Yadav. There is also no proof before me to show that the management bore any grudge against Bachha Singh for his Trade Union activities or for any other thing. There is, therefore, hardly any reasonable ground to disbelieve the statements of all these witnesses who deposed against Bachha Singh.

The Management's representative during argument before me stated that Bachha Singh is a Durwan and he has lost the confidence of the management and opposed the claim for reinstatement in the interest of administration and discipline. There is weighty reason behind this argument of the management, particularly in the case of a Watch and Ward Staff who should enjoy the confidence of the management as they are entrusted with the duties of protection of employer's property.

The Association on behalf of the employee has mainly contended that natural justice has been denied to the employee concerned by the Management that the charges levelled against him is vague, that he has been victimised for Trade Union activities; further that he was suspended not pending enquiry and, therefore, termination of services for the same offence tantamounts to double punishment for the same offence which, therefore, is unreasonable. The Association has also urged that Bachha Singh's services were verbally terminated as he has not received the Company's letter, dated 2nd September 1963, purported to have been issued to him and has suggested that the charges of illegal gratification levelled against Bachha Singh is an after-thought and the Company was actuated by mala fide intention. With these arguments the Association urged reinstatement with back wages, etc., as the proper relief. There is no proof that Shri Singh was victimised for Trade Union activities. In the absence of any proof of ill motive against Bachha Singh on the part of other employees, the Association's contention that the Management was actuated by mala fide intention should fail. The employer by not holding proper enquiry into the charges denied natural justice to Bachha Singh but what was denied to him by the employer was made available to him during arbitration proceedings and had the Management conducted the enquiries properly, the misconduct could have been established.

With regard to the Association's argument that accusation of llegal gratification against Bachha Singh is an after-thought, it is a fact that in the letter of the Company, dated 27th August 1963, addressed to Bachha Singh, no mention of the illegal gratification was there and only in the letter of 2nd September 1963 stated to have been issued to Bachha Singh (the receipt of which has been denied by the Association) this accusation of illegal gratification was used. He did not receive the letter of termination dated 2nd September 1963 from the Management was due to the fact that Shri Singh did not communicate his address to the Management after his suspension. But since the Management has not made proper enquiries into the charges, the question posed strictly speaking is not very relevant.

From the facts and circumstances as revealed before me during arbitration, it has been proved beyond doubt that Shri Bachha Singh did not allow the handcart of Shri Yadav to go out of the factory by opening the gate on the day in question because his demand for "Bakshis" was not met and this is a misconduct of serious nature – the gravity of this misconduct has become all the more serious when the motive behind his conduct is taken into consideration.

In giving a decision in a case like this the Arbitrator is expected to see that fair-play is meted out to the employee on the one hand and consideration of discipline in the establishment is also not ignored. It is, therefore, obvious that there could be no hard and fast rule in this regard.

In reaching the final decision an attempt has to be made to reconcile the conflicting claims made on behalf of the employee and the employer. I do realise that the employee in question is entitled to security of service and should be protected from unfair practices on the part of the Management, but nevertheless the interest of administration and discipline in the establishment should not be lost sight of.

After careful consideration of the case from all aspects I am of the opinion that the employer's action in dismissing the service of Shri Bachha Singh cannot be called unjustified and it would not be fair and reasonable in the interest of the employee as well as the employer to direct reinstatement. An employee belonging to the Watch and Ward Cadre who, it appears, no more enjoys the confidence of the Management could not be considered to be a suitable person for reinstatement and having regard to all the circumstances involved in this case, I am of the opinion that the ends of justice would be met if I award six months' wages (basic and D.A.) to Shri Bachha Singh as compensation in view of his six years of service over and above one month's wages already offered to Shri Bachha Singh by the Management in their letter, dated 2nd September 1963, and I direct the employer to pay the sum within 15 days of the publication of this award

It appeared that suspension order was issued against Shri Bachha Singh on receipt of the verbal complaint. Substantive punishment of termination of service was awarded only on completion of such enquiries as the Management thought fit to make. It appears however that there is no certified Standing Order enforceable in this concern providing for suspension without wages. As such, suspension without wages for whatever reason it might be, does not seem to be justified, and I, therefore, award that the wages for the period of suspension, viz., from 27th August 1963 till 2nd September 1963 be paid to Shri Bachha Singh in addition to the compensation awarded by me earlier and this payment should be made along with the compensation awarded.
This is my award.

The Government of West Bengal by its Labour Department Order No. 6615-I.R./IR/10L-37(A)/62, dated 27th November 1962 and subsequent Corrigendum No. 145-I.R., dated 8th January 1963 referred to this Tribunal an industrial dispute between Messrs. Britannia Engineering Co. Ltd., P.O. Titaghur, 24-Parganas (hereinafter referred to as the Company) and their workmen represented by (1) Britannia Engineering Sramik Union, c/o Promode Ch. Talpukur, 24-Parganas, and (4) Britannia Engineering Workers' Union, Sramik Shivir, Talpukur, 24-Parganas (hereinafter referred to as the Unions), for adjudication under section 10 of the Industrial Disputes Act.

The issue framed in this case for adjudication runs as follows:

> Whether the workmen are entitled to profit sharing bonus on the profits of 1961 payable in 1962? If so, what should be the quantum?

AWARD

The question involved in this case is whether the workmen are entitled to profit sharing bonus for the year 1961. Admittedly, there had been previous references by the Government to the Tribunal over the same dispute in respect of bonus for previous years, and one such reference was before my predecessor Shri Pal which ended in an award, in respect of which an appeal is pending before the Supreme Court, and this was in respect of bonus for the year 1959. Previous to that, there was a reference in respect of bonus for six years, namely, for the years 1952, 1953, 1954, 1955, 1957 and 1958. Available surplus was found only in respect of two years, i.e., for 1952 and 1955 by Shri Sarkar who awarded two months' basic wages as bonus for the year 1952 and three months' basic wages for the year 1955. The claim for bonus for other years was disallowed by Shri Sarkar. This is the background of the present reference for bonus for the year 1961.

The Union and the Company filed their respective written statements on the above issue. The Union states that the Company earned huge profits in 1961, and the workmen are entitled to a share of the profits equivalent to five months' basic wages. This was the demand of the Union, to which the Company did not agree. The profit and loss account and the balance-sheet of the Company for the year 1961 are challanged by the Union on the ground of inclusion of certain items of unjust expenditure and capital expenditure being shown as revenue expenditure calculated to reduce the profits. The plants and machineries of the Company are adequately rehabilitated through repairs, and as such the Company does not need any further rehabilitation. The Company is using the same plants and machineries and building for the last forty-four years, and there had been not a single replacement in respect of machineries. Purchase of machineries and construction of buildings by the Company was for the purpose of expansion. Rehabilitation charges awarded to the Company in the previous awards were not utilised for this specific purpose. The Company has a large amount of money by way of depreciation, reserves and surplus, etc., which can meet the cost of rehabilitation adequately.

The amount of reserves and surplus remained unspent and was not utilised as working capital. So, no return on the said amount can be claimed by the Company.

The workmen accordingly claim five months' basis earnings as bonus for the year 1961.

The Company in its written statement denied all the allegations made by the Union. The Company contends that it did not earn huge profits as alleged During conciliation proceedings, the Company agreed to pay one month's basic wages as bonus for the year 1961, though on proper calculation according to bonus formula no such amount could be paid.

The balance-sheet and the profit and loss account of the Company do not show any item of unjust expenditure or capital expenditure as revenue expenditure. The Company is entitled to claim deduction for rehabilitation of its fixed assets.

The Company also contends that reserves and surplus were utilised as working capital during the trading year 1961, and so it is entitled to a fair return thereon. On calculation according to the Full Bench Formula, no available surplus would be found for distribution as bonus for the year 1961.

Decision

Both the Union and the Company filed calculation sheets in conformity with the Full Bench Formula of the Labour Appellate Tribunal reported in 1950 L.L.J. II, page 1247 in respect of the relevant year 1961. The financial year of the Company follows English Calendar year. The Company has filed the balance-sheet of the year 1961 and also some balance-sheets in respect of previous years. It has also submitted a detailed statement showing calculation of available surplus. The broad calculation will appear in Ext. A. The details are worked out in the successive exhibits of the Company. The Union's calculation will appear in Ext. 1.

First of all, I will turn to the balance-sheet for the year 1961, which is the bonus year in question. The profit and loss account shows the balance of Rs. 7,48,142 as the net profit of the Company for the year 1961. This figure is not challenged on behalf of the Union. The Company added back to this amount provision for taxation, which is Rs. 4 lakhs according to the balance-sheet. This adding back will also appear in the Union's calculation, and there is no controversy over it.

The next item which is to be added back is provision for depreciation, and it is Rs. 9,05,135 according to the balance-sheet. This figure is not also in controversy, and the Union's calculation shows that this amount was also added back. This is how the figure of Rs. 20,53,277 is arrived at. There is no quarrel with this figure.

On the side of the Union it is contended that some other figures should be added back so as to inflate the above figure, to which the Company takes exception. It is the argument on the side of the Union that the Company included several items of unjust expenditure on the debit side of the balance-sheet in order to reduce the profits of the year in question. This argument will have to be examined on the evidence on record—item by item. Exhibit 1 should be looked into in this respect. The first item added back by the Union is profit bonus paid for the years 1952 and 1955 as per award, dated 22nd May 1961, passed by Shri Sarker mentioned before. The total amount which was debited to the profit and loss account of 1961 is Rs. 5,28,476. According to the Union, this was not an expenditure on account of trading for the year 1961, and as such it should not be debited to the trading account of 1961. It cannot be disputed by the Company that this expenditure was unrelated to the trading of the year 1961, and so it cannot be gain said that this was an expenditure of previous years having relation to the trading results of this particular year 1961. On this point, there is decision of the Labour Appellate Tribunal reported in 1955 I L.L.J., page 430. It was decided in that case that bonus for the previous year, though paid during the year in question, cannot be recorded as an item of expenditure in the trading result of the year in question. On the authority of the decision, I support the Union's calculation in adding back the said amount. It was therefore correctly added back by the Union.

The next item added back by the Union is Rs. 86,180. It was an expenditure debited in the profit and loss account. It was a workmen and staff welfare expenditure. On behalf of the Union, it is argued that it was an unjust expenditure incurred by the Company, if at all the amount was expended, and as such it should be added back. The Company submitted a break-up of this figure in Ext. Z-5, which shows that the expenditure on medical treatment is Rs. 25,000 roughly, and Rs. 58,000 is the expense for welfare and tiffin, etc. The Union witness P.W. 1 Shri Bimal Mitra in his evidence at page 3 stated that the expenditure incurred for staff welfare should not be debited, because it is not a prior charge. He does not challenge that this expenditure was not incurred, but he wants to add it back by saying that it was not a prior charge. I think, Shri Mitra is confused over the expression of prior charge. If it is a just and legitimate expenditure and if it is debited by the Company in the profit and loss account, it cannot be added back. O.P.W. 3 Shri R. S. Jain, Commercial Manager, explained in his evidence at page 2 the particulars of staff welfare expenses. There was subsidy to canteen to the tune of Rs. 1,500 per month, and on calculation the money spent on this score during the relevant year 1961 would be Rs. 18,000. He further explained that expenses were incurred for daily tiffin to officers and senior staff and also for refreshments given to visitors who paid visit to the factory for promotion of sale and collaboration. The cost of uniform to Watch and Ward Staff was also included in the same item. The Union representative Shri Pandey contends that the expense incurred for entertainment of the visitors was not a legitimate one. But as the visitors came to the factory for promotion of sale and collaboration their entertainment cost must go towards trading expenses of the year. It was therefore correctly debited in the profit and loss account, and I am unable to accept the view of the Union that it should be added back.

The next item of Ext. 1 which is sought to be added back is the sum of Rs. 5,15,056, and it is an expenditure for capital work in progress. Now I will turn to the profit and loss account at page 11 of the balance-sheet. It shows on the credit side the value of work in progress, and it is remarked that the amount includes Rs. 5,15,056 which is capital work in progress. The Unions suggests that this was capital expenditure, and so it should be added back. This figure has been shown on the credit side in the profit and loss account. Had it

been shown on the debit side, I would have appreciated the argument advanced on the side of the Union. The amount has already been credited, and as such no question of adding back this amount can arise. The learned representative of the Union finally conceded that this figure should not be added back.

Next I come to the expenses on account of repair of buildings, plants and machineries and others, and the sum is Rs. 1,51,878 which was debited in the profit and loss account. On the side of the Union it is argued that this expenditure which is roughly to the tune of Rs. 1½ lakhs should not be accepted as repair—pure and simple, but it should be regarded as expenses towards rehabilitation, it being a heavy amount on account of repair. There is no break-up given by the Company in respect of this sum. The fact is that this expenditure was incurred for repair work as vouchsafed in the audited accounts. Shri Bimal Mitra on behalf of the Union cannot deny that there was no such repair. The value of fixed assets in the beginning of the year was roughly Rs. 1,30,00,000. Ordinary repair of the blocks worth Rs. 1,30,00,000 cannot in any event be less than Rs. 1½ lakhs annually. The expenditure on account of repair therefore cannot be said to be a heavy or unduly inflated one, having regard to the huge amount of blocks which are required to be maintained in proper order for proper running of the factory. This is a revenue expenditure, and it would be idle to characterise it as a capital expenditure, or as a sum which would reduce the rehabilitation charges. It is a revenue expenditure which is not to be added back.

The next item is rent. In the profit and loss account Rs. 1,16,000 is shown as expenses on account of rent. The Union wants to add back Rs. 15,000 out of it without assigning any reason. It is the evidence of Shri Mitra on behalf of the Union that he was under the impression that the Company did not spend so much on account of rent. His impression cannot cast any adverse notion on the audited accounts of the Company. The Commercial Manager Shri Jain stated in his evidence that rent is to be paid for the Head Office, and House Allowance is payable to the senior staff, the Company being under contractual obligation in this respect. This amount cannot, therefore, be added back.

Next I come to the miscellaneous expenditure which is to the tune of Rs. 7,58,000 roughly. The break-up of this figure can be found in Ext. X of the Company. It includes various items of expenditure as detailed therein. There is expenditure on account of travelling, stationery, telephone, etc. On the side of the Union, it is argued that the expenditure incurred by the Company on account of fuel or purchase of motor car and motor lorry or repair thereof is not a justified one. The profit and loss account shows separate items of expenditure on account of fuel and repair, and it is suggested that the expenditure on account of motor car and motor lorry as in Ext. X is likely to include the same amount twice. O.P.W. 1 Shri Jyoti Prasanna Moulik (Accountant of the Company) who was examined on the side of the Company, has stated that the balance-sheet of the Company was prepared with reference to Company's books of accounts maintained regularly, and the auditor examined those records for preparing the balance-sheet. He gave evidence on several items of expenditures as also on miscellaneous expenditure, and his statement on this point will appear at page 2 of his evidence. Nothing was put to this witness on behalf of the Union with reference to Ext. X which he proved in order to elicit from him any clarification on the items of motor lorries and motor cars so as to form the basis of the argument now advanced before me. Questions ought to have been put on the individual items of Ext. X to this witness (Shri Moulik) who was competent to explain the same, if it was the desire of the Union to challenge the varacity of the figures shown in this document. But this was not done. So, the Union cannot build the argument merely on the description of expenditures as given in Ext. X. It cannot be said that the expenditure on account of purchase of motor car and motor lorry was capital expenditure. Miscellaneous expenditures incurred by the Company have been allowed by the Supreme Court to be debited, as will appear from the calculation in the case reported in 1964 L.L.J. I, page 370. The relevant portion can be found at page 376. The Supreme Court considered the question of adding back the miscellaneous expenses, and accepted the argument that it was unreasonable to think that the same voucher had been accepted by the auditors in support of entries of expenditures under two different heads. The freight and shipping charges which were separtely shown were also included in miscellaneous expenses, and the Tribunal was held to be wrong in adding back the same. The break-up of Ext. X however, shows that Rs. 21,000 was expended as donation. This amount should be added back, and in support of the same authority can be found in the case reported in 1960 L.L.J. II, page 34 where it has been observed by the Supreme Court that a donation however charitable or philanthropic it may be, is to be added back for the purpose of arriving at the available surplus. The amount of Rs. 21,000 out of miscellaneous expenses should therefore be added back.

The next item which was added back by the Union is contribution towards provident fund. The contribution made by the Company towards provident fund has been debited in the profit and loss account, as it is a statutory obligation under the Provident Fund Act. P.W. 3 Shri Rao gave evidence on this point at page 7. It is an actual contribution by the Company towards Provident Fund and so it must be debited to the trading account of the relevant year 1961. The Company will have no control over the said sum, and it would remain under the control of the Trustees constituted under the Act. On this point, reference may be made to the case reported in 1964 L.L.J. I, page 370 at page 375, where the Supreme Court held that the Tribunal fell in error in adding back the sum of Rs. 10 lakhs and odd which was paid during the year by the Company to the Trustees of the Provident Fund. The amount was kept

apart by the employer himself, so that he would be able to make payment in future year when payment would become due. This payment of contribution towards provident fund was regarded by the Supreme Court as payment made for a demand to liability of the year in question, and it was not added back to the net profits of the year to ascertain the gross profits. The provident fund contribution made by the Company for the year 1961 cannot, therefore, be added back.

The next item is gratuity actually paid. This expenditure was incurred justly and legitimately, and as such it was rightly debited in the profit and loss account, and cannot be added back.

The above discussions exhaust the calculation of adding back by the Union in Ext. 1.

Now I will turn to the Company's deductions before arriving at the gross profits in Ext. A. The Company deducted Rs. 83,667 as provision for liabilities no longer required. I will turn to the profit and loss account at page 10. There is a credit of Rs. 83,667 during the year as provision for liabilities no longer required written back. The Company argues that this was done as the amount of provision was no longer required, and since the amount was written back it was credited. This amount had nothing to do with the trading results for the year 1961. It is not an earning on account of trade for that year. It should, therefore, be deducted in calculating the gross profits. There is considerable force in the argument advanced since the above sum was not the earning of the trading of the year. It cannot be considered in arriving at the gross profits. It was credited in the profit and loss account, and for our present purpose it should be deducted as has been done by the Company. The Union cannot successfully assail the said deduction. The Company, therefore, rightly deducted this sum of Rs. 83,667.

There is another item of deduction made by the Company, and it is extraneous receipts of Rs. 16,162. It was credited in the profit and loss account as miscellaneous receipts. Though it was credited in the profit and loss account, it was not a profit earned out of trading. It was receipt in respect of transfer fee of share and sale proceeds of drums and barrels. and as such this amount should be taken out from the gross profits of the year. The Company's Commercial Manager Shri Jain (O.P.W. 3) gave evidence on this point. He stated that this amount came from transfer fees of share scripts and sale of empty drums and barrels. There is no break up of this figure showing which portion came from receipt of transfer fees and which portion from sale of empty drums and barrels. The drums undoubtedly were part of the trading and the sale proceeds of the same should come in the trading account. The drums are not capital goods. They were purchased with the materials as containers and as such they form part of the price of the articles purchased. If the sale proceeds of such drums should come in the trading account of that year, it should not be deducted in calculating the gross profits.

The above discussion leads to our conclusion in respect of the amount of gross profits which stands thus:

	Rs.
Net profit as per profit and loss Acounts	7,48,142
Provision for taxation ...	4,00,000
Provision for depreciation ...	9,05,135
	20,53,277
Add Back	
Profit bonus paid as per tribunal award for the years 1952 and 1955 and settlement in the year 1960	5.28,476
	25,81,753
Donation in Ext. X out of miscellaneous expenses ..	21,000
	26,02,753
Deduct	
Provision for liabilities no longer required written back	83,667
	25,19,086

This is the amount of gross profits from which prior charges are to be deducted. Now I will proceed to determine the said prior charges. The first item is notional normal and multiple shift depreciation as per Income-tax Rules. The Company deducted a sum of Rs. 8,83,751 towards depreciation. The break-up will appear from Exts. Z-6 and Z-7, the summary of which can be found in Ext. O. The Union's calculation of notional normal depreciation appears in Ext. 1/1, and it is Rs. 5,38,829. Thus there is difference between the Company and the Union on this important point. In the previous award of Shri Sarkar, the Union and the Company accepted the figure of notional normal depreciation in Exts. Z-6 and Z-7. The written down value of plants and machineries, buildings and other fixed assets of the Company are stated in the first column, and additions during the year in respect of the same are shown in the second column together with the rates of deduction according to Income-tax Rules. It is 10 per cent. in respect of plants and machineries, and 50 per cent. in respect of multiple shifts. In respect of plants and machineries, all of them are worked on in two shifts as will appear from the evidence of the Works Manager Shri Rao (O.P.W. 4). He stated that about 60/70 per cent. of the machineries were running in 3 shifts. It is therefore clear from his evidence that all the machineries are run at least in 2 shifts. The Company is therefore entitled to multiple shift deduction in respect of depreciation. It is 50 per cent. of 10 per cent. in addition to 10 per cent. With regard to machineries which were acquired during the year up to June, 10 per cent depreciation is claimed, and in respect of machineries acquired between July to November in 1961, 50 per cent. of 10 per cent. is claimed, as depreciation. In respect of machineries acquired in December of that year, there is no claim for depreciation. Shri Pandey on behalf of the Union argues unsuccessfully, contrary to the Income-tax Rules, that no depreciation is to be allowed for machineries acquired during the year. This argument cannot be

accepted in view of the Income-tax Rules to the contrary. The calculation of depreciation in Exts. Z-6 and Z-7 cannot therefore be challenged on that ground. The rates of depreciation were also challenged on behalf of the Union, but the Company satisfied me as to the rates by referring to the Income-tax Rules. The calculation of notional normal depreciation in Exts. Z-6 and Z-7 cannot therefore be successfully challenged on behalf of the Union, though Shri Pandey strongly argues against it. The written down value of the assets given in Z-6 and Z-7 will appear partly from the Income-tax return submitted by the Company and accepted by the Income-tax Authority for assessment. I am unable to appreciate the calculation of depreciation made on the side of the Union in Ext. 1/1. The calculation of depreciation in Exts. Z-6 and Z-7 is summarised in Ext. O and is accepted being founded upon proper mode of calculation according to Income-tax Rules. The prior charge to be deducted on account of depreciation will therefore be Rs. 3,83,781.

The next item of prior charge is notional income-tax. The amount has been calculated by the Company at Rs. 5,34,848. It is calculated at 50 per cent. on adjusted profits less depreciation in Ext. B. Adjusted profit was calculated by the Company in Ext. A at Rs. 19,53,448. The printed calculation in Ext. B was wrong according to the Company, and I took the new calculation in pencil against the respective items. The figures in Ext. B as well as the figure of notional income-tax in Ext. A stand correct on that line. Since the adjusted profit which I accepted is a different sum, the calculation will have to be modified again. According to my calculation, the adjusted profit is Rs. 25,19,086. The calculation of notional income-tax is made therefrom. The adjusted profit comes to Rs. 16,35,335 deducting depreciation of Rs. 8,83,751. Income-tax at 50 per cent. on the above sum would be Rs. 8,17,667. The Union has calculated this figure at Rs. 15 lakhs and odd at 45 per cent. of the adjusted profits. The adjusted profit being high according to the Union, the amount of notional income-tax was proportionately high. The Union's calculation was wrong in taking 45 per cent. It is argued on the side of the Union that 45 per cent. had been calculated as notional income-tax by the Supreme Court in many cases. The income-tax rate is 50 per cent. for the year 1961, and so the calculation in other years when the rate was 45 per cent. cannot be taken into consideration for our present purpose. I accordingly accept the rate as 50 per cent. for the purpose of calculation of notional income-tax.

The next item of prior charge is return on paid-up capital. The amount of paid-up capital is Rs. 56,94,800, out of which Rs. 5 lakhs consists of ordinary shares of Rs. 10 each and preferential shares of Rs. 6,94,800. The point of dispute is the return which is to be paid on ordinary shares and preferential shares. The Company has filed a break up for the amount claimed as return in Ext. C. The total amount claimed is Rs. 4,91,727. Return on ordinary shares is claimed at 8.57 per cent., and return on preferential shares at 9.10 per cent. It is the established principle that ordinary shares should get 6 per cent. return. On the side of the Company it is argued that under the Preferential Shares Regulations on Dividend Act of 1960, the Company would be liable to pay 30 per cent. as income-tax on dividend declared before the payment of dividend is made, and as such if dividend is paid at 6 per cent., the net return to the ordinary shareholders would be 4.2 per cent. If the ordinary shareholders are to receive the net return of 6 per cent., the Company will have to declare bonus on ordinary shares at 8.57 per cent. This is why a higher percentage of dividend is claimed for this purpose. Similarly, in the case of preferential shares in order to ensure 7 per cent. net dividend to the preferential shareholders as contracted, the Company will have to declare 9.10 per cent. as dividend in order the meet the requirement of 30 per cent. under the Preferential Shares Regulations on Dividend Act. This matter came before the Supreme Court in a case reported in 1964 L.L.J. I, page 370, and there the following observations occur at page 376:

> "We see no reason also to disturb the tribunal's findings that the rate of 7 per cent. of preferential shares being a contractual one should not be diminished, and that an increase of 30 per cent. was also liable under section 3(1) of the Preference Shares (Regulation on Dividends) Act of 1960. We are of opinion that the Tribunal was also right in holding that such an increase was not admissible in respect of ordinary shares."

In view of the observations of the Supreme Court and having regard to the fact that preferential shares carry with them a contractual liability to pay 7 per cent. dividend, I accept the Company's contention that return is to be calculated at 9.10 per cent. in order to ensure 7 per cent. net to the preferential shareholders. Following the said authority and having regard to the fact that there is no such contractual liability in respect of ordinary shares, I would allow only 6 per cent. return on paid-up capital of Rs. 50 lakhs. The amount on calculation would be Rs. 3 lakhs. So, the total amount of return on paid-up capital is calculated in the following manner:

Return on ordinary shares of Rs. 50 lakhs at 6 per cent.	Rs. 3,00,000
Cumulative return on preferential shares of Rs. 6,94,800 at Rs. 9.10 per cent.	Rs. 63,227
	Rs. 3,63,227

The next item of prior charge which requires deduction is return on working capital. It is the case of the Company that Rs. 46,71,717 which constitutes reserves and surplus in the beginning of the year 1961 is shown in Schedule B of the balance-sheet of that year, and this amount was utilised as working capital during the year 1961, and accordingly the Company is entitled to 4 per cent. return thereon. On the side of the union it is argued that this amount was never utilised as working capital, and as such no return is to be allowed thereon. It is the settled principle of law that unless reserves and surplus are utilised as working capital, the Company can claim no return thereon. On the side of the Company the balance-sheet is placed before the Tribunal. On a consideration of the balance-sheet along with the evidence

of the Accountant of the Company Shri Jyoti Prasanna Maulik (O.P.W. 1) I am asked to conclude that the amount of reserves and surplus was utilised as working capital during the trading year 1961. The working capital may be defined as the excess of current and liquid assets over the current liabilities. From Schedule H of the balance-sheet of 1961, current assets at the beginning of the year can be gathered. It is rupees two crores and 57½ lakhs roughly. Schedule E to the balance-sheet shows the current liabilities at the beginning of the year, and it is roughly Rs. 67 lakhs. There is over draft account with the State Bank of India from which loan is incurred by bank over draft, and the balance of each year is shown in Ext. W. In the beginning of the year, the bank over draft stood at Rs. 1 crore 25 lakhs roughly. I have taken this figure as the amount of loan taken by the company by bank over draft for the trading of the year. This figure will come under the head 'current liabilities'. Debentures are long term loans, and as such they cannot be classed in the category of current liabilities. The total figure of current liabilities is accordingly Rs. 1 crore 91 lakhs roughly. By deducting current liabilities from current assets, the working capital is found to be Rs. 66½ lakhs roughly. Now I will come to the evidence of the Commercial Manager Shri Jain. In his evidence he stated that the working capital in 1961 was roughly Rs. 68 lakhs, and this is at page 6 of his evidence. His evidence is also to the fact that working capital would be current assets minus current liabilities. He further added that bank over draft should be considered as current liabilities. From the above figure, it is argued on the side of the Company that out of the working capital of Rs. 67 lakhs, the Company utilised reserves and surplus to the tune of Rs. 47 lakhs roughly. This utilisation, according to the Company, is writ large in the balance-sheet. If this argument is accepted, the question arises as to wherefrom the balance of working capital of Rs. 20 lakhs came. This is the question posed on behalf of the union. The union further argues that reserves and surplus were utilised for purchasing fixed assets and never used as working capital. Both the branches of union's argument should be considered. For this we should turn to the fixed assets in the balance-sheet and the value of the same. Coming to the question of the source of 20 lakhs of working capital, an argument is advanced on the side of the Company that this amount came out of share capital and debentures. The share capital in the beginning of the year is Rs. 97 lakhs roughly, and Rs. 41 lakhs roughly is the total debenture in the beginning of the year (vide Schedule C of the balance-sheet). The total amount is Rs. 98 lakhs, which is the amount available to the Company for purchase of fixed assets. The written down value of fixed assets as will appear from Schedule F of the balance-sheet is Rs. 77 lakhs. This figure is mentioned in the balance-sheet at page 9. By deducting the balance of depreciation of Rs. 55 lakhs roughly from the value of fixed assets at the beginning of the year, i.e., Rs. 1 crore 30 lakhs as shown in Schedule F of the balance-sheet, the difference between the two figures, namely, 99 lakhs and 77 lakhs would be roughly Rs. 20 lakhs which was available to the Company for being utilised as working capital in addition to reserves and surplus. The line of argument advanced on the side of the Company is quite convincing. It shows that the Company not only utilised reserves and surplus in full, but it had further working capital of Rs. 20 lakhs secured from share capital and debentures. This amount was available to the Company on balancing the value of the fixed assets as well.

The next question to be considered is whether the amount of reserves and surplus had been utilised in acquiring fixed blocks during the year 1961. It is true that in the year 1961, fixed blocks worth Rs. 30 lakhs were acquired as will appear from Col. 9 of Schedule F of the balance-sheet. Now let us see if the Company had any other money besides reserves and surplus to acquire this amount of fixed assets. I have already pointed out that Rs. 20 lakhs were available to the Company from share capital and debentures for purchase of fixed assets during the trading year. An amount of Rs. 9 lakhs were taken off as depreciation for the year in Col. 14 of Schedule F of the balance-sheet. The two figures would make up the fixed assets of Rs. 30 lakhs roughly. The learned representative for the union Shri Pandey refers to a case reported in 1963 III L.L.J. S.C., page 1, wherein it has been observed that in the absence of other evidence, mere statement in the balance-sheet as regards current assets and current liabilities cannot be taken as sacrosanct for the purpose of bonus formula. It was further observed that the correctness of the figures as shown in the balance-sheet itself is to be established by proper evidence in court by those responsible for preparing the balance-sheet or other competent witness. It is necessary and proper that the Accountant or other competent officer of the Company should come into the witness box and assist the tribunal in coming to a satisfactory conclusion on the question. The Hon'ble Supreme Court, in the absence of proper evidence, did not go by the statements in the balance-sheet in justification of the claim for return on reserves utilised as working capital. In the present case, however, the Company did not rely upon the balance-sheet alone, but put in the witness box O.P.W. 1 Shri Jyoti Prasanna Maulik, who is Accountant of the Company. His evidence is that the balance-sheet was prepared from the books of accounts regularly maintained. The schedules were also prepared from the record. The Accountant was examined in detail by Shri Pandey. His evidence is that reserves and surplus were utilised as working capital throughout the year. He further added that this money was utilised in full, and there had been borrowings from bank. He also stated that the Company would not have gone to borrow money from bank paying interest at 6 per cent. without utilising reserves and surplus. The evidence of the Accountant cannot be successfully challenged on the side of the Union. The balance-sheet is supported by the evidence of the Accountant, and in the line of discussion which I have already made the Company succeeds in proving that the amount of reserves and surplus was fully utilised as working capital during the year 1961.

The next question is whether the Company is entitled to a return of 4 per cent. as claimed. Shri Pandey points out that in Textile industry, the Full Bench granted 2 per cent. return on working capital

Shri Pandey refers to cases of 1951 and 1952 when the bank rate was 3 per cent. The Company was borrowing money on over draft at 6 per cent. and above in 1961, and they used their reserves as working capital. So, they should be allowed a return not much lower than the bank rate. The Company claims 4 per cent. return, which I think is fair. The Supreme Court allowed 4 per cent. return on working capital in several recent decisions. So, a fair return on working capital should be allowed to the Company. I consider 4 per cent. as a fair return on working capital and I allow the same. The amount is Rs. 1,86,868.

Next I will turn to the rehabilitation charge. The Company calculates the figure of rehabilitation charge at Rs. 15,99,000 roughly. The claim is challenged on the side of the union, and it is said that the Company is not entitled to any rehabilitation charge, as no rehabilitation is necessary. It is initially argued on the side of the union that the Company's plants and machineries purchased originally are still working well, and they do not require rehabilitation or replacement. The same comment is made about buildings also. Ext. F is the Company's chart showing gross rehabilitation in respect of plants and machineries divided in different blocks for a span of years showing therein the annual rehabilitation charge as well. I will consider the figures in Ext. F in respect of plants and machineries first. A company is undoubtedly entitled to rehabilitation charge under the Full Bench Formula, and the method of calculation is also laid down in several decision of the Supreme Court explaining the said formula. The onus is undoubtedly on the Company to prove by sufficient and clear evidence as to the annual rehabilitation charge required. The need for rehabilitation arises because of several times rise in the cost price of machines after the last World War. The machinery which was purchased by the Company in 1918 will cost several times more when it requires replacement in future. The Tribunal is to adopt a suitable multiplier in respect of the rise in the price of the Blocks. There is controversy as to the extent of rise in such cases. On behalf of the union, certain quotations have been filed (Ext. 2 series) from some manufacturers of machines in Howrah. With regard to those machines, the Company's evidence is that they are not worth anything, and the Company could not purchase those machines whose efficiency is untried. The Works Manager of the Company Shri Rao (O.P.W. 4) gave evidence on the point of plants and machineries. He admits that the machines mentioned in Ext. 2 were not tried, but he gave opinion that those machines could not stand continuous heavy duty work. The price mentioned in Ext. 2 series goes to show that in some cases the price of certain machines has gone down. Shri Bimal Mitra (P.W. 1) in his evidence could not connect the machines mentioned in union's quotations (Ext. 2 series) with the types of machines used in the Company. He could not also vouchsafe the efficiency of those machines. None is examined on behalf of the union to prove that those machines mentioned in Ext. 2 series were tried and found to be working well. In the absence of any such evidence, it cannot be said that the Company did not purposely purchase those machines. The Company runs in 3 shift, and the efficiency of the machine is, therefore, a paramount consideration for the purchaser. The Company cannot be blamed for not using the machines the price of which are quoted in Ext. 2 series. I accordingly discard the price quotation of the union.

Next I come to the price quotation of the Company (Ext. B series). Their quotations comprise of different types of machines. The Company has given a break-up of the figures of Ext. E in Exts. G, H, I and J. Plants and machineries are divided into blocks according to year, i.e., pre-1939 block, blocks acquired in 1940-1944, 1945-1948, 1949-1954, 1955-1958 and 1959-1960. The quotations given by the company are challenged on the side of the union, and they are characterised as collusive inflations of the price with a view to obtain greater rehabilitation charge for the purpose of bonus formula. A statement is filed (Ext. 6) by the union showing that Company's quotations are inflated in several cases with regard to pre-1939 blocks, and they are to be found in serials 1—9 in Ext. G filed by the Company. Serial Nos. 2, 5, 6 and 8 are included in the list marked Ext. 6. Purchase of machines as shown in Ext. R series of the Company was made in case of serial No. 3 in 1961 for Rs. 41,000 though the quotation in 1963 is Rs. 46,000. Similarly purchase was made in case of serial No. 5 in 1961 for Rs. 23,000 while the quoted price in 1963 is Rs. 44,000. These quotations show the inflated amounts. In the same way, the Company quoted price in 1963 at a rate much higher than the rate at which the Company purchased the same machine in 1961. This is also the case in respect of serial No. 10 of the machines purchased in 1940-44 and also in 1959. Similarly, my attention was drawn to serial Nos. 13, 22, 23 and 17. In the previous bonus case before Shri Pal the above quotations were must less in case of serial Nos. 7, 3 and 11. That was a case which was decided by Shri Pal in 1962 in respect of bonus for 1959. The quotations which are filed by the Company, should not therefore be accepted in toto. There is also another factor to be considered. From the evidence of the Works Manager Shri Rao (O.P.W. 4) it will appear that the machineries of which quotations are given, are not the exact machineries which are replaced. New machineries would be more efficient and modernised and so greater production can be had from the use of those machines. The specifications of machineries quoted in Ext. B series do not also exactly tally with the specifications of machineries which are to be rehabilitated. The old machines driven by belt are in most cases replaced by machines driven by motor. Of course, rehabilitation means not only replacement but also modernisation. It has been observed by the Supreme Court in the A.C.C. case that the problem of determining the probable cost of replacement is very difficult, but the difficulty is immeasureably increased when it is remembered that the claim for rehabilitation covers not only the case of replacement—pure and simple—but rehabilitation and modernisation also. In the context, rehabilitation is distinguished from ordinary repairs which could come into the working expenses of the industry. It is also distinguished from replacement. It is quite conceiveable that certain parts of machines which consist of block may need rehabilitation, though the block itself may carry for a number of years. Expansion of plants and machineries is not

included in this item, but in several cases it is not easy to distinguish between modernisation of the plant and machinery and its expansion. By the introduction of modern plants and machineries, the production capacity of the industry appreciably increases. Having considered all these factors, the multiplier that is taken by the Company should be reduced to some extent. Previously, there had been a bonus case before my predecessor Shri Sarkar, and the award is filed before me. The award was published in the "Calcutta Gazette" in May 1961. This award was in respect of bonus for several years up to 1958. Shri Sarkar considered the question of rehabilitation in paragraph 18. Having considered all the factors before him, Shri Sarkar came to the conclusion that the multiplier of pre-1939 block would be 5, for 1940-1944 block and 1945-1948 block it would be 3, and for 1949-1954 block it would be 1.5. This multiplier was arrived at in a previous award and was accepted by both the parties, and so it should not be easily disturbed. In this connection, I may refer to the case reported in 1964 L.L.J. I, page 370, wherein it has been observed that once the question as to what was ncesseary for rehabilitation and for how many years it should be spread, has been decided by the industrial adjudication after proper investigation and careful scrutiny of the eivdence adduced in any one year, the assessment thus made ought not to be lightly disturbed when the question comes up again in any future year in respect of rehabilitation. In the A.C.C. case reported in 1959 I L.L.J. S.C., Page 644 at page 668, it has been observed that the tribunal should not confine itself to the price level prevailing in the bonus year. But the price level should be projected into the future in the light of the subsequent price level. Shri Sarkar was conscious of this principle when he was deciding the case in 1961, and he considered the price level of 1960 in respect of which quotations were filed. He made his award in 1961. In the bonus case, which I am deciding, I should also take into consideration the projected price level of 1962 and 1963. In the present case the clear evidence is that price has gone higher in 1962 and 1963 than the price level of 1960 and 1961. I should accept the multiplier on which Shri Sarkar proceeded in calculating the rehabilitation cost. For the reasons recorded above, my finding in this case is that the multiplier for pre-1939 block would be 5, for 1940-1944 block and 1945-1948 block it would be 3 and for 1949-1954 block it would be 1.5. With regard to the block 1955-1958, I think, the same rate of multiplier would apply, i.e., 1.5. Calculations are to be made on that basis.

The next question to be considered is the life of the machineries and the block. The Company has taken the average life of the machineries at 25 years. On this point, the Company examined its Works Manager Shri Rao (O.P.W. 4). The evidence of Shri Rao is that light machines give precision work for 5 years, while heavy machines give it for 12/15 years, and comparatively less precision work can be obtained for 3/4 years more. If that is the evidence, I fail to understand why 25 years was taken as the average life of the machines by the Company. There is however no such evidence that at interval of such period, the machines were rehabilitated in the past. There is no evidence as to how many machines are heavy and how many are light. The Commercial Manager of the Company Shri Jain attempted to say in his evidence that some of the machines are working for the last 15 years. Shri Sarkar in his previous award took the average life of the machines at 25 years, and I should not disturb that finding. On the evidence before me, that finding can be upheld. The average life of the machines is therefore taken at 25 years.

Next I turn to buildings. Exhibit K shows the details of rehabilitation charges in respect of buildings divided into several blocks, and the blocks are pre-1939 block, 1940-1948 block, 1949-1954 block and 1955-60 block. 3.5 is the multiplier taken for pre-1939 block, 2 is the multiplier for 1940-1948 block, 1.5 for 1949-1954 block and 1.25 for 1955-1960 block. The break-up of these figures can be found in Exts. L., M. and N. The Company's Civil Engineer Shri Gopalan was examined on this point. He stated that the cost of construction was 300 to 400 per cent. higher than what it was in 1938/1939. The multiplier for pre-1939 block can therefore be taken as 3. It was the same multiplier taken by Shri Sarkar in his previous award. With regard to the multiplier 2 for 1940-1948 block, it appears to be reasonable, having regard to the rise in the price of building materials and labour. It is argued that there has been rise in the cost of construction in respect of that block. But there is no cogent evidence that the multiplier would be 2. I reduce it to 1.5. With regard to 1949-1954 block, the multiplier is similarly reduced to 1.25 instead of 1.5. The multiplier for 1955-1960 block remains the same.

The next question is the average life of the buildings. Buildings consist of factory sheds and other structures inside the factory area. The average life of the buildings has been calculated at 30 years by the Company. Shri Sarkar in his previous award came to the finding that 30 years should be taken as the average life of the buildings and sheds of the Company. On the side of the Union, it is argued that the average life of the buildings would be much more. It is significant to point out that the office building inside the factory area is also liable to damage owing to vibration of heavy machines, and the Civil Engineer Shri Gopalan gave evidence to that effect. The average life of 30 years in respect of buildings should therefore be accepted for the purpose of the present case. The calculation of rehabilitation charge for plants and machineries on that basis is tabled below. The chart for calculation in respect of buildings follows immediately after.

			34,84,818				50,67,952		2,96,215

From the above figures we can get the total requirement for replacement of the plants and machineries and buildings as well. We have also got the original cost of the said blocks. Now I will come to the question of deduction from the total replacement cost of the said blocks. It is argued on the side of the Union that the Company has a reserve of Rs. 46.71 lakhs which is to be deducted from the total rehabilitation charge. It is further argued on behalf of the Union that the total depreciation on different blocks should also be deducted. The balance-sheet at page 17 shows that accumulated depreciation as per last account was Rs. 55,16,684, and the depreciation written off during the year was Rs. 9,05,135. It is argued on behalf of the Union that the total amount of depreciation lying in the hands of the Company for the purpose of rehabilitation would be Rs. 64,21,819. The learned representative on behalf of the Union Shri Pandey relies on Saxby & Farmer case reported in 1955 L.A.C., page 707. The relevant portion appears at page 711. Shri Basu, learned Counsel for the Company, challenges the authority of that proposition, and submits that the accumulated depreciation of Rs. 55 lakhs cannot be deducted, because it was not available to the Company for rehabilitation at the end of the year. I think, there is considerable force in the argument advanced on behalf of the Company. In order to deduct the accumulated depreciation, it must be shown that the said amount is available for rehabilitation. The evidence adduced on behalf of the Company is that the accumulated depreciation was not available to the Company in view of the fact that the said amount had already been utilised in acquiring fixed assets. The balance-sheet should be looked into in support of the said argument. The balance-sheet shows in Schedule F, which is a Schedule of fixed assets, that the total cost of block assets is roughly Rs. 1 crore 30 lakhs. It is the evidence of Shri Jain that during the year 1961 fixed assets worth Rs. 30,00,000 had been acquired. Thus the total value of fixed assets was Rs. 1 crore 60 lakhs. It is the evidence of Shri Jain that fixed assets were purchased out of share capital, debentures and depreciation fund, i.e., the accumulated depreciation up to the end of 1960.. The total amount of share capital is Rs. 57 lakhs, debentures 41 lakhs and accumulated depreciation 55 lakhs. The total is about Rs. 154 lakhs as deposed by Shri Jain. Fixed assets worth Rs. 1 crore 60 lakhs were acquired with the said resources including accumulated depreciation. There is no other money available to the Company for acquiring the extent of fixed assets shown in the balance-sheet. It is therefore obvious that the accumulated depreciation was not available to the Company during the bonus year for rehabilitation, because it has already been applied in acquiring fixed assets. The case of Saxby & Farmer relied on by the learned representative for the Union, stands on a different footing. In that case, the accumulated depreciation was available for rehabilitation. But in the present case, it is not available, and as such the question of deduction does not arise. Here, I may refer to the calculation at page 681 of the A.C.C. case reported in 1959 I. L.L.J., page 644. In that case only reserves were deducted and not accumulated depreciation. Depreciation for 1961 should however be deducted. In the balance-sheet, the depreciation for the year is Rs. 9 lakhs roughly. But it will appear from Ext. O which is a detailed statement of depreciation for the year 1961 that depreciation on account of plants and machineries would include the following figures, i.e., Rs. 5,19,433 on account of plants and machineries, Rs. 6,696 on account of tubewell and Rs. 33,994 on account of electric installations. The total figure is Rs. 5,60,123 on account of plants and machineries. On account of building, the figure of depreciation is Rs. 24,589. The other amounts are in respect of furniture, railway siding, motor lorry, etc., which are not to be taken into account as relating to plants and machineries and buildings. Shri Sarkar in his previous award took identical figures for the purpose of calculating depreciation. These figures are to be deducted from annual depreciation calculated in the tables already shown.

The next question is whether I should deduct the amount of reserves and surplus. I have already found that the amount of reserves and surplus was utilised as working capital during the year. The principle which governs deduction in this respect was elucidated in a recent case reported in 1963 L.L.J. II, page 358 (Titaghur Paper Mills case). The relevant discussion occurs at page 364, and may be quoted thus:

"As we have already pointed out, the amount of working capital thus arrived at, if there is evidence that it was actually used as working capital for the year, may be allowed interest in accordance with the Full Bench Formula. But then we come to the end of the year, i.e., 31st March 1956. At that time, we have again to see what the position of the reserves is. The reserves may be again in the form of cash reserves or investments or advances and also in the form of raw materials, etc. From these reserves working capital for the next year may have to be calculated and if evidence is given that it has been actually used, interest may have to be allowed on it; but that is no reason for not deducting that part of the reserves which is in the shape of cash reserve, investments or advances on the ground that it is not available for rehabilitation, as it may be used as working capital for the year 1956-57. Only that part of the reserves which is earmarked as indicated already, cannot be deducted for purposes of rehabilitation, for it will not be aavilable for that purpose and would be consumed or sold during the course of the next year or used for a specific purpose. But all other reserves are available for rehabilitation on 31st March 1956 and have to be deducted from the gross rehabilitation amount for the year. The tribunal in this case however has not followed this principle on a misappreciation of the effect of the judgment of this Court in Khandesh Spinning and Weaving Mills Company case (1960 I, L.L.J. 541 vide supra). All that that decision lays down is that that part of the reserves which go to make up the working capital which is in the shape of raw materials, etc., or earmarked reserve, will not be deducted from the gross rehabilitation amount; it does not lay down that all cash reserves in the shape of depreciation reserve, general reserve, renewal reserve and so on and also in the shape

of investments and advances cannot be deducted from the gross rehabilitation amount as they may be used as working capital next year. This means that the Tribunal has to recalculate the rehabilitation amount due in view of what we have said above."

Thus the part of the reserve which is not in the shape of raw material or earmarked reserve available at the end of the year 1961, would have to be deducted. The Company did not make any deduction in respect of general liquid reserve, because it is the evidence of the Accountant that no such liquid reserve was available to the Company. I will now examine the position at the end of the year 1961, and see if there is any liquid reserve which was available to the Company and not in the shape of raw materials, etc. Schedule H shows that current asset at the end of the year was Rs. 2.72 crores roughly. The amount of miscellaneous expenditure of Schedule I should be considered as current assets. The figure in this respect is about Rs. 2 lakhs. So, the total figure of current assets is Rs. 2.74 crores. Now the current liabilities at the end of the year can be found by totalling Schedule E, i.e., current liabilities and bank overdraft in Schedule C. The two figures are Rs. 1.04 crores and Rs. 1.23 crores. The total is Rs. 2.27 crores. This is current liability. The difference of current asset and current liability is accordingly Rs. 47 lakhs, which would be working capital in the next year. Now the question is whether this amount of current asset is in liquid form or in the form of cash receipt and is invested in raw materials, etc. For this the balance-sheet may be again looked into. The balance-sheet shows that the share capital is Rs. 57 lakhs at the end of the year and the debenture is Rs. 37 lakhs at the end of the year. The total is Rs. 94 lakhs. This amount equates approximately the value of fixed assets at the end of the year, which is Rs. 98 lakhs roughly. The reserve at the end of the year as per Schedule B would be Rs. 48 lakhs, secured loan Rs. 1.61 crore, unsecured loans about Rs. 1 lakh, current liabilities Rs. 1.05 crore, and the total is Rs. 3.50 crores. Debenture being long-term loan should be excluded from the figure of secured loans in the balance-sheet. The total is therefore Rs. 2.78 crores. At the end of the year these are the liabilities of the Company. I have examined the figure of current asset which is Rs. 2.74 crores. From a comparison of the two figures it can be concluded that the Company has no substantial cash reserve, and that all the resources of the Company are in the form of raw materials and similar current assets. Ext. II which is schedule of current assets may also be looked into in this respect. Only the cash balance of the Company would total about Rs. 1 lakh. This amount was kept in the bank on different accounts, namely, 'work at hand', 'dividend account' and 'savings account'. The amount is also not a substantial one, and no useful purpose would be served by deducting it from the gross cost of rehabilitation.

The Union asks me to deduct rehabilitation grants of the previous years awarded by Shri Sarkar and Shri Pal from the annual rehabilitation which I may grant during the year 1961. Shri Sarkar's award shows that he deducted rehabilitation grant of each year from the rehabilitation grant of the successive year. Shri Pal in calculating bonus for 1959 also allowed rehabilitation grant, and it was Rs. 1.96 crores roughly. Coming to the question of principle, it was laid down in the A.C.C. case that the rehabilitation amount which had been allowed to the employer in previous years would also have to be deducted. The A.C.C. case is reported in 1959 I L.L.J., page 644. The relevant portion of the discussion appears at page 670, and may be quoted here:

"Before actually awarding an appropriate amount in respect of rehabilitation for the bonus year certain deductions have to be made. The first deduction is made on account of the break-down value of the plant and machinery which is uusually calculated at the rate of 5 per cent. of the cost price of the block in question. Then the depreciation and general liquid reserves available to the employer are deducted. The reserves which have already been reasonably earmarked for specific purposes of the industry are, however, not taken into account in this connection. Last of all, the rehabilitation amount which may have been allowed to the employer in previous years would also have to be deducted if it appears that the amount was available at the time when it was awarded in the past and that it had not been used for rehabilitation purposes in the meanwhile. These are the broad features of the steps which have to be taken in deciding the employer's claim for rehabilitation under the working of the formula."

From the above quotation, it will appear that various deductions as indicated therein are to be made from the gross rehabilitation grant. The first deduction is 5 per cent. of the scrap value. Then there is depreciation. Thirdly there is general liquid reserve available to the employer, and last of all, rehabilitation amount which may have been allowed to the employer in previous years would also have to be deducted. It is therefore clear that all these deductions are to be made from the gross rehabilitation amount and not from the annual rehabilitation grant, as has been contended on behalf of the Union and also not in the manner as deducted by Shri Sarkar in his previous award. In a subsequent case of the Hon'ble Supreme Court reported in 1963 II L.L.J., page 358, this point was also considered at page 363. In this reported case, the net figure arrived at for rehabilitation for that year, namely, for 1954-55 was Rs. 33 lakhs. In that case after deducting other prior charges (except rehabilitation charge) Rs. 24 lakhs was the available surplus. But the Tribunal did not grant any bonus as the amount was falling short of the rehabilitation grant. So, it was clear in that case that Rs. 24 lakhs out of rehabilitation amount of Rs. 33 lakhs was left in the hands of the employer as rehabilitation amount. The Tribunal in that case ignored this fact altogether in calculating the rehabilitation amount for the year in dispute. In quoting the A.C.C. case it was further observed that all the rehabilitation amount which may have been allowed to the employer for rehabilitation in previous years but remained unused for rehabilitation in the mean time, has to be taken into account in arriving at the amount required for rehabilitation. In my judgment, such rehabilitation amount remaining

unused for rehabilitation, will have to be taken into account by deducting from the gross rehabilitation grant, and it would be absurd to deduct it from the annual rehabilitation figure. This is clearly indicated in the A.C.C. case which I have quoted and discussed above. Now the question is what is the amount of rehabilitation grant in the different awards of Shri Pal and Shri Sarkar in previous years, but remained unused for the purpose of rehabilitation. The award of Shri Sarkar will show that the rehabilitation grant was as follows:

1952	...	Rs. 2,97,641
1953	...	Rs. 2,19,214
1954	...	Rs. 2,98,995
1955	...	Rs. 2,41,004
(Shri Pal's award) 1959	...	Rs. 1,96,067
Total amount awarded	...	Rs. 14,66,486

Now with regard to the year 1953, though the rehabilitation grant by Shri Sarkar was Rs. 2 lakhs and odd as quoted above, in fact he found that the gross profit after deducting other prior charges was Rs. 1,69,038. So, that should be the amount taken as rehabilitation grant for that year. The total figure therefore comes down to Rs. 14,16,310 (roughly Rs. 14 lakhs). The Company must prove that the rehabilitation allowed in those awards has been used for the purpose of rehabilitation. It is true that the Company filed statements to show that assets worth Rs. 30 lakhs were acquired in 1961. The mere fact that blocks were acquired during the years subsequent to 1959, will not prove that those blocks were acquired by way of rehabilitation. There is no satisfactory evidence that the amount awarded for rehabilitation had been used for that purpose. I therefore find that Rs. 14 lakhs and odd should be deducted from the gross rehabilitation figure.

Now I will come to the calculation of available surplus. I have already found that the adjusted profits comes to Rs. 25,19,086. The prior charges are tabled below:

Notional normal depreciation	Rs.	8,83,751
Notional income-tax ...	Rs.	8,17,667
Return on paid up capital ...	Rs.	3,63,227
Return on working capital ...	Rs.	1,86,868
	Rs.	22,51,513

The total of prior charges comes to Rs. 22,51,513. Thus the available surplus without even calculating the rehabilitation charges comes to Rs. 2,67,573 (Rs. 25,19,086 minus Rs. 22,51,513).

Now I will turn to rehabilitation charges. The tables given hereinabove will show that the total rehabilitation charge of machineries is Rs. 1,26,41,403, and the annual rehabilitation charge after 5 per cent is deducted as scrap value is Rs. 12,88,322. This is for plants and machineries. With regard to buildings, the total rehabilitation is Rs. 50,67,952, and the annual rehabilitation works out to Rs. 2,96,215. Depreciation on blocks on which rehabilitation is calculated is to be deducted. For machineries it is Rs. 5,60,123 and for buildings it is Rs. 2,24,589. The net rehabilitation charge required on that calculation is Rs. 7,28,199 for machineries plus Rs. 71,626 for buildings i.e. Rs. 7,99,825 in total. Now I deduct from gross rehabilitation the sum of Rs. 14,16,310. The amount of annual rehabilitation would be reduced by a small sum, and on calculation it comes to Rs. 7,35,655. Thus the total rehabilitation charge would be Rs. 7 lakhs and odd. In the award of Shri Sarkar, the rehabilitation charge calculated was Rs. 5 lakhs and odd. But since the award was made, there had been some additional blocks and there had been also some rise in the price, the annual rehabilitation for 1961 is expected to go high to some extent.

The surplus in the hands of the Company is not sufficient to meet the rehabilitation charge as calculated by me. Even if I accept the Union's contention that the gross rehabilitation charge should be reduced by the amount of reserves and surplus in the hands of the Company at the end of the year 1961 accepting the contention that it was not in the form of raw materials, the figure works out at Rs. 46 lakhs roughly. The annual rehabilitation charge would be reduced by one-fourth of the figure calculated above. The amount would be approximately Rs. 2 laks for the purpose of rehabilitation. The surplus in the hands of the Company before meeting the rehabilitation charges is Rs. 2 lakhs and odd, and accordingly after meeting the rehabilitation charge as calculated in the manner suggested by the Union, no surplus would be available for distribution as bonus. In any event, there is no available surplus in 1961 from which bonus may be given to the workmen for that year.

This is my award.

ANNEXURE

In the matter of an application under section 33A of the Industrial Disputes Act filed by Shri Prodip Chandra Das, Conductor, C/71 Bagha Jatin Palli, Calcutta-32, an employee of Calcutta State Transport Corporation, 5 Nilganj Road, Belghoria, 24-Parganas, against the aforesaid Corporation (Case No. 85 of 1963, under section 33A.)

BEFORE THE FIRST INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

Shri RENUPADA MUKHERJEE, Judge, First Industrial Tribunal

This is an application under section 33A of the Industrial Disputes Act by one Prodip Chandra Das who was a conductor under Calcutta State Transport Corporation, respondent of this petition. His allegation was that while in the service of the Corporation he was illegally discharged with effect from 27th November 1962 and his name was removed from the roll of the Corporation.

A written statement was filed on behalf of the Corporation in which it was contended that the petitioner was a Badli conductor in the employment of the Corporation and his name was lawfully removed from the panel of Badli workers after a proper enquiry was made into some misconduct committed by the petitioner.

The original reference out of which the present application arose was made under Government Order No. 6436I.R./IR/4L-33/62, dated 12th November 1962.

Award

I need not go into details regarding allegations and counter allegations of the parties. The petitioner filed a verified application on 13th July 1964 withdrawing his application. It has been stated in that petition that he has made an appeal to the Chief Executive Officer of the Corporation for re-absorption and he has been told that his prayer for re-absorption will be considered after he withdraws his application under section 33A of the Industrial Disputes Act. Along with the application for withdrawal the petitioner has filed a copy of a letter of the Chief Executive Officer. On a consideration of that letter and after hearing the workman in person as also the representative of the Corporation I am of opinion that there is a bona fide attempt at settlement and the petitioner should be permitted to withdraw his application. I, accordingly, permit the petitioner to withdraw the application which he made under section 33A of the Industrial Disputes Act.

AWARD

By Order No. 3682-I.R./IR/11L-107/63, dated the 31st August 1963, the Government of West Bengal, in the Labour Department, referred under section 10 of the Industrial Disputes Act, 1947, the industrial dispute between Messrs. New Cinema Kumari Talkie House, P.O. Bishnupur, district Bankura, and their workmen represented by Bishnupur Branch of Bengal Motion Picture Employees' Union, c/o Shri Sakharam Gain, Manashatala, Jeliapara, Bishnupur, district Bankura, regarding the matter specified in the schedule to the Third Industrial Tribunal, constituted under section 7A of the Industrial Disputes Act, by Notification No. 808-I.R./IR/3A-2/57, dated the 11th March 1957, for adjudication.

Issue

Whether the dismissal of Shri Dinesh Chandra Daw is justified? What relief, if any, is he entitled to?

This is a reference made by the Government of West Bengal, in their Labour Department, for adjudication of an industrial dispute then existing between Messrs. New Cinema Kumari Talkie House, P.O. Bishnupur, district Bankura (hereinafter be referred as the Talkie House), and their workmen represented by Bishnupur Branch of Bengal Motion Picture Employees' Union, c/o Shri Sakharam Gain, Manashatala, Jeliapara, Bishnupur, district Bankura (hereinafter be referred as the Union).

It may be noted at the outset that it was a defective reference in as much as addresses of both the parties were mentioned incorrectly in the order of reference which had to be corrected by this Tribunal after reference made to the Government and also to the Bengal Motion Picture Employees' Union at Calcutta. In the order of reference the New Cinema Kumari Talkie House has been described to be of P.O. Bankura and the workmen have been described as represented by Bengal Motion Picture Employees' Union, Bankura Branch, Jinasini Lane, P.O. and district Bankura, but the above addresses of both the parties are incorrect and inaccurate. The Talkie House is situated in Bishnupur under P.O. Bishnupur in the district Bankura and the workmen are really represented by Bishnupur Branch of Bengal Motion Picture Employees' Union under the care of Shri Sakharam Gain, Manashatala, Jeliapara, P.O. Bishnupur, district Bankura. Such material inaccuracies and defects should not have crept into the reference. This should be avoided by all means. However, after ascertainment of the correct addresses of the parties usual procedure was followed. The Union filed written statement but before the Company could file any the dispute under reference was settled amicably. The dispute was in connection with dismissal of Shri Dinesh Chandra Daw.

Both parties have filed a joint petition of compromise on 27th July 1964. In terms of the settlement the workman Dinesh Chandra Daw has been reinstated with wages and the period of his unemployment will be treated as on leave. The terms of settlement on the whole are satisfactory. So, I accept them and make an award on compromise in terms thereof. The joint petition will do form part of the compromise award as annexure thereto.

Candidates who are unable to obtain copies of the prescribed form may apply on any similar typed (not handwritten) form showing exactly the wording and spacing of the sample form published in the "Calcutta Gazette" of the 1st September, 1955, provided the blanks are filled up in the candidates' own handwriting.

(2) **Concession in age to political sufferer:** A candidate who before 15th August 1947 was detained, imprisoned, interned or externed on account of his/her activities in connection with the country's struggle for independence, not being convicted of an offence indicating moral turpitude, shall be entitled to a concession in respect of the upper age limit. The concession granted will be equal to the exact period of detention, imprisonment, internment or externment suffered up to a maximum of four years.

(3) **Particulars and certificates required:** Candidates should furnish evidence of their age, qualifications and previous experience together with certificates written not more than one year prior to the date of their applications, from responsible persons, testifying to their private character.

The Commission accepts only the age of a candidate as recorded in the Matriculation or the Secondary School Final/Leaving Certificate. In the case of a female candidate whose age is not recorded in the Matriculation or School Final Certificate, any of the following evidence of age is accepted by the Commission:—

1. A certificate from the Headmistress of the School, which she last attended, showing her exact age as recorded in the school register.
2. An affidavit regarding her age sworn by her father or mother or some other person in a position to know by having been present or heard of her birth at the time of occurrence.
3. A certificate regarding her age, from a Member of the Legislature or a gazetted officer, who must have known the candidate and her family, indicating clearly the evidence on the basis of which he/she satisfied himself/herself on the point.

(4) **Fee:** Candidates must enclose with their applications a fee of Rs. 5/- in the form of a receipted chalan from a Government Treasury or the Reserve Bank of India under the head "XXI—Miscellaneous—Receipts of the Public Service Commission, West Bengal". Money orders, cheques, etc., in lieu of treasury chalans are not accepted. Postal orders, however, may be accepted from candidates. They should be crossed and made payable to "The Deputy Secretary, Public Service Commission, West Bengal". No application will be considered unless accompanied with the requisite application fee.

Candidates abroad may deposit their application fees with the High Commissioner of India or the Embassy, as the case may be, and obtain receipts for the same, which will have to be attached to their applications to be submitted to the Commission.

Candidates in Government service should make sure before depositing fee that their applications will be forwarded by their superior officers. In no case will the fee paid with the application be refunded.

Note.—A member of the Scheduled Caste or Scheduled Tribe claiming age concession must furnish with his application a certificate in original from a gazetted officer or a Member of Parliament or State Legislature belonging to the Scheduled Caste or Scheduled Tribe, specifying the particular caste or tribe to which he claims to belong.

(5) **Address:** Candidates should give their present address and should communicate at once any subsequent change of address.

(6) **Canvassing:** Any attempt on the part of candidates to enlist support of their applications through persons of influence or officials of Government will disqualify them for appointment. Spontaneous recommendation from persons interested in the candidates or otherwise known to them will be disregarded.

(7) Applications from candidates who are in permanent or temporary employment under any Government, a local or Statutory Body (e.g., Damodar Valley Corporation), in India will be rejected unless they are submitted through the appointing authority of their posts or service.

Candidates serving under Government or a local or Statutory Body should submit an advance copy in the prescribed form. The application fee should in such cases be attached to the advance copy and not to the original. The candidature of such applicants may not however be considered if the original applications do not reach the Commission's office within a fortnight from the closing date. Unless applications in original or advance copies with application fees are received within the closing date, late applications may be rejected.

AWARD

By Order No. 6326-I.R./IR/10L-5(D)/62, dated the 13th November 1962, the Government of West Bengal, in the Labour Department, referred under section 10 of the Industrial Disputes Act, 1947, the industrial dispute between Messrs. Calcutta Electric Supply Corporation, Victoria House, Calcutta, and their workmen represented by Bijli Mazdoor Union, 7B Rani Rashmoni Road, Calcutta-13, regarding the matter specified in the schedule, to the Third Industrial Tribunal, constituted under section 7A of

the Industrial Disputes Act, by notification No. 808-I.R./IR/3A-2/57, dated the 11th March 1957, for adjudication.

Issue

Whether the termination of service of the following workmen is justified? To what relief, if any, are they entitled?—

(i) Ramlagan Ram, Durwan, Head Office.

(ii) Lalta Prasad, Assistant Boiler Attendant of Southern Generating Station.

(iii) Jagat Singh, Lamp Lighter, Howrah.

This is a reference under section 10 of the Industrial Disputes Act, 1947, made by the Government of West Bengal, in their Labour Department, for adjudication of an industrial dispute relating to dismissal of three workmen by the employer. The dispute under reference was raised by the workmen of Messrs. Calcutta Electric Supply Corporation, Calcutta, represented by Bijli Mazdoor Union, 7B Rani Rashmoni Road, Calctuta-13 (hereinafter be referred to as the Union), against their employer, viz., Messrs. Calcutta Electric Supply Corporation (hereinafter be referred to as the Company).

Both parties appeared before the Tribunal on receipt of notices issued to them and filed their respective written statements.

Briefly stated, the Union's case in the written statement is that the Company with the support of its recognised Workers' Union created a very unfavourable position for the workmen. So, a new Union was formed in 1960 with a view to ameliorate the poor service conditions of the workmen. The newly formed Union goes by the name "Bijli Mazdoor Union" (C.E.S.C.). The Company was annoyed at this formation of a new Union and started to victimise the members of the new Union. Workman Ramlagan was employed as a durwan in the Head Office of the Company where he was the only member-organiser of the new Union. He was appointed as durwan in 1952 after relinquishment of his employment in the Calcutta Police. In October 1960 he was in the grip of stomach pain as a result of a previous operation. He was first treated by the Company's doctor but subsequently on the advice of the Company's doctor he was sent to the Medical College, Calcutta, for proper treatment. The Medical College doctor recommended light duty for Ramlagan. But the rocommendation was ignored by the Company's Deputy Commercial Manager. So, he had to move in the matter to the Labour Commissioner, Government of West Bengal, through his Union. His grievances were placed before the Labour Commissioner by letter, dated 7th March 1961. Thereupon the Conciliation Officer invited the employer's comments on the representation of the workman. The Company replied by letter, dated 29th March 1961. On the same day workman Ramlagan was asked by the Company to show cause why he would not be proceeded against for abusing and threatening Bachittar Singh. The workman replied to the said show cause notice. But the Company framed charges against him and proceeded to hold an enquiry. In the enquiry he was not allowed to produce his witnesses and to cross-examine the witnesses of the Company. Moreover, he was not allowed to have his nominees at the Enquiry Committee. So, it was an arbitrary and unfair enquiry. He having preferred an appeal to the Commercial Manager against the finding of the Enquiry Officer, was not allowed to make his submission before the Appellate Officer. So, it was an illegal and wrongful order of dismissal passed against him. He is, therefore, entitled to reinstatement with full wages for the period of forced unemployment.

Another workman Lalta Prasad while on duty on 29th April 1961, fell sick and reported accordingly and returned to his quarters. He became very sick and applied for sick leave but no reply was received from the Company. After about two months he fully recovered and on 29th June 1961 he presented himself for resumption of duty. A medical cetrificate of fitness was produced from a registered doctor but he was not allowed to join his duties and was told that his services had already terminated automatically under clause 13(a)(e) of the Standing Orders. The workman having not yet accepted the provident fund money and retiral benefits is entitled to reinstatement in as much as his absence for two months was covered by a medical certificate which he produced when he came back to resume his duties. So, he should be reinstated.

There was another workman Jagat Singh who went on casual leave but himself having fallen ill went to his native village. The Company by its letter, dated 24th August 1961, intimated him about automatic termination of his employment under clause 13(e) of the Standing Orders. The workman having applied for sick leave for the period of his absence, his service was not liable to be terminated automatically under the provisions of the Standing Orders. Therefore, he should also be reinstated with full wages for the period of unemployment.

The Company's case in the written statement is that before the present Union came into existence, as alleged by the Union, about the middle of 1960, there had been in existence three more Unions of the workmen of the Company, of which the C. E. S. Workers' Union which has been in existence from before 1947 represents the majority of the workmen and, therefore, it was recognised by the Company and that recognition still continues. The workman Ramlagan was a member of that Union and it is not known to the Company when he left that Union and became a member of Bijli Mazdoor Union. This workman was discharged from West Bengal Police on invalid pension. Thereafter he was appointed by the Company on a temporary basis as a durwan from 13th of November 1952. He was recipient of several warnings, some are verbal and some are in writing. So, he was not confirmed until 1st April 1955. He was given the first warning on 9th June 1954 and the second one on 30th August 1960. Of course, by operation of the provisions of clause 14(c) of the Standing Orders of the Company the first warning be cancelled and the second written warning be treated as the first in view of the fact that there was no fresh record against the workman for three years. This workman frequently availed

of sick leave and other kinds of leave and lastly he took sick leave for forty-three days from 8th October 1960 to 7th December 1960. During this period of leave he received treatment from the Medical College Hospitals at Company's cost and was also under observation of the Company's medical department. He resumed work on 8th December 1960 but again he went on leave on ground of illness for sixty-nine days ending on the 22nd March 1961. During all these periods of leave he was never without pay at any time. He resumed his normal work on 23rd March 1961 and subsequently availed of casual leave for seven days from 20th June to 26th June 1961. On the 27th June 1961 he was on duty at the Company's cash office. On 29th June 1961 he was directed by the Caretaker whose normal duty is to prepare the durwan's duty roster, to be on duty at the eastern gate of the Company's Victoria House. The Havildar Bachchittar Singh asked him to perform his duty at the eastern gate which not only he refused to comply but also he misbehaved with the Havildar who was his superior officer and also threatened him with violence in presence of some respectable persons. So, he was immeditely asked to show cause why a disciplinary action should not be taken against him. His explanation was found unsatisfactory. So, he was charge-sheeted for misconduct. There was a domestic enquiry into the charges against him by a Committee headed by the Assistant Commercial Manager-in-charge of that department. The workman Ramlagan attended the enquiry and he cross-examined some of the witnesses of the Company and he examined two witnesses to support his case. The Committee of Enquiry considered the evidence and found him guilty of the charges. The Senior Deputy Commercial Manager, on acceptance of the findings, directed his dismissal from service and order was duly communicated to him. He had opportunity to appeal to the Commerecial Manager which he actually did but his appeal was rejected.

As regards the other two workmen—Lalta Prosad and Jagat Singh—their services terminated automatically on the expiry of thirty days' continuous absence without leave in terms of service conditions as provided in clause 13(e) of the Company's Standing Orders. The workman Lalta Prosad absented himself without any leave or intimation for a continuous period of over two months since 29th April 1961. Therefore, by operation of the provisions of clause 13(e) of the Standing Orders his service terminated automatically on the expiry of thirty days' continuous absence without leave.

The other workman Jagat Singh took casual leave for a period of seven days from 15th to 20th April 1961. On the expiry of the leave he failed to report himself for duty on and from 22nd April 1961 and absented without any further leave or intimation to the Company from 22nd April 1961. On the 11th May 1961 a letter was addressed to him by the Company informing him about his absence without leave and he was asked to report for duty within a week, failing which his services would be terminated. There was no compliance. So his services stood terminated automatically on the expiry of thirty days' unauthorised absence in accordance with the provisions of clause 13(e) of the Company's Standing Orders. Therefore, none of the workmen is entitled to reinstatement or to any other relief.

Decision

Issue No. 1

(i) Ramlagan

Admittedly this workman was a durwan attached to Company's Head Office in the Victoria House at Calcutta. He was dismissed from service by the Company's letter, dated 13th of July 1961 [Ext. 5(h)]. This is a case of dismissal of a durwan by the employer for misconduct following the charge-sheet against him and a finding of guilty of misconduct arrived at by a domestic tribunal consisting of Assistant Commercial Manager (Shri S. K. Mitra) and two representatives selected by and from the workmen in the department in which the concerned workman was employed.

Admittedly the workman was asked by a notice, dated 29th of June 1961, to show cause why action should not be taken against him in accordance with the provisions of the Standing Orders. This is Ext. 5. Cause was shown by him on 1st of July 1961, copy thereof is Ext. 5(a). The Company was not satisfied with the explanations offered by the workman. So, there was a charge-sheet against him issued on 4th July 1961 [Ext. 5(e)]. The workman was charged under clause 15(a)(i) for the wilful insubordination and under clause 15(a)(v) for disorderly behaviour and acts subversive of discipline. The workman was also informed of the date, time and place of enquiry into the charges against him by an Enquiry Committee. The Company simultaneously issued a notice to all the employees of the Commercial Department in which the concerned workman was also employed to select two representatives to serve as members of the Enquiry Committee [vide Ext. 5(f)]. Accordingly two representatives were selected and their names were submitted to the Assistant Commercial Manager (vide Exts. I, I/1 and I/2). On the appointed day, the enquiry was held by the Committee. The workman himself participated in the enquiry. He cross-examined some of the Company's witnesses and himself tendered two witnesses—Parameswar Singh and Deo Kumar Singh. The Enquiry Officer Shri S. K. Mitra, Assistant Commercial Manager, gave evidence before the Tribunal. He has proved the enquiry proceeding (Ext. F) which he recorded in his own hand and there was a unanimous finding of guilty by the Chairman as well as by the two representatives of the workmen who were in the Enquiry Committee. The enquiry proceeding together with the finding was forwarded to the Deputy Commercial Manager by letter, dated 10th July 1961 (vide Ext. F/1). The Senior Deputy Commercial Manager accepted the findings and awarded the punishment of dismissal against the workman Ramlagan Ram by letter, dated 11th July 1961 (Ext. F/2), and also advised the Assistant Commercial Manager-in-charge of the department to communicate the decision to the concerned workman. This was done accordingly by letter, dated 13th of July 1961 [Ext. 5(h)]. By the same letter attention of the workman was also drawn to the

provisions of clause 15(c) of the Standing Orders for appeal against the decision of the Deputy Commercial Manager. The workman accordingly preferred an appeal to the Commercial Manager on 17th July 1961 (Ext. 6 is a copy of the Memo. of Appeal). The appeal was heard on 27th of July 1961 at 3-30 p.m. [vide Ext. 5(k)]. The result of the appeal was communicated to the workman by letter, dated 17th August 1961 [Ext. 5(1)]. The appeal was dismissed. Exhibit G is the decision of the Appellate Officer, dated 12th August 1961. So, the order of dismissal of the workman passed by the Senior Deputy Commercial Manager stood.

The grievance of the Union is that it was a mala fide action of the Company against the workman Ramlagan with whom the Company was not at all satisfied because of his Trade Union activities. The evidence of the workman Ramlagan (P.W. 3) on this point is that he was not in the good book of the Company since he became a member of the present Union sometimes after its formation in 1960. He has further said that the Company was also very much annoyed with him as he was constantly insisting on light duty being given to him as was advised by the doctors.

As regards the first allegation I find from the evidence which I shall presently discuss, hardly there is any truth in it. The present Union was formed about the middle of 1960 as stated by the Union in paragraph 2 of the written statement and according to the Company the workman Ramlagan was a member of the Workers' Union. It had no knowledge when he left that to become a member of the present Union. The workman Ramlagan (P.W. 3) has admitted this fact in his evidence before this Tribunal. He has further deposed that he was the only member of the Bijli Mazdoor Union employed at the Head Office of the Company. So, he was the solitary worker out of several hundreds employed in the Commercial Department of the Company at the Head Office who became a member of the Union. Therefore, it is difficult to believe that he had trade union activities in the Head Office of the Company or he was actively organising for his Union. The Unon was formed in 1960 and he was charge-sheeded in July 1961 and during this period only one worker out of several hundreds empolyed in the Commercial Department at the Head Office of the Company became a member of the Union and that member was he himself. Therefore, this is a stale stereotyped allegation without any truth in it. The evidence of D.W. 6 Shri S. K. Mitra, the Assistant Commercial Manager-in-charge of the Commercial Department, is that he had no knowledge of any Trade Union activity of the workman Ramlagan. The workman himself has failed to prove his alleged Trade Union activities in the Head Office. Admittedly this workman Ramlagan served as a Police Constable for several years, which job he had to quit for reasons of health on invalid pension. Thereafter he was engaged by the Company as a durwan about the end of 1952. But since then he frequently availed of long leave, presumably on ground of health. This fact finds support from entries in his service record (Ext. H). This document shows that he was appointed as durwan on 13th November 1952. He received a warning in June 1954. So, he was not confirmed till 1st April 1955. Second warning came in 1960 but in view of the provisions of clause 14(c) of the Standing Orders the first warning was treated as cancelled because of three years' clean record of service. This fact was admitted by the Company in its letter, dated 9th February 1961, to Ramlagan [Ext. 5(d)]. This admission, of course, followed only after the Union's communication on the subject on 7th February 1961 [Ext. 7(a)]. The workman Ramlagan (P.W. 3) served as a Police Constable for a long period. He admits to have served for twenty-four years four months in that capacity before he was found unfit to carry on any further. He had to retire on invalid pension. In that poor state of health he came over to serve the Company as a durwan. So, it was also against all probability that he would work as an active organiser of his Union. There is no evidence of his alleged activity.

He was the only member of the Union in the Head Office out of several hundreds of employees in the Head Office. It may be true that he was liking light work as he was frequently suffering and was at times availing of long leave as is apparent from his service record (Ext. H). It has been alleged in the written statement that he was forced to go on leave without pay which allegation was stoutly denied by the Company. Workman Ramlagan himself had to admit in his evidence before this Tribunal that he was never granted any leave without pay. Leave was granted to him whenever he asked for it sometimes on half-pay and sometimes with full pay. Therefore, this allegation against the Company is also without any substance. His service record Ext. H shows that in July 1959 he availed of privilege leave for forty-eight days and in continuation thereof he again availed of sick leave for two months. Then in 1960 and 1961 he availed of sick leave on several occasions. The Company granted the leave ungrudingly and unconditionally. It might have been possible for the Company to remove him from service on ground of physical infirmity as he was frequently proceeding on sick leave for considerable periods. But the Company did not do that. On the other hand, Company allowed him to join and somehow to carry on. He was serving as durwan and according to Shri S. K. Mitra (D.W. 6), the Assistant Commercial Manager-in-charge of the Commercial Department, durwan's duty is the lightest. There is no other duty in their office lighter than that of a durwan. As the workman was frequently suffering and sometimes very seriously, the Company made arrangement for better treatment in the Medical College Hospital where he was treated at the Company's expenses and at the same time he was enjoying leave not without pay. The Company's doctor as well as the doctor of the Medical College under whose treatment he was recommended light work for him. This fact is not denied by Company and is also proved from the documents (Exts. 4 series). The Company has, of course, produced some medical slips granted by the Medical Officer of the Company to the workman Ramlagan which are Ext. K series to show no such recommendation but recommendation for leave. A light work was recommended for him by the Medical College doctor under whose treatment he was placed. The Union also brought this fact to the notice of the Company by some letter Ext. 7(a). But the Company was helpless in

the matter as there was no other duty lighter than that of a durwan as has been deposed by the Assistant Commercial Manager who is in charge of the department. He has not been cross-examined on this point. It is clear from the evidence of the workman Ramlagan that he wanted to be on duty of cash collection from city collection offices or duty at night to be performed by sitting on a stool. But he himself had to admit that there is no difference between the duty at the gate and the duty in the cash office. If that is so, why he was so keen to have duty in the cash office. His service record shows that he was on casual leave for seven days from 20th June to 26th June 1961. He joined on the 27th when he was asked to do his duty in the cash office which he did all right but as soon as he was asked to do his duty at the east gate of the Head Office, he revolted and created troubles with the Havildar who was his immediate superior in the matter of allocation of duties. The Havildar was Bachhittar Singh who under order of Mr. Howard the then Caretaker directed Ramlagan to be on duty at the eastern gate of the Victoria House on the 29th of June 1961 in place of Lal Singh. D.W. 6 Shri S. K. Mitra, the Assistant Commercial Manager of the department, has deposed that the duty of a durwan is the lightest in his office and there is no other lighter job. Therefore, the question of giving Ramlagan light work did not require special consideration of the authorities. The workman's evidence is that he saw the Deputy Commercial Manager in this connection. But according to him he did not receive any sympathetic consideration. He could have represented his matter in writing to the Commercial Manager but he did not. I have already observed that the workman has failed to point out what was lighter job in the office which the Company could have given to him. As there was none, the Company was ready to grant him leave if asked for and, as a matter of fact, the Company was granting his leave liberally without depriving him the benefit of pay altogether. As the work of a durwan was the lightest and there was hardly any difference in the work wherever he may be placed on duty, there was no point in pressing for duty in the cash collection office. In such circumstances, the employer cannot be said to have done wrong or injustice by not allowing him to do duties in the cash collection office for all time to come. There may be cogent reasons for the employer frequently to change guards to be on duty in the cash collection office. Therefore, there was no justification for his claim of being placed on duty in the cash collection office for all time to come.

So, Union's grievances are imaginary, unreal and unsubstantial.

The workman Ramlagan was found by the domestic tribunal guilty of the two charges levelled against him in the charge-sheet [Ext. 5(e)]. Exhibit F is the enquiry proceeding with the unanimous findings of the enquiry committee. The Committee found the workman guilty of both the charges. Senior Deputy Commercial Manager accepted the findings and awarded the punishment of dismissal as provided in the Company's Standing Orders (Ext. L).

It is well-settled that in such a case of dismissal for misconduct a Tribunal has only limited jurisdiction and it does not act as a Court of Appeal, and substitute its own judgment for that of the management. It can interfere only—

(1) when there is want of good faith;

(2) when there is victimisation or unfair labour practice;

(3) when the management has been guilty of basic error or violation of principles of natural justice; and

(4) when on the materials the finding is completely baseless or perverse. (Vide 1958 I L.L.J. 260; and 1961 I L.L.J. 511.)

In the instant case the Union has questioned the fairness of the enquiry. I have already found that the allegations of victimisation and unfair labour practice are unsubstantial and untrue.

It has been contended by the Union that there has been violation of the principles of natural justice in as much as the Officer who drew up the charge-sheet was also appointed the Chairman of the Enquiry Committee and that the workman was not allowed to cross-examine the witnesses of the Company and to examine his own witnesses to support his case.

As to the second part of the allegation I find there is hardly any truth in it. The workman Ramlagan (P.W. 3) had to admit in his evidence before this Tribunal that he supplied names of three witnesses of his who are Parsuram Roy, Parmeswar Singh and Deo Kumar Singh. Two of them Parmeswar and Deo Kumar Singh gave evidence before the Enquiry Committee and the third man did not attend. Therefore it is a lie to say that he had no opportunity to examine his witness before the Enquiry Committee. Then again the workman admits to have attended the enquiry and it appears from the enquiry proceeding Ext. F that he cross-examined some of the witnesses of the Company. Witnesses P.C. Mukherji and Seukaran Singh were cross-examined by him and he refused to cross-examine the other witnesses. Therefore, this allegation is without any truth. Of course, there is some substance in the contention that the Officer who drew up the charge-sheet was the Chairman of the Enquiry Committee. Admittedly the show cause notice, dated 29th June 1961 (Ext. 5), was issued by the Assistant Commercial Manager Shri S. K. Mitra. He also drew up the charge-sheet Ext. 5(e) on 4th July 1961 and at the same time became the Chairman of the Enquiry Committee. It is well settled in the case of Nageswara Rao vs. State of Andhra Pradesh (A.I.R. 1959 Supreme Court 1376 at page 1378) that the principles governing "the doctrine of bias" vis a vis Judicial Tribunals are that (1) no man should be a judge in his own cause, and that (2) justice should not only be done, but manifestly and undoubtedly seem to be done. It has also been held in that case that the said principles are equally applicable to authorities, though they are not courts of justice or judicial tribunals, who have to act judically in deciding the rights of others, i.e., the authorities who are empowered to discharge quasi-judicial functions. Therefore, Shri Mitra, the Assistant Commercial Manager, in all fairness should not have acted as Chairman of the Enquiry Committee in respect of the charges levelled against the workman by himself. Then again it has been held

by the Hon'ble Supreme Court in the case of Sur Enamel & Stamping Works Ltd., and their workmen (1963 II L.L.J. 376) that an enquiry in order to be fair among other things, the Enquiry Officer must record his findings with reasons for the same in his report. But in the present case the Enquiry Committee did not strictly comply with this requirement of a just and fair enquiry. The members of the Enquiry Committee no doubt recorded their findings but reasons for the conclusions arrived at not recorded in the report. Therefore, I am to hold that the principles of natural justice have not been strictly observed although I must point out that there is no evidence to show any mala fide in the conduct of Shri Mitra in holding the enquiry in the very presence of the concerned workman. Moreover, he was not the sole judge but there were two other members in the Enquiry Committee who were representatives of the workmen. There was an unanimous finding and there is nothing to show that Shri Mitra unduly influenced or prevailed upon the other members to come to the agreed findings. However, assuming in the circumstances that principles of natural justice have been violated and there was some apprehension of failure of justice in the mind of the concerned workman, what the Tribunal should do in such circumstances is to consider the evidence adduced by both the parties before it and to come to its own conclusion. It is well settled in the case of Ritz Theatre (Private) Ltd., Delhi, and its workmen (1962 II L.L.J. 498) that in such a case where the enquiry held was not fair and proper, or the findings recorded are perverse, the whole issue is at large before the Tribunal and the Tribunal will have jurisdiction to deal with the merits of the dispute. So, I propose to go into the merits of the case and to deal with the charges levelled against the workman. Both parties examined several witnesses. The Union examined four persons and the Company six witnesses, besides a number of documents exhibited on either side. Exhibit 5 is the show cause notice issued to the workman Ramlagan on 29th of June 1961 by Shri Mitra, the Assistant Commercial Manager. By this notice he was asked to show cause why he will not be proceeded against in accordance with the provisions of the Standing Orders of the Company for his misbehaviour with Havildar Bachchittar Singh who was abused and threatened with physical violence on that very day at about 9 a.m. in front of lift No. 2 at Victoria House. Admittedly Havildar Bachchittar Singh was the immediate superior officer of all the durwans and guards. He was under the Caretaker of the building who was then Mr. Howard. Exhibit 5(a) is the written explanations submitted by the workman on 1st July 1961. The Assistant Commercial Manager could not be satisfied with the explanations offered by the workman. So, there was a charge-sheet Ext. 5(e) against the workman for wilful insubordination and disorderly behaviour and act subversive of discipline. The workman Ramlagan has admitted in his evidence that the Caretaker Mr. Howard has already retired and has gone home in U.K. The Havildar Bachchittar Singh has also left after having retired from service. Both of them were, of course, in service at the time of the domestic enquiry and they gave evidence before the Enquiry Committee. The incident took place in front of lift No. 2 at Victoria House at about 9 a.m. on 29th June 1961. The liftman was Seukaran Singh. He is D.W. 4. Another officer of the Company was present there at that particular point of time as he was about to enter into the lift for going upstairs. He is D.W. 5 Shri P. K. Mukherji, Assistant Chief Inspector of Meters. Both of them submitted written reports of the occurrence and they also gave evidence before the Enquiry Committee. Their written reports are Exts. E, E/1. On the side of the Union there is evidence of the workman himself and of no other person on this point. I have considered his evidence and also his explanations in Ext. 5(a). He could not deny the occurrence. It is clear from the evidence of D.W. 4 Shri Seukaran Singh and D.W. 5 Shri P. K. Mukherji that the workman Ramlagan indulged in abuses and unseemly conduct in attempting to assault his immediate superior officer Shri Bachchittar Singh. He created that ugly scene in front of lift No. 2 at a pick time when superior officers and other respectable persons were rushing into the lift in order to attend their offices located in the upper flats of the massive building known as Victoria House which is also the Company's Head Office. The reports Exts. E, E/1 will show that Mr. Bawnass of Messrs. W.T. Glover & Co. was one of them. Shri Bachchittar Singh asked the workman to be on guard duty at the eastern gate of Victoria House. This duty was allotted to him by Mr. Howard, the Caretaker. What the Havildar did, he simply communicated the order of his superior officer. The workman flared up and indulged in abusing his superior officer and behaved with him in a most objectionable manner in presence of some respectable persons and officers of the Company. Surely his conduct was against the code of discipline. He went so far to attend physical violence and all these facts have been clearly established from the evidence of D.Ws. 4 and 5 and also from the documents Exts. E and E/1. The Tribunal had opportunity to see the workman in the witness box for some hours and this much can be said about this man that he has yet to forget his past position as a typical Police Constable in which capacity he served for 24 years and his attitude is anything but fair and polite which also lends strong support to the probability of the case. There is no reason to disbelieve the evidence of D.Ws. 4 and 5 and also their earlier statements Exts. E and E/1. I have already found that there was no motive for punishing this workman and removing him from service by making false charges against him. On the other hand, I have already discussed and found that he was being very sympathetically treated by the Company. He was frequently being granted long leave but never without pay, and he was also provided with all sorts of facilities for medical treatment not only by Company's doctor but also in the Medical College Hospital entirely at Company's cost. Therefore, after due consideration of the evidence on the record adduced by both parties I am led to the conclusion that the workman was guilty of both charges levelled against him in the charge-sheet and he was rightly punished by dismissal from service in accordance with the Company's Standing Orders Ext. L. I find no extenuating circumstances to award a lesser punishment than dismissal. Therefore, the said workman Ramlagan is entitled to no relief.

(ii) Lalta Prasad:

He was an Assistant Boiler Attendant employed in the Southern Generating Station of the Company. He having absented from duty without leave, permission or any information whatsoever for two months from 29th of April 1961 to 29th of June 1961 his service terminated automatically in accordance with the provisions of clause 13(e) of the Company's Standing Orders (Ext. L). After two months unauthorised absence from duty this workman applied to the Company on 29th June 1961 for permission to resume his duty. This application was supported by a medical certificate. Exhibit J is the said application. But long before that the Company wrote to him drawing his attention to his absence without intimation since 29th April 1961 and also to the provisions of clause 13(e) of the Company's Standing Orders whereby his service stood automatically terminated on the expiry of 30 days' continuous absence without leave. This letter Ext. A/3 is dated 3rd June 1961. After this letter the Company received a letter from the workman Lalta Prasad which is Ext. D. By this letter he requested the Company to remit his Provident Fund money and other dues, if any. This letter was addressed to the Station Superintendent, 28 Garden Reach Road. D.W. 3 Daya Kissen Saxena is a clerk attached to that office. He received this letter Ext. D of the workman Lalta Prasad. The letter was then forwarded to the Head Office on 23rd June 1961 with a request to do the needful. Exhibit A/4 is that letter of the Station Superintendent. Action was taken on this letter and Lalta Prasad was informed by the Head Office of the Company by letter, dated 22nd July 1961 (Ext. 3), the amount of Provident Fund money due to him. Of course, his evidence is that he has not yet withdrawn the amount. There is also no denial to this fact by the Company. The evidence of this workman Lalta Prasad (P.W. 1) is that on 29th April 1961 he attended the generating station and gave a sick report to the Assistant Shift Charge Engineer Mr. Rabeiro. It was a about 7 a.m. But according to him he was asked to come again at 12 noon on that day. He says he could not do that as his condition deteriorated due to acute pain in the stomach. So on that very day he was being taken to his native village by his friend Mongru Prasad who is a workman of Girmit Colliery and at that time he was residing with him in his quarters provided by the Company. He could not go up to his village but alighted from the Station at Asansol and went to Girmit Colliery where he was admitted in the Colliery Hospital. His friend Mongru Prasad with whom he was putting up and who escorted him from Calcutta to Girmit Colliery where he was employed, is said to have written a letter to the company informing Lalta Prasad's illness. But this story of the workman Lalta Prasad has not been supported or corroborated or substantiated by any satisfactory evidence other than his oral testimony. He admits in his cross-examination that on 29th April 1961 he was living in the Company's quarters along with two other friends of his who are Mongru Prasad and Chhedi Lal. The last man was an employee of the Company. Neither Mongru Prasad nor Chhedi Lal comes to corroborate him about his alleged illness. He admits that the Company has elaborate arrangements of medical treatment of sick employees by the Company's doctors as well as in the city's hospitals. If he was really so sick, why he would leave for his native village instead of availing of the medical facilities provided by the employer. So, it is hardly believable that on account of his illness he went to Girmit Colliery where his friend Mongru Prasad was employed. There is also nothing to show that he was admitted into the Colliery Hospital. On the contrary, he after absenting for two months without leave or any intimation to the employer suddenly appeared and applied for permission to resume his duty with a medical certificate purported to have been granted by a private doctor of unknown and undisclosed place (vide Ext. J). That certificate shows that he was advised to take complete rest. It does not disclose seriousness of any disease if he was suffering from. Naturally the Company refused to reconsider his case. The workman's story, as told before this Tribunal about his illness and his leaving on that ground for his native village but ultimately going over to Girmit Colliery for treatment seemed to border on the incredible. It is all an afterthought. He left his job without any intimation whatsoever to the employer. He has deposed falsely to say that he gave sick report to Mr. Rebeiro. It is abundantly clear from the evidence of D.W. 2 Mr. Rebeiro that he was not at all contacted on 29th April 1961 and no report was given to him by Lalta Prasad. His evidence is that any report of sickness by a workman is always recorded in the Shift Strength Book which is Ext. C. But there is no such entry in this register which is duly and properly maintained at the Generating Station. Lalta Prasad says that he instructed his friend Mongra Prasad to give information to his employer but he is not sure if any such information was at all supplied to the Company and if so when and whether by post. The Union does not examine Mongru Prasad or Chhedi Lal or does not assign any reason for not bringing them to support the story of the workman. He already applied for withdrawing the amount of his provident fund money by letter Ext. D to the Station Superintendent, who in due course forwarded the same to the Head Office for necessary action. The workman Lalta Prasad at first admitted his signature on this letter but after some hesitation he denied. I am unable to give credence to his oral testimony. Therefore, I find there was no satisfactory explanation of his absence for two months without leave, permission or any intimation whatsoever to the employer. Such an irresponsible act and conduct on the part of a workman of an Electric Generating Station cannot be overlooked or lightly brushed aside So, I find no justification for interference with the automatic termination of his service by operation of the Company's Standing Orders which represent the relevant terms and conditions of service in a statutory form and they are binding on the parties. In the result, the workman Lalta Prasad is not entitled to any relief.

(iii) Jagat Singh

This workman Jagat Singh was employed as a Lamp Lighter and was attached to the Company's District Engineer's Office at Howrah. Admittedly he was granted casual leave for seven days from 15th April 1961 to 21st April 1961 (vide Exts. J. J/1. He was to resume his duty on 22nd of April 1961, but he did not, nor did he apply for extension of leave. He continued his unauthorised absence for

months together. It appears from the District Engineer's Report to the Main Superintendent Ext. B, dated 23rd August 1961, that on 17th August 1961 he suddenly appeared before the District Engineer and produced certain documents which revealed that the workman was involved in a criminal case but was released on bail and he approached the District Engineer for a certificate of his employment under the Company. D.W. 1 Shri P. N. Banerji is the said District Engineer. His evidence is that he refused to give a certificate as his service had already been terminated automatically under the provisions of clause 13(e) of the Company's Standing Orders. P.W. 2 Jagat Singh has admitted that he was involved in some litigations during his stay in the village. The workman started absenting without leave or permission from 22nd April 1961. Thereupon the Company wrote to him on 11th May 1961 (vide Ext. A) directing him to furnish satisfactory reasons for his absence within a week from the date of receipt of this letter, failing which he will be marked as "labour terminated." On the report of the District Engineer contained in his letter, dated 23rd August 1961 (Ext. B), the Main Superintendent addressed a letter to the workman Jagat Singh on 21st August 1961 informing him that he having absented from duty without leave since 22nd April 1961 his service was automatically terminated under clause 13(e) of the Company's Standing Orders. This letter is Ext. A/1. It was sent to him by registered post. So, the Company waited for long four months since he commenced absenting without leave, or permission and then invoked provisions of clause 13(e) of the Standing Orders which provided for automatic termination of his services for his unauthorised absence for more than 30 days and in the present case for four months. Sometimes after its communication the workman appeared for permission to resume his duty. He says that he sent a medical certificate to the Company on 25th August 1961 but there is nothing to prove this fact. The Company has denied to have received any such medical certificate after his four months' unauthorised absence. The workman's evidence is that he came to Calcutta on 9th September 1961 and produced medical certificate to the District Engineer but he refused to accept. This workman has subsequently said that he produced not one but two medical certificates. These are Exts. 9 and 9(a). He has stated in the cross-examination that during the five months of his unauthorised absence from work he lived in Muzaffarpur town and so he produced certificate from doctors of that town. But he has contradicted himself to say that while he was residing in his village he was involved in some litigations. Therefore, it is difficult to believe his oral testimony. The two medical certificates Exts. 9, 9(a) which he produced before the Tribunal at late stage of the hearing of the case, may be seen. One doctor of Muzaffarpur granted the certificate Ext. 9 on 25th August 1961 in which he has stated that Jagat Singh of village Pourah was under his treatment from 20th April to 24th of August 1961 and he received certificate to the effect that the patient was cured completely and can join his duty. The other certificate Ext. 9(a) shows that the workman placed himself under his treatment from 25th of August 1961 and he was found fit to resume his duties on 9th September 1961, i.e., one doctor who certified him to be completely cured and found fit to join his duties on 25th August 1961, the other doctor treated him as his patient from that very day till 9th September 1961 and it is the evidence of the workman he came to Calcutta on 9th September 1961. Therefore, in the conflicting circumstances I feel difficulty to rely on these certificates. If the man was really suffering for over four months and was having a medical treatment by doctors of Muzaffarpur town how he could he say that during his stay in the village he was involved in litigations and it transpires from the evidence of the District Engineer before whom he actually appeared on 17th August 1961 that he was involved in criminal litigations and in which connection ne wanted a certificate from him to show his employment under the Company, when he was clearly told that his services automatically terminated under clause 13(e) of the Standing Orders. So, on his return home he brought in medical certificates Exts. 9, 9(a), which are conflicting in nature. Therefore, I find there was no satisfactory reason for his unauthorised absence for nearly five months from 22nd April 1961 up to middle of September 1961. Hence, I find no justification for interference with the termniation of his services which he sustained automatically on account of his irresponsible conduct. It appears from the document Ext. J/4 that this workman was reported against by the District Engineer to the Main Superintendent as a "habitual absentee". However, the fact remains that he was long in service of the Company for 19 years which fact is not denied by the Company. Of course, being an old employee of the Company he ought to have been more responsible to guard against unauthorised absenteeism for unreasonably long period. That shows that he would hardly mend his ways. Whatever that might be but in consideration of the fact that he rendered 19 years' services to the Company and for a foolish action of his he has lost his job at a very hard time. Therefore, I direct that the Company in all fairness should pay to the workman six months' wages as compensation for loss of employment in addition to other dues to which he is entitled. This compensation should be paid within a month of publication of the award in the Calcutta Gazette.

This is my award.

ANNEXURE

In the matter of an industrial dispute between Messrs. Balmer Lawrie & Co. Ltd., 21 Netaji Subhas Road, Calcutta-1, and their workmen represented by Balmer Lawrie Employees' Association, 23 Netaji Subhas Road, Calcutta-1, and Messrs. Balmer Lawrie & Co. Ltd. Employees' Union, 19 Strand Road, Calcutta. (Case No. VIII-608 of 1960.)

BEFORE THE FIRST INDUSTRIAL TRIBUNAL, WEST BENGAL

Present:

Shri RENUPADA MUKHERJEE, Judge,
First Industrial Tribunal,

This was a reference of an industrial dispute under section 10 of the Industrial Disputes Act made by the Government of West Bengal by its Labour Department Order No. 6057-I.R.|IR|11L-76|60, dated Calcutta, the 22nd November 1960. One party to the reference was Messrs. Balmer Lawrie & Co. Ltd. (hereinafter to be described as the Company) and the other party consisted of workmen, represented by two Unions (1) Balmer Lawrie Employees' Association and (2) Messrs. Balmer Lawrie & Co. Ltd. Employees' Union.

Altogether four issues were referred for adjudication:

1. Grades and scales of pay.
2. Privilege leave.
3. Medical leave.
4. Retiring age.

The case was duly heard by Shri S. N. Guha Roy, my predecessor-in-office, and he delivered an award on 29th June 1961. An appeal was taken to the Supreme Court by the workmen of Messrs. Balmer Lawrie & Co. Ltd. represented by Balmer Lawrie Employees' Association. Their Lordships of the Supreme Court have remanded the case for fresh hearing of issue No. 1 regarding grades and scales of pay. The remaining three issues have been finally disposed of by the judgment of Their Lordships.

In pursuance of the order of remand this Tribunal admitted some additional evidence adduced on behalf of Balmer Lawrie Employees' Association. Thereafter the parties took some time for compromise. Compromise petitions were separately filed by the two Unions on 6th July 1964, and the Company was a consenting party to both the petitions. It is refreshing to see that the parties concerned have settled their differences for maintaining industrial peace and harmony. In my opinion the terms of settlement are reasonable and fair and I accept them. As a supplement to the previous award passed by Shri S. N. Guha Roy on 29th June 1961 as modified by the Supreme Court, I pass this award in terms of the two joint petitions of parties filed by the Company and the two Unions. The joint petitions together with their annexures shall form a part to my award.

Taken at my dictation and corrected by me.

Judge.

ANNEXURE

In the matter of an industrial dispute between Messrs. Calcutta Cork Industries, Cossipore, Calcuatta-2, and their workmen represented by Calcutta Cork Industries Mazdoor Union, 33 Manicktolla Main Road, Calcutta-11. (Case No. VIII-156 of 1963.)

AWARD

The Government of West Bengal, Labour Department, by Order No. 3265-I.R.|IR|11L-263|63, dated the 10th August 1963, referred under section 10 of the Industrial Disputes Act, 1947, the abovementioned dispute to this Tribunal for its adjudication.

The issues are as follows:—

Issues

(1) Wages,

(2) Retiring benefit.

This reference relates to two items of industrial disputes then existing between Messrs. Calcutta Cork Industries, Cossipore, Calcutta-2 (hereinafter referred to as "the Company"), and their workmen, represented by Calcutta Cork Industries Mazdoor Union, 33 Manicktolla Main Road, Calcutta-11 (hereinafter referred to as "the Union").

As usual, on receipt of the reference, both parties were summoned to appear and file their respective written statement. Both parties actually appeared and did file their written statement. As this is a new industry of its kind in India, both parties were heard at length, and they were encouraged to carry on peacefully in order to make progress and improvement in the new venture. I am glad to record that both the parties made sincere attempts to solve the disputes and the one in respect of wages was immediately settled and a joint petition of compromise, dated 23rd October 1963, was filed as early on 5th November 1963 incorporating therein the terms, and the other regarding retiring benefits has also been amicably and peacefully settled though a little late and just on the date fixed for final hearing of the case, i.e., on 30th July 1964, and both parties filed another joint petition of compromise in which the terms of settlement have been set out. I have considered both the petitions of compromise, the one, dated 23rd October 1963, and the other one, dated 30th July 1964.

Regarding wages of the workmen numbering 14 in all have been increased to a certain extent agreed upon between the parties. The increment of wages is to take effect from 14th October 1963 as they have agreed jointly.

As to the retiring benefits, they have mutually agreed that the workmen will be entitled to gratuity at the rate of four days' wages for each completed year of service from the date of their respective appointments. A workman will be eligible to this benefit even in case of retrenchment and/or termination of services other than dismissal for misconduct. A workman resigning in job after five years' continuous service will also be entitled to the aforesaid retiral benefit. These terms of settlement appear to me to be fair and reasonable. I therefore accept the terms and make an award of compromise in terms made and contained in the two joint petitions, dated 23rd October 1963, and 30th July 1964, which do form part of the compromise award as Annexures "A" and "B" thereto.

This is my award.

BEFORE THE FIRST INDUSTRIAL TRIBUNAL, WEST BENGAL

Present:

Shri RENUPADA MUKHERJEE, Judge, First Industrial Tribunal.

This dispute was referred to me by the Government of West Bengal by its Labour Department Order No. 1134I.R./IR/8L-39/63, dated Calcutta, the 12th March 1964, under section 10A of the Industrial Disputes Act on the basis of an Arbitration Agreement filed by the parties. The parties who agreed to refer the dispute to my arbitration are Messrs. Eastern Belting and Cotton Mills Ltd. and Eastern Belting Mazdoor Union. The specific matter in dispute was:

Whether the workmen are entitled to an increase of Rs. 15 as dearness allowance under the present condition of the company?

Notices were duly served upon the parties and they filed their written statements in due course. After the case had proceeded for some time the parties filed a compromise petition on 8th July 1964. The main clause of the compromise petition with which we are concerned in the present proceedings is that all the workmen will get an increase of Rs. 10 per month on the existing total emoluments and this will be given retrospective effect from 1st April 1964. After hearing the learned representatives of both parties I am satisfied that the compromise is a reasonable and fair one. I, therefore, pass an arbitration award in terms of the joint petition of compromise filed by the parties which shall form a part of my award.

ANNEXURE

In the matter of an industrial dispute between Messrs. Western India Theatres Ltd., Minerva Theatre, 5|1 Chowringhee Place, Calcutta-13, and their workmen represented by the Bengal Motion Picture Employees' Union, 126|A Dharamtala Street, Calcutta-13. (Govt. Order No. 1858-I.R., dated 8th May 1963.) (VIII-96|63.)

BEFORE THE FOURTH INDUSTRIAL TRIBUNAL, WEST BENGAL.

Present:

Shri R. Bhattacharya, Judge, Fourth Industrial Tribunal.

For the Union: Shri A. Dutta, Counsel.

For the Company: Shri P. R. Mukherjee.

This is a reference under section 10 of the Industrial Disputes Act arising out of the Government of West Bengal, Labour Department, Order No. 1858-I.R./IR/11L-155/63, dated the 8th May 1963. The dispute is between Messrs. Western India Theatres Ltd., Minerva Theatre, 5/1 Chowringhee Place, Calctta-13, and their workmen represented by the Bengal Motion Picture Employees' Union, 126/A Dharamtala Street, Calcutta-13. The issue relates to the bonus payable in 1962.

After due notices the parties appeared and filed their respective written statements. The Bengal Motion Picture Employees' Union (hereinafter referred to as the Union), filed its written statement on 17th June 1963. In it, it was stated that the Western India Theatres Ltd. carries on the cinema exhibition business in the name and style of "Minerva Theatre" or "Minerva Cinema" in Calcutta and that this business is a separate, independent and self-contained industrial concern. It is alleged that there is an agreed custom in the cinema trade in West Bengal according to which the Minerva Cinema workmen are entitled to two months' basic wages as bonus before the Pujas irrespective of profit or loss. This puja bonus has become a customary practice throughout West Bengal. It is further alleged that the Minerva Theatre has earned huge profit justifying the payment of bonus to the workmen, and that the employer intentionally failed to place the real statements of account before the workmen. It has been further stated that in the matter of finance and employment the Minerva Theatre is a distinct, seperate and independent unit or entity. Minerva Theatre exists conveniently and reasonably without depending on any other Exhibition House. In the matter of capital, staff, management, income or expenditure this Cinema house runs as a clearly distinct industrial undertaking. The Union claims at least two months' wages as bonus payable in 1962.

The Western India Treatres Ltd. representing the Minerva Theatre filed the written statements on 22nd August 1963. Its case is that the Western India Theatres Ltd. is a public limited concern. It mainly does the business of exhibiting pictures in threatres owned or leased in several cities of India like Bombay, Calcutta, Delhi, Madras, etc. It also owns a studio but the Company has no film productive activities of its own. During the relevant year, namely, 1961-62, the studio was given out on a lease and licence basis. The Company has the activity of distribution of pictures. The pictures for the purpose of exhibition are booked at Bombay where the Company has its Registered Office. They are booked for all the theatres of the Company situated at different places in India. The Head Office controls all the activities of all the different theatres situated at different places. Cheques for major disbursement are sent from Bombay. The cheques relate to wages of employees working at different places. The different theatres at different places are units of the same Company and in these different theatres there is unity of ownership, unity of management and control, unity of finance, unity of labour, unity of employment and unity of functional integration. The case of the Company is that all the different theatres at different places of the Company form one part of single industry for all purposes. The control of all affairs from the Head Office reduces the managerial expenses. The Company's financial year runs from April to March. For the year ended 31st March 1962, the Company's balance sheet shows a loss of Rs. 85,210.32 nP., and there is no provision for depreciation, taxation, divident, etc. The Company has denied the allegations made by the Union. The existence about the custom of paying bonus to the workmen has been denied. The Company, in short, has stated that the workmen can claim no bonus on any account.

At the hearing stage the Union filed one additional written statement. In this statement it has been alleged that exhibition side of the business of the Company consisting of the cinema halls forms an independent and separate business or undertaking without functional integrity or interdependence with any other branch of the Company's business or undertaking. It has been stated further that the workmen of the Minerva Theatre are entitled to bonus out of the profits of the exhibition side of the Company's business. The Union has further attacked the item of bad debts mentioned in the Profit and Loss Accounts and characterised it as mala fide and without any material. As against this additional written statement the Company also

filed an additional statement of claim challenging the statements made by the Union. It has been alleged that the Company mainly does the business of exhibition, that the exhibition side is not a seperate business and that the balance sheet and the Profit and Loss Accounts of the Company for the year 1961-62 reveal the true state of affairs.

Today the matter has been taken up for hearing. The Union does not lead any evidence, oral or documentary, on the side of the workmen. The Western India Theatres Ltd. representing the Minerva Theatre produced the balance sheet for the relevant year, as evidence. A copy of the same has been supplied to the workmen. The report and the balance sheet is audited and certified. It is marked Ext. A. The Company does not want to examine any witness. I have heard the argument advanced from both the sides.

The first contention raised from the side of the workmen by Shri Dutta is that the Minerva Theatre at Calcutta though a seperate unit of Western India Theatres Ltd., is an inuependent business concern. The second point raised by Shri Dutta is that even if the Minerva Theatre is taken as a branch and a part of the Western India Treatres Ltd. having its Head Office in Bombay, its exhibition and distribution side are to be treated as distinct and independent business and that the profits of the two separate sides of the business should have been kept separtely. These two points raised from the side of the workmen being inter-connected, I shall consider them together. It is to be noted that in the present case the workmen have deliberately refrained from adducing any evidence either oral or documentary before this Tribunal in support of their written statement. On the other hand, the Western India Theatres Ltd. (hereinafter referred to as the Company) has produced the balance sheet for the relevant year to show the financial position and also to show that the Company has no separate entity of different cities in India, and that the exhibition side of the Company's business is a part and parcel of the Company having different sides of business interconnected with each other. The Company has not adduced any oral evidence on the ground that the workmen have not let in any evidence on its side. Shri Dutta has argued that the Company has several units of its business in different cities in India, that the Minerva Theatre at Calcutta is one of such unit, that the function of the Minerva Theatre is not dependent on the Head Office or any other unit of the Company and that the Minerva Theatre is but an exhibiting unit of the Company though the Head Office is the distributing agency. With regard to the control by the Head Office, it has been contended from the side of the workmen that the Head Office may control the policy of the Company regarding the type of pictures exhibited here. The second contention as I have already stated is that the Minerva Theatre is but a branch of the Head Office, if at all, having the exhibition side of the business whereas the distribution side lies with the Head Office. It has been urged that the Head Office has no control over the exhibiting side of the business at Calcutta, controlled by the Calcutta staff. It is very difficult to accept the contention of Shri Dutta because unforunately there is no material in support of the contention raised. There is no documentary evidence on the side of the workmen. None of the workmen has come forward to adduce evidence before this Tribunal in support of the case made out in the written statement. When there is no material in support of the argument of Shri Dutta, it must be said that the argument of Shri Dutta simply floats in the air, without any substance. There is no evidence before me that the Minerva Theatre at Calcutta is an independent busniess or a separate unit as stated by Shri Dutta. The balance sheet and the Profit and Loss Account, Ext. A, will show the earnings from different sources of the Company's business. The earnings come from the exhibition side of business, house-rent, ditribution commission and some other sources mentioned in schedule F to the Ext. A. From the reading of the entire accounts given in Ext. A, it will be clear that the Company has no separate business either for distribution or exhibition, that there was no independent unit of business at different cities of India and that the Minerva Theatre at Calcutta is a separate unit of business with separate accounts, capital, management, etc. Shri Dutta has referred me to the case of Protap Press, 1960, L.L.J. Vol. I, at page 497. Shri Mukherjee for the Company has, on the other hand, relied upon the two case laws—one reported in 1957, L.L.J. Vol. I, page 8, and the other 1961, L.L.J. Vol. I, page 415. In the case of Protap Press the facts are different. In that case an owner was engaged in different industrial units. In the present case the Western India Theatres Ltd. is the Company and it has different sides or departments of business at different places. All the sides or the departments of the Company are controlled and managed by the Head Office at Bombay, finances are distributed from the Head Office, earnings are collected from different places and brought to the Head Office, and proper accountings are made treating the activities of the Comapny at different places as the business of the Company, viz., the Western India Theatres Ltd. Whether the business activities or centres are to be treated as separate or not will depend upon the facts and circumstances of each case. There is not a bit of material before me to suggest even that the Minerva Theatre Ltd. at Calcutta is an independent or a separate unit of business having separate management or financial control. On the other hand, Ext. A supports the contention of the Company that the Minerva Theatre has been treated as a part of the business of the Western India Theatres Ltd. having its Head Office at Bombay. I cannot hold that the Minerva Theatre is a branch of the Company's Head Office carrying on exhibition business independently and without any control from the Company. It should be mentioned in this connection that the Union inspected during the pendency of this case some papers of accounts lying with the Minerva Theatre. The Union did not make any attempt to call for any document from the possession of the Minerva Theatre or of the Company to suggest that the Minerva Theater is a distinct industrial concern managed by an independent staff having separate accounts of its own. The Union failed to produce any evidence at the time of hearing of this case. In connection with the interlocutory order, the Company filed an affidavit on 15th October 1963 stating that the Miner Theatre has no independent existence as separate from the Company, that the

Company maintains one consolidated accounts of all its activities, that all the theatres of the Company form one part of single industry for all purposes and there is functional integration. The Union did not file any affidavit challenging these statements. However, in the absence of proper material I say that the first two contentions raised from the side of the workmen are without any subsatnce. I hold that the Minerva Theatre at Calcutta is but a part of the Company which controls the finance, management and its distribution of films and that the accounts of the Company show that the Minerva Theatre has never been treated as a separate business. The description of this employer in order of reference supports my findings.

I will now deal with the last contention raised from the side of the workmen. It has been argued that the balance sheet, Ext. A, does not represent the correct state of affairs because the item of bad debts to the extent of Rs. 6,39,476.94 nP. mentioned at page 10 is unbelieveable and not supported by any reliable evidence of the Company. The Union had every right to inspect the account-papers relating to bad debts mentioned in the balance sheet. The Union received a copy of the balance sheet earlier. There is no evidence from the side of the Union challenging this item in the balance sheet. On the other hand, Ext. A shows that in the previous year also the bad debts amounted to Rs. 5,57,052.72 nP. This is not a new thing to the Company. Exhibit A is duly audited and certified. In these circumstances I cannot accept the argument of Shri Dutta that bad debts mentioned in Ext. A is prima facie unacceptable. Shri Dutta, of course, does not challenge any other item of Ext. A. Exhibit A shows that during the financial year of the Company ended 31st March 1963 its loss was to the extent of Rs. 85,210.32 nP. I find nothing to disbelieve the statement in Ext. A. In view of my findings above, I should hold that the workmen are not entitled to any profit bonus in the present case. Shri Dutta has not pursued the case of customary bonus pleaded in the original written statement. That has been given up at the time of hearing. Moreover, there is no evidence in support of that contention.

In view of my findings above, the reference is disposed of in favour of the Western India Theatres Ltd. representing its Minerva Theatre at Calcutta. The workmen are not entitled any bonus payable in 1962.

AWARD

This application which purports to be one under section 33A of the Industrial Disputes Act, 1947, has been filed by Sarvasree Mihir Mukherjee, Bijoy Chatterjee and Rajendra Singh against their employers Messrs. Aluminium Corporation of India Ltd. on the following allegations:

The petitioners and the Company opposite party are parties to an industrial dispute pending before this Tribunal for adjudication. During the pendency of the aforesaid proceeding the Company O.P. refused to give work to the petitioners on 7th December 1963 and subsequently on or about 24th December 1963 intimated them that their services had been terminated. This act on the part of the opposite party is illegal on account of contravention of section 33 of the Industrial Disputes Act and the petitioners have prayed for a direction upon the opposite party for their reinstatement and payment of full compensation for the period of their forced unemployment.

The Company opposite party has appeared and opposed the application by filing a written statement in reply to the written statement of the petitioners. It is alleged by the Company that the petitioners were appointed as temporary workmen in the Electric Department for some extra work in the said department and their services had been terminated with effect from 10th December 1963 after the work for which they were engaged was completed. They were offered one month's wages in lieu of notice. and retrenchment compensation in accordance with the provisions of the Industrial Disputes Act. It is pleaded that there has been no contravention of section 33 of the Industrial Disputes Act inasmuch as the services of the petitioners were terminated by way of retrenchment and that being so, they are not entitled to any relief under section 33A of the Industrial Disputes Act. It is further pleaded that the application under section 33A of the Industrial Disputes Act is not maintainable as there has been no contravention of section 33A of the Industrial Disputes Act.

Decision

It is an admitted fact that the petitioners were employed as workmen under the opposite party Aluminium Corporation of India Ltd. at its factory at Jaykaynagar. Shri Bijoy Chatterjee and Rajendra Singh worked as ordinary labourers and Mihir Mukherjee as an electrician in the Electrical Department in the factory. They joined their duties on 5th December 1963 but they were not allowed to join their duties on and from 7th December 1963 and subsequently their services were terminated. There is, however, some dispute with regard to the date on which the services of the three workmen were terminated. The evidence of the workman Shri Bejoy Chatterjee P.W. 1 is that on 24th December 1963, the Labour Officer of the Company informed him and the other two workmen, that their services had been terminated. He has further stated that they did not receive any notice of termination of their services from the Company at any time. As against this there is evidence of Shri Subodh Chandra Das Gupta, O.P.W. 1, who is in-charge of the Electrical Department in the factory of the Company at Jaykaynagar. The petitioners worked under him and his evidence is that the services of the petitioners were terminated with effect from 10th March 1963 as their services were no longer required. The evidence of O.P.W. 2 Shri Bhupal Nandy, the Labour Welfare Officer of the Company, is that copies of notices of retrenchment of the petitioners were hung up in the notice board of the Company and the copy of the notice was also sent to the Labour Commissioner on 9th December 1963. The copy of the notice of retrenchment has been marked Ext. C and Ext. B is the copy of the notice which was sent to the Assistant Labour Commissioner, Asansol, and the Labour Commissioner, Government of West Bengal. Though the parties are at dispute regarding the date of the termination of the services of the petitioners, there cannot be any dispute that the services of the petitioners were terminated. It is clear from the petition filed by the workmen that the petitioners were refused to work on 7th December 1963 and subsequently, on or about 24th December 1963 they were told that their services had been terminated and this act on the part of the Company opposite party is in conravention of section 33 of the Industrial Disputes Act which entitles the petitioners to the reliefs claimed in the petition. There is no allegation in the petition that the petitioners were discharged or dismissed from service by way of punishment for any misconduct unconnected with the pending dispute. It is also not stated in the petition as to which particular provision of section 33 of the Industrial Disputes Act has been contravened by the Company. It is now well settled by a series of decisions that in order to invoke the aid of section 33A of the Industrial Disputes Act, 1947, a workman has in the first place to prove that there has been a contravention of section 33A which gives jurisdiction to the Tribunal to entertain the application. It is therefore to be seen whether the petitioners have been able to prove that there has been contravention of section 33 of the Industrial Disputes Act. The petitioners were appointed as temporary hands for extra job as appears from the enrolment forms Exts. A, A-1 and A-2 in which the terms and conditions of services of the petitioners have been incorporated. Paragraph 6 of the general conditions of services in the enrolment forms gives the employers full right of terminating the services of the petitioners without any notice on completion of the work for which they were enrolled or even before completion of the extra job. The enrolment forms relating to the petitioners make it abundantly clear that they were temporarily appointed for some extra job and their services were liable to be terminated without any notice at any time. There is evidence of O.P.W. 1 under whom the petitioners worked, that the services of the petitioners were terminated after the expansion work for which they were recruited was completed although they were retained in service for some time more for the proper working and maintenance of the work for which they were engaged. This evidence is fully supported by the enrolment forms and a reading of the petition makes it clear that the services of the petitioners were terminated by way of retrenchment on completion of the extra job for which they were appointed was completed. There cannot be any dispute that section 33A of the Industrial Disputes Act is not attracted in case of retrenchment of workmen and the case made out by the petitioners in their petition is clearly a case of termination of service by way of retrenchment and the provision of section 33A of the Industrial Disputes Act is therefore not attracted. The petitioners have therefore failed to prove that there has been any

contravention of section 33 of the Industrial Disputes Act by the Company opposite party and as such, the application under section 33A is not maintainable and they are not entitled to any relief in this case. The petition is accordingly rejected.

PRESENT:

Shri A. P. BHATTACHARYA, Judge

Appearances:

For the Company: Shri Jagannath Bhattacharjee, Advocate.

For the Union: Shri Narayan Das Gupta, President of the Union.

The Government of West Bengal, Labour Department, by Order No. 3998I.R./IR/10L-111(A)/63, dated 20th September 1963, referred under section 10 of the Industrial Disputes Act, 1947 (XIV of 1947), the abovementioned dispute to this Tribunal for its adjudication.

The issue for consideration is as follows:

Issue

"Profit Bonus for the year 1961".

AWARD

The reference was received on 9th November 1963 and after notices to the parties written statements were filed by them. After some adjournments, the case was fixed for hearing on 13th July 1964. Both parties examined witnesses and exhibited documents on either side and addressed arguments before the tribunal.

The Union's case is that the Company is a prosperous concern being the sole agent of Messrs. Ashok Leyland Ltd. of Madras for their products in West Bengal and Bihar. The Company also repairs Leyland vehicles and manufactures bodies. The Company has a workshop at Thakurpukur. It has also branches at Patna and Muzaffurpur. The Company pays very low rate of wages to its workmen. A chart has been filed showing the wages to different categories of workmen paid by the Company. The wages paid are for below living wages. The Company has available surplus out of which bonus can be paid to its workmen. The profits earned by the Company in 1961 justifies payment of three months' wages as bonus. The Company, however, paid only one month's wages as bonus for that year. This is the genesis of the dispute which ultimately was referred to the tribunal.

The Company filed a written statement. It is admitted that the Company is sole agent of Ashok Leyland and it is further admitted that the Company repairs all sorts of Leyland vehicles. The Company, however, denies that it pays low rate of wages to its workmen. The Company further denies that it makes huge profits and that the profits earned in 1961 would justify payment of bonus to the extent of three months' wages. The Company has no available surplus to justify such payment. The Company, however, paid one month's wages as ex-gratia payment before the Puja.

The issue referred to the tribunal has already been set forth.

Findings

The Union claims bonus equivalent to three months wages for 1961. The wage chart of the Union is Ext. 1 and it shows payment of wages which can hardly be said to be even near approach to living wages. There are two conditions for claiming bonus. The first condition is that the wages must fall short of living standard. In the instant case, the union has satisfied this condition. The second condition is available surplus. The payment of profit bonus in the instant case, therefore, depends on surplus of trading profits available on calculation according to the Full Bench Formula enunciated by the Full Bench of the Labour Appellate Tribunal in the Bombay Mill Owners' Case reported in 1950 (I) L.L.J., page 1247, popularly known as Full Bench Formula. That Full

Bench Formula has been accepted by the Hon'ble Supreme Court with certain elucidations in the case reported in 1959(II) Supreme Court Appeal, page 280, corresponding to 1959(I) L.L.J., page 644, known as Associated Cement Company's case. According to the principles enunciated in the above case, available surplus is to be calculated in the following manner.

The balance sheet of the Company should be accepted for calculation of the available surplus unless any item of expenditure in the Profit and Loss Account is challenged by the Union. The balancesheet is Ext. A for the year 1961 in respect of which the available surplus is being calculated. The year should be taken as a separate unit and the trading results for that year are to be looked into. The Profit and Loss Account will show the amount of net profit at Rs. 1,62,485. The following items should be added back to arrive at the gross profit:

Depreciation provided in the balance sheet is Rs. 19,101. From the Profit and Loss Account, it would appear that there had been donation of a sum of Rs. 463 and charity of Rs. 691. The amount of donation and charity should be added back, as they cannot be said to be expenditure on trading account. The Profit and Loss Account further shows that a sum of Rs. 21,874 had been paid as bonus. This amount should also be added back. On adding back those four items, the total figure comes to Rs. 2,04,614. It is to be noted that the Profit and Loss Account does not make any provision for income tax but provision for such income tax has been made in a separate account. That being so, there is no question of adding back the income tax. The amount of gross profit is accordingly Rs. 2,04,614. According to the Full Bench Formula as clarified by the decision of the Hon'ble Supreme Court in A.C.C. case the following prior charges are to be deducted before the available surplus is arrived at. The first item of prior charge is the amount of depreciation, namely, Rs. 19,101. This amount is to be deducted. The next item is taxation. The amount of Notional Income Tax must be deducted as a prior charge. In order to calculate the amount of Notional Income Tax, we must deduct from the gross profit the following items in the following maner:

		Rs.
Gross Profit	...	2,04,614
Less: Depreciation	...	19,101
Development Rebate Reserve ...	...	11,924
		1,73,589

50 per cent of the above sum would be the Notional amount of income tax. The figure is Rs. 86,795. The Company, however, provided for income tax to the extent of Rs. 75,300 but that provision of income tax actually made has no relation to the working out of a Full Bench Formula in which the Company is entitled to deduct Notional Income Tax on its earnings as prior charge, and accordingly, I have deducted Rs. 86,795 towards income tax as prior charge.

The next item of prior charge is return on paid-up capital. According to the Full Bench Formula as clarified by the Supreme Court in A.C.C. case, the amount of return should be 6 per cent on subscribed capital. The learned Advocate appearing for the Company claims that this rule should not be applied to Private Limited Companies, in view of certain provisions of Income Tax Act. The learned Advocate refers me to sections 104, 108 and 109 of the Income Tax Act. It is urged on the side of the Company that under section 109 of the Income Tax Act, 60 per cent of distributable income of the Company shall be payable to shareholders. It is said to be a statutory obligation, non-compliance of which is attended with a penalty. This is evidence of the Company's witness Mr. Abraham who is a Director of the Company and Shri A. S. Guha, the Secretary of the Company. The Company proposed to pay 44 per cent. as dividend on subscribed capital.. This appears from the balance sheet at page 7. The total amount of proposed dividend is accordingly Rs. 52,800. On the side of the Company, the above amount is sought to be deducted as prior charge. The figure which is worked out at 6 per cent. on subscribed capital is, however, Rs. 7,200. Even if the Income Tax Act provides that 60 per cent. of distributable income shall be paid to the shareholders, the question remains as to what should be the amount of distributable income. The figure of distributable income can only be arrived at after deducting the amount of bonus which is payable to the workmen. Such payment of bonus is an allowable expenditure under Income Tax Act on the part of the Company and the distributable income can be arrived at after deducting the amount of bonus so payable. It would be wrong to calculate the figure of distributable income without deducting the amount of bonus which the workmen would be entitled. The payment of proposed dividend at 44 per cent. cannot be held to be a prior charge by calculating it from the earnings of the Company before deducting the bonus. 60 per cent of the distributable income may be even less than 6 per cent on subscribed captial if the amount of distributable income is calculated after payment of bonus. Company's distributable income cannot be arrived at without calculating the amoung of bonus which would be payable to the workmen. The decision on the part of the management to the proposed dividend at 44 per cent by deducting only one month's bonus cannot, therefore, be accepted as authorised by law. The payment of bonus cannot be adversely affected by such an action of the management in declaring dividend at 44 per cent. There may not be any violation of the statute by payment of 6 per cent as dividend if 60 per cent of distributable income comes to the said figure. For the purpose of bonus formula, 6 per cent on subscribed capital is the rigid rule and this is not flexible and this method of calculation cannot be said to be in violation of the provisions of Income Tax Act.

In the A.C.C. case, reported in 1959 (I) L.L.J., page 644 and at page 666, the question of return on paid-up capital was considered. I accordingly accept that 6 per cent on paid-up capital should be allowed as prior charge and the amount works out at Rs. 7,200.

The next question is whether the Company is entitled to any return on the working capital. The Company must show that it had reserve which was used as working capital during the year 1961. If the

concern utilises liquid funds available in its hands for the purpose of meeting its working expenses, it is entitled to claim some reasonable return on the funds thus used. The Company must prove that such liquid funds were, in fact, available and that it has actually been used as working capital during the bonus year. Let me first of all turn to the balance sheet.

The Company had no reserve before 1961 and it created a reserve fund for the first time in the balance sheet of 1961. From the balance sheet at page 1, the Company urges that in the beginning of 1961, the Company had 29,000 and odd in liquid fund which was utilised during the year as working capital. The Company must prove that this amount was utilised as working capital during 1961. The balance sheet by itself would be no proof of that fact. There is no other evidence on which I can rely in coming to the conclusion that the liquid cash available to the company was utilised as working capital. On the contrary, the Schedule B of the balance sheet at page 11, shows that at the end of 1961, the Company had cash and bank balance of Rs. 1,42,000. If that is so, how can it be said that the amount of Rs. 29,000 and odd had been, in fact, utilised as working capital instead of being kept in the bank. Utilisation of funds available to the Company as working capital during 1961 has not been proved by cogent and convincing evidence. That being so, the Company is not entitled to any return on any such sum as working capital. The available surplus is accordingly calculated in the following manner:

		Rs.
Gros Profit ...	...	2,04,614
Prior charges to be deducted from Gross Profit:		
(1) Depreciation	...	19,101
(2) Return on paid-up capital at 6 per cent	...	7,200
(3) Notional Income Tax	...	86,795
Surplus	...	91,518

No rehabilitation charge is claimed by the Company.

Now as to the above calculation the Company makes three-fold objections and claims that from the gross profit should be deducted the following figures:

The amount of over-riding commission shown at page 4 of the balance sheet as Rs. 55,930 should not be taken as profit of the trading year in view of the fact that it is extraneous income earned by the Company without the aid of labour and the workmen had no contribution towards the earning of that profit. There are two other items, namely, dividend earned by the Company from its shares with Ashok Leyland and Usha Martin. That figure is Rs. 177. Lastly, it is contended that the advance from customers as shown at page 1 of the balance sheet should get some return, say at 3 per cent. The amount of such advance at the beginning of the year was Rs. 4,20,786. These are three-fold deductions which are claimed by the Company from the gross profits on the basis that they embody profits earned without the effort of labour in the year 1961.

First of all, I will take the case of over-riding commission which is the most controvertial point. In this respect, an agreement (Ext. 2) is to be looked into. This is an agreement between Ashok Leyland and the present Company. There are several clauses. The Company became the main dealer of Ashok Leyland for West Bengal and Bihar. In clause 2, sub-clause (b), it was provided that Ashok would have the right to make direct sales of its products to any purchaser within the territory without having any obligation to pay the main dealer any commission upon such sales. It was provided, however, that Ashok might in its sole discretion pay to the main dealer such commission in respect of the products so sold as Ashok might decide. In sub-clause (c) the effect of direct sale on main dealer's quotas was provided. The direct sale will not be considered as part of the agreed yearly quota of products representing the main dealer's minimum sales as provided in clause 5. The schedule to the agreement will show the quota of sale by the Company. The over-riding commission was earned as commission for direct sale of vehicles by Ashok Leyland. The credit notes (Ext. C series) are filed to show how this commission was earned by the Company. Now the question is whether this amount of commission earned by the Company was extraneous income of the Company. I would first of all refer to the A.C.C. case at page 662. The following observation of the Supreme Court may be quoted in this connexion:

> "It would likewise be open to the parties to claim the exclusion of items either on the credit or on the debit side on the ground that the impunged items are wholly extraneous and entirely unrelated to the trading profits of the year. In considering such a plea the tribunal must resist the temptation of dissecting the balancesheet too minutely or of attempting to reconstruct it in any manner. It is only in glaring cases where the impugned item may be patently and obviously extraneous that a plea for its exclusion should be encertained. Where the employer makes profits in the course of carrying on his trade or business, it would be unreasonable to inquire whether each one of the items of the said profit is related to the contribution made by labour. In such matters the tribunal must take an overall, practical and common sense view."

This point has been further clarified in the Tata Oil Mills case reported in 1959(II), L.L.J., page 250. I would refer to page 253 and a portion of the Supreme Court decision may be quoted in this connexion:

> "It is only when profits are made that profit bonus can be awarded, subject to the further conditions, namely:
> (1) wages fall short of the living standard, and
> (2) the industry makes large profits part of which are due to the contribution which the workmen make in production.
>
> It is this last condition which seems to have been relied upon by industrial tribunals in holding that there must be direct connexion between the efforts of labour and

the profits, and unless that direct connexion is established the profits must be treated as unrelated to the efforts of labour and thus become extraneous income. There is no doubt that there must be contribution of the workmen in earning profits before they are entitled to profit bonus; but it was not laid down in the Muir Mills case [1955-I L.L.J., 1] (supra) that direct connexion between the efforts of the workmen and the particular item of profit earned must be established before the profit can be taken into account for the purposes of arriving at the available surplus. An industrial concern carries on a certain business. In carrying on that business it employs capital as well as labour, and generally speaking, the profits earned in the normal course of business at the end of year are the result of the joint effort of capital and labour. Even so, it may be recognized that there may be instances of extraneous income for the purpose of the Full Bench Formula due—

(i) either to some part of the profits not having been earned in that year, or

(ii) to some part of profits arising out of fortuitous circumstances altogether unconnected with the efforts of labour."

The Company as main dealer earned regular commission from Ashok Leyland and the amount of such commission is a very considerable sum. The income is earned during the year 1962 in the normal course of business, of the concern. I cannot call it extraneous merely on the ground that no direct connection between the efforts of labour and the accrual of the income has been established This amount earned a commission as a single item swells the figure of profit to a very considerable extent. It is not extraneous income of the Company, as it is earned in normal course of business of the Company. In my considered opinion, the commission earned by the Company in 1961 was earned in regular normal course of business and it does not arise out of fortuitous circumstances altogether unconnected with the efforts of labour. This amount cannot, therefore, be deducted as urged on the side of the Company. With regard to the dividend of Rs. 177, it is a minor sum and it is a dividend earned out of investment appearing at page 2. The investments were made in Usha Martin and Ashok Leyland. There is no evidence as to the sources of money out of which these investments were made. I am unable to hold that the dividend earned by the Company in normal course of business out of investment should be called an extraneous income.

Lastly, I would come to the Company's case of advance from customers. The evidence is that customers make advances by way of deposit with the Company for supply of Leyland vehicles. Such advances are adjusted towards the prices. The amount of advance coming into the hands of the Company is utilised in the trading of the Company and is included in the figure of current assets and liabilities. This is not Company's money on which interests can be claimed. It is not a reserve money of the Company utilised as working capital so as to merit a return thereon. In my opinion, the advances paid by customers cannot get a return of 3 per cent. as claimed by the company.

On the side of the Company, another point is taken, namely, that the amount of Development Rebate Reserve should be deducted as prior charge. There is such a reserve as Development Rebate Reserve at page 7 of the balance sheet. The question is whether it should be deducted as prior charge. On the side of the Union this claim is resisted and a case reported in 1962 (I) L.L.J., page 223 is cited before me. My attention is drawn to pages 231 and 232. A similar argument was made before the Supreme Court. It was urged before the Hon'ble Supreme Court that the statutory provision prohibited the employer from distributing the development rebate amount allowed to him by way of profit. The Supreme Court has observed that there is no substance in this argument. The statute prohibits the distribution of amount in question by way of dividends to the shareholders or profits to the partners. It was further observed that the amount of bonus paid by the employer to its employees is allowed to be treated as admissible expenses under section 10(2)(x) of the Income Tax Act. It is clear that the Development Rebate allowed is in part recognition of the claim for depreciation and the provision in question cannot, therefore, be treated as constituting a bar to taking the said amount into consideration in ascertaining the available surplus in hands of the employer during the year in question. The argument which was urged before the Supreme Court in respect of the Development Rebate was not upheld. The contentions thus advanced on the side of the Company having failed, I come to the amount of available surplus as Rs. 91,518.

The A.C.C. case has laid down the principles of distribution of available surplus. Three parties would be entitled to claim shares therein, i.e., (i) labour's claim for bonus, (ii) industry's claim for the purpose of expansion and other needs and (iii) shareholders' claim for additional return on the capital invested by them. In the matter of distribution of available surplus money, among the aforesaid parties there is hardly any rigid rule. In this connexion, Hon'ble Supreme Court observed in A.C.C. case, that there cannot be any general rule as to the ratio or proportion in which the available surplus would be distributed. It would depend upon various facts, like the extent of available surplus, existing wages of the workmen, the extent of gap between the exitsing wages and the living wages and whether there exists any gratuity fund and whether the industry has entered upon the immediate programme of expansion and the extent of dividend actually paid to the employer. In the present case, the wage chart of the Company's workmen shows that they are paid wages which are far below the living wages and there is no evidence that there is any gratuity fund or that the industry has entered upon any programme of expansion. The Company earns huge amount of profit yearly as main dealer of Ashok Leyland without much efforts on their part towards earning of that profit. There are only three share-holders and out of them one is the Director and another Managing Director. Between them, they enjoy about 44 thousand rupees as their annual remuneration. As whole time workers they claim the aforesaid sum as remuneration. There is only one share-holder left.

Considering all these circumstances, I am of opinion that the workers are entitled to three months' wages as bonus. The amount of wages according to

the calculation of the Company is Rs. 21,874. It is to be multiplied by three times to come to the figure of three months' bonus. The amount is Rs. 65,622. The Company submits that this figure includes the pay of some officers, Managers and persons drawing salary above Rs. 500. The total amount of such pay of officers would be about Rs. 4,000 per year. So, out of the above figure, Rs. 4,000 are to be deducted The workers' wages for three months would be Rs. 60,000 roughly. By paying this amount as bonus to the workers, the total earnings of the Company would be reduced to that extent so that there would be income tax rebate of 50 per cent of the sum. It is Rs. 30,000 roughly. The residuary profits in the hands of the Company would accordingly be Rs. 60,000. The Company claims to open a reserve of Rs. 29,000. This claim of the Company can be satisfied from the residuary profits even after payment of three months' bonus to the workmen.

The Company has already paid one month's wages as bonus to the workmen. The Company will now pay further two months' wages as bonus to the workmen in full satisfaction of the Union's claim for bonus. This is my award which is to be implemented within thirty days of the publication of the award in the Calcutta Gazette.

ANNEXURE

In the matter of complaints under section 33A, Industrial Disputes Act by Shri Nirmal Sen Gupta of 16|2K Beleghata Main Road, Calcutta-10, against Messrs. British Electrical and Pumps Private Limited of 17 Taratala Road, Calcutta, Head Office at 1-1B, Mission Row, Calcutta-1, (Case Nos. 130 and 169 of 1963, under section 33A.)

BEFORE THE SEVENTH INDUSTRIAL TRIBUNAL, WEST BENGAL

Present:

Shri S. K. Ray, Judge, Seventh Industrial Tribunal.

For the applicant workman: The applicant workman, Shri Nirmal Sen Gupta, himself.

For the employer Company: Shri N. Das Gupta, Advocate.

AWARD

These two proceedings arise out of two applications by the same employee, Shri Nirmal Sen Gupta, against his employer, British Electrical and Pumps Private Limited, under section 33A, Industrial Disputes Act, and both are directed against termination of his service under the Company by a letter, dated 3rd August 1963, when the adjudication proceedings of another dispute between the Company and its workmen, referred to this Tribunal by Government Order No. 3537-I.R., dated 6th August 1962 were pending.

In both these applications, the applicant employee has challenged his termination of service by the letter, dated 3rd August 1963 as a wrongful and illegal punishment inflicted upon him without any proper reason and in violation of the relevant provisions of section 33, Industrial Disputes Act.

He has claimed the reliefs of withdrawal of the Company's letter of termination of his service and allowing him to resume his normal duties under the Company by way of reinstatement to his service under the Company, payment of his monthly salary by the Company for the period between the termination of his service and reinstatement, and also payment of bonus and other benefits to him. In fact, the prayer for payment of bonus has been made in the second application and the second application is nothing but a repetition of the first application with the added prayer for payment of bonus.

Both these applications are contested by the Company, Opposite Party. It has filed a written statement in reply to the employee's application in each case.

Both the cases have been heard analogously, as they are practically identical and this order will govern them both.

The relevant facts of the case and the respective contentions of the parties on disputed points will appear from the following discussions.

It is an admitted position that this employee was appointed under the Company as a probationer for six months on a monthly basic pay of Rs 400 and a monthly D.A. of Rs. 100 by a letter, dated 14th December 1962, on the terms and conditions appearing on the reverse of the letter. Ext. A is an admitted copy of that letter. It contains an endorsement by the employee to the effect that he had read and fully understood the terms and conditions of the letter and had accepted and agreed to be bound by the same. Among the conditions of his appointment given on the reverse of the letter, we are mainly concerned with the condition No. 5, which runs as follows:

> "At the end of the probationary period of six months, if his services are to be retained, he will be eligible for confirmation in employment in a Permanent Post. This responsibility for obtaining confirmation rests with him and he cannot be considered as confirmed in his post until such confirmation in writing has been obtained from the Company. Only after issue of such confirmation in writing will he be considered as employed in accordance with the conditions attaching to 'Permanent Posts'."

His probationary service commenced from 17th December 1962. After the probationary period of six months referred to in the letter of appointment, there, was no order by the Company, either confirming him or extending his period of probation, or terminating his probationary service. According to the evidence of the employee, he joined service on 17th December 1962. The employee continued to work even after the expiry of six months from the date of his joining service. On 3rd August 1963, however, the Company issued a letter to him terminating his probationary appointment with the Company with immediate effect and offering him one day's salary in lieu of notice as per terms of his probationary appointment. He was also required by this letter to collect his dues, if any, from the office. Ext. B is an admitted copy of this letter. He was, however, finally paid one month's additional wages in lieu of only one day's notice wages in terms of his probationary appointment. There was a letter, dated 27th September 1963 from this employee to the Director of the Company asking the latter to pay him one month's salary in lieu of notice pay for one day in consideration of his financial difficulties. Ext. C is a copy of that admitted letter. It is an admitted position that the employee was paid and he accepted one month's additional wages. But, he has put forward the case that he was compelled to write the letter, Ext. C, and to accept one month's ages on the insistence of the General Manager, who told him that unless he signed such a letter, he would not be paid even his due wages for actual working days. The main contention of the workman in respect of the termination of his service by the Company's letter, dated 3rd August 1963 is, however, that he attained the status of a permanent employee just after the expiry of the probationary period of six minths, in the absence of any order by the Company terminating his probationary appointment. He has also contended that that was the legal position, though the Company had not issued any formal order confirming him. He pleads that by allowing him to work beyond the fixed probationary period of six months, the Company automatically admitted him to be a permanent employee and as such, the Company had no right to terminate his services as a probationer by its letter, dated 3rd August 1963. He has further pleaded that this termination was mala fide and was nothing but a punishment inflicted upon him. He put forward these contentions in a letter, dated 3rd September 1963, addressed to the Director of the Company. Ext. 1 is a copy of that letter. Ext. 1(a) is the postal acknowledgment of that letter. He also wrote a letter protesting against his termination of service as a probationer by the Company's letter, dated 3rd August 1963 on that very day and a copy of this letter is Ext. 2. The Company's whole contention is that he was appointed as a probationer strictly on the terms and conditions of the letter of appointment, dated 14th December 1962 (Ext. A) and his probationary status continued even after the fixed period of six months in the absence of any action on the part of the Company confirming him as a permanent employee and the Company had every legal right to terminate his probationary appointment as a part of its internal administration and without assigning any reason whatsoever.

It cannot be gainsaid that this employee was appointed as a probationer initially for a period of six months on the terms and conditions of the letter, Ext. A. Condition No. 5 of this letter clearly indicated that he could not be considered as confirmed in this post unless such confirmation in writing had been obtained from the Company and only after issue of such confirmation in writing he would be considered as employed in a permanent post. According to this specific condition of his probationary appointment, this employee cannot claim that he automatically became permanent on the expiry of the initial probationary period of six months and the legal position according to this condition of appointment must be deemed to be that he continued to be in the category of a probationer after the expiry of the initial probationary period of six months notwithstanding that the Company did not issue any order either terminating his probationary appointment or confirming him in a permanent post, but allowed him to continue to work as before. So, the present contention of this employee that he automatically attained status of a permanent employee after the expiry of six months is directly negatived by the aforesaid condition of his probationary appointment. Apart from the aforesaid specific condition of his probationary appointment, the same legal position arose according to precise judicial decisions on this subject. In the case of Caltex (India) Ltd. versus Second Industrial Tribunal, West Bengal, and others [1962(5) F.L.R., page 275], the decision of the Calcutta High Court

in a similar case where the concerned workman had been employed on probation for a period of six months was as follows:

> "Moreover, a probationer does not automatically attain permanent status on the expiry of his period of probationership. If he is neither discharged nor confirmed, he continues to serve as a probationer until otherwise dealth with. Therefore, in the absence of anythin contained in the contract to the contrary, nothing prevented the petitioner Company from conferring on the respondent No. 3 another limited period of probationership."

Similar was the decision of the Supreme Court in the case of Express Newspapers, Limited, versus Labour Court, Madras, and another [LLJ 1964(1), page 9]. The Supreme Court held in this case that if no action was taken by the employer either by way of confirmation or by way of termination, the employee continued to be in service as a probationer. In the case of Caltex (India) Ltd., it was also held that the question whether a probationer had worked satisfactorily rested with the employer and could not be objectively tested and consequently the employer was not bound to give reasons for not confirming the probationer and a probationer had no right to be confirmed and could be discharged without giving any reason. So, in view of the legal position arising out of the specific condition No. 5 governing the probationary appointment of this workman and also out of the general principles governing the appointment of a probationer as laid down in the cases cited above, it cannot but be held that in the present case, this employee did not automatically attain the status of a permanent workman on the expiry of the initial probationary period of six months, referred to in his letter of appointment but he continued to work as a probationer for an extended period and the Company had the legal right to terminate his service as a probationer for its own reasons and without assigning any reason whatsoever. In this connection, I should refer to a case cited by the workman. It is a case of the Mysore High Court. In this case, the employee concerned had been appointed in a substantive permanent post on probation for one year and after the expiry of the probationary period of one year, he was informed that the probationary period was extended for a further period of six months pending decision as to his suitability for the post, but by a subsequent order, he was discharged from service on the ground of unsuitability. These orders were passed under the Mysore Government Servants (Probation) Rules, 1957, even though they had been repealed and substituted by the Mysore Civil Service Rules, 1958. In this case, it was held by the High Court that though the appointment to a permanent service on probation could be terminated at any time during the period of probation, after the expiry of the period of one year, the probationer did not continue as a probationer but became a permanent servant and therefore was entitled to all the protection guaranteed by the Constitution and orders extending the period of probation and discharging the probationer were illegal. This decision was made strictly under the provisions of Mysore Civil Service Rules, 1958, and it was observed in this case that there was no provision of the Mysore Civil Service Rules which form the conditions of service of the probationer, empowering the Government to extend the period of probation; nor did the order of appointment by virtue of which the petitioner held his office, enabled the Government to extend the period of probation. So, the appointment in this case of the Mysore High Court was strictly governed by the Mysore Civil Service Rules, 1958. In the present case, the appointment of the applicant employee is not governed by any such definite service rules and it must be deemed to be governed by the strict terms of the contract of probationary appointment and the general principles of law governing probationary appointments in industrial establishments. I have already indicated above that the specific condition No. 5 in his letter of appointment strictly negatived the position that he was to attain permanent status just on the expiry of six months, and on the contrary, it clearly laid down that he could not be considered as confirmed in his post until such confirmation in writing had been obtained from the Company. Accordingly, I hold that by virtue of a specific condition of his probationary appointment under the letter, dated 14th December 1962 (Ext. A) and also under the general principles of law governing probationary appointments in industrial establishments as laid down in the cases referred to above, this employee continued to work as a probationer even after the expiry of the initial probationary period of six months and the Company had every legal right to terminate his probationary appointment without confirming him and without assigning any reason and it does not matter that the Company terminated his probationary appointment without assigning any reason. Upon the evidence also, I hold that there is no reason to suppose that the Company terminated his probationary appointment mala fide and by way of punishment. So, the whole basis of the applicant employee's case falls on the above decision. As regards the payment of additional one month's wages to him, it is an admitted position that he wrote the letter, Ext. C, asking for this concession and it was allowed. He has now come forward with the plea that this letter was obtained from him under duress by the Director. The employee has testified to that effect. No witness has been examined on behalf of the Company. Prima facie there is no reason why his letter, dated 2nd September 1963 asking for concession of one month's additional salary should not be deemed to be bona fide and genuine having regard to the fact that he was not an ordinary industrial worker but an educated technician, who was employed as a Foreman. Even if the employee's case based upon his oral testimony which is not denied by any competent witness on the Company's side, is accepted and it is held that the latter, Ext. C, was obtained under duress, it does not in any way affect the basic legal position that by the letter, dated 3rd August 1963, his probationary appointment had been legally terminated by the Company and the Company had every right to so terminate his appointment as a probationer. The point to be noted is that the termination of his probationary appointment by letter, dated 3rd August 1963 was not, in any way displaced or affected, even if the Company is held to have subsequently obtained the letter, Ext. C, by some inducement or duress for the purpose of paying him one month's additional salary. The termination of his probationary appointment legally stood on its own merits and could not be affected by any subsequent events. In the above view of relevant facts and circumstances discussed

above, I hold that the Company legally terminated the probationary appointment of this workman by its letter, dated 3rd August 1963 and it was really a case of termination of appointment of a probationary employee and not termination of employment by way of punishment for any misconduct. The termination of his service could in no way be termed as an alteration in the conditions of his service. In view of these positions, the termination of appointment of this workman could not fall under section 33(2)(a) or (b), Industrial Disputes Act and as such, the employer Company was not required to comply with the requirements of the proviso to section 33(2)(b), Industrial Disputes Act. There was thus no contravention of any relevant provision of section 33 in regard to the termination of his appointment. In this view, the present applications under section 33A, Industrial Disputes Act become not maintainable in law. Apart from this position according to my decision on the merits of the termination of his service, the Company acted quite bona fide and within the ambit of its legal jurisdiction and according to a specific condition of his probationary service in terminating his probationary appointment according to its choice and this Tribunal has no reason to interfere with the Company's action in this respect.

In view of the decisions recorded above, I hold that the workman is not entitled to any relief against the termination of his probationary service by the Company and as such, both these applications must fail.

In the result, both these applications under section 33A, Industrial Disputes Act are dismissed on contest. I award accordingly.

ANNEXURE

In the matter of an industrial dispute between Messrs. Das Gupta & Co. Private Ltd., 54/3 College Street, Calcutta-12, and their workmen represented by Paschim Banga Pustak Byabasayee Karmachari Samity, 9/7B Ramanath Majumdar Street, Calcutta-9. (Case No. VIII-261/63.)

BEFORE THE SECOND INDUSTRIAL TRIBUNAL, WEST BENGAL

Present:

Shri A. P. BHATTACHARYA, Judge, Second Industrial Tribunal.

Appearances:

For the Company: Shri B. K. Mukherjee, Advocate.

For the Union: Shri Dwijen Sen Gupta, Advocate, and Shri Anil Das Chowdhury, Advocate.

The Government of West Bengal by its Labour Department Order No. 4552-I.R./IR/11L-413/63, dated 8th November 1963, referred to this Tribunal an industrial dispute between Messrs. Das Gupta & Co. Private Ltd., 54/3 College Street, Calcutta-12 (hereinafter referred to as the Company), and their workmen represented by Paschim Banga Pustak Byabasayee Karmachari Samity, 9|7B Ramanath Majumdar Street, Calcutta-9 (hereinafter referred to as the Union), for adjudication under section 10 of the Industrial Disputes Act.

The issue referred to the Tribunal for adjudication in this case runs as follows:

Scales of pay and dearness allowance.

AWARD

The case of the Union in its written statement is that Messrs. Das Gupta & Co. is a book-selling and publishing concern which was established as a proprietory concern in 1886 and subsequently converted into a Private Ltd. Company in 1948. It is a family partnership business of Das Gupta family. Shri Rajat Kumar Roy Chowdhury and Shri Amulya Chandra Das Gupta are now the prominent partners of this Company, and they started another concern under the name and style "Indian Book Distributing Company" at 65 Mahatma Gandhi Road. This Distributing Company is run by Shri Balaram Das Gupta and Sailendra Nath Das Gupta, who are nephews of Shri Amulya Chandra Das Gupta, Managing Director of the present Company. The Company has diverted its income to the Distributing Company by manipulation. Das Gupta & Co. is purchasing books from that concern instead of making purchase from the publishers themselves and this they do at a lower commission.

Regarding Viswa Bharati publications, Das Gupta & Co. is the Managing Agent and gets 30 per cent. commission from Viswa Bharati. It sells books to

that new concern "Indian Book Distributing Company" in lots and repurchases the same at a lesser commission. This is how the Das Gupta & Company is manipulating its accounts to reduce the profits. It is a stable and financially prosperous concern, but it has no scale of pay for its workmen, and dearness allowance that is paid is too inadequate. The Company is not even paying the minimum wages on need-based minimum calculation.

With regard to dearness allowance, the Union claims that the present price index is above 450 points in respect of working classes as compared to 1939 index taken as 100. The dearness allowance that is paid by the present Company is very low. So, scales should be fixed at 180 points and dearness allowance paid at the rate of ten annas per point of rise in the price index above 100 points, according to the decision of the Buckingham Carnatic case. Payment of dearness allowance by this Company is arbitrary. It publishes three books as named in paragraph 17 of the Union's written statement. It is also the biggest seller in foreign books and journals besides books published in India. A charter of demand was submitted to the Company sometime in 1962, but the Company did not consider the demands of the workmen. On the contrary, it withheld annual increments in consequence of the present reference. The Union claims the following scales as mentioned in the last column of Annexure to its written statement:

		Rs.
Accountant	...	200—15—380
Deputy Accountant		
Cashier	...	125—10—275
Clerks	...	125—10—275
Salesman	...	120—10—270
Bearers	...	70—5—150

The Union claims dearness allowance according to the scheme of Bengal Chamber of Commerce or the recommendations of the Pay Commission or on the basic of the Buckingham Carnatic Mills case or the award of the Third Engineering Tribunal.

On the side of the Company, a written statement in reply is filed. It is denied that the Company is reducing its profits or diverting its income towards the Indian Book Distributing Company. The allegation of manipulation of accounts is denied. The Company contends that Indian Book Distributing Company is an independent concern. It is admitted that there is no scale of pay for the workmen of this Company, but it is contended that the book-selling concerns in the College Street Area do not have any scale of pay for their workmen. The rates of dearness allowance given by the Company are said to be fair and reasonable. A list of employees of the Company is given in Appendix A to its written statement. There are 33 clerks and salesmen, and 11 subordinate staff making a total of 44 employees in all.

Decision

The issue consists of two parts, namely, scale of pay and dearness allowance. I will take up the question of scale of pay first though the dearness allowance is also mixed up with it. Admittedly, the Company has no scale of pay. From the chart it will appear that the clerks are getting various salaries ranging from Rs. 66 to Rs. 300. The salesmen are getting pay ranging from Rs. 57 to Rs. 150. One of the clerks is getting Rs. 155 and another Rs. 135. They are said to be employed in the accounts. The bearers are getting pay ranging from Rs. 40 to Rs. 59. The rate of annual increment varies from Rs. 2 to Rs. 5, and dearness allowance varies from Rs. 20 to Rs. 30. This is the picture of the present pay-packet of the workmen of this Company. First of all I will consider whether any scale of pay should be introduced in this Company. The exact nature of business transacted by the present Company is not in controversy. They are publishers in respect of certain books, and as book-sellers command a large volume of sale of books published in India. They are also agents of Visva Bharati getting a commission at 20 per cent. They are also importers of foreign books and journals, which they sell from the stock. The present Company is therefore a book-selling concern with substantial work of publication. On behalf of the Company, Shri Amulya Chandra Das Gupta gave evidence. They Company has audited accounts and balance-sheets. But the balance-sheets and profit and loss accounts of the Company have not been filed and have been deliberately withheld as will appear from the evidence of Amulya Babu. He stated in his evidence that he had not produced the balance-sheets of the Company for the last four years. It was suggested to him that the balance-sheets would show a very favourable picture of the Company. The very fact that the Company withheld the balance-sheets and Amulya Babu does not plead financial incapacity to bear the burden of scale of pay claimed by the Union, would go to show that the Company is very prosperous and is making substantial profits. The stability of the Company is also not challenged. From the very nature of the business in which the Company is engaged, it will appear that it has an assured and stable future and a career of prosperity. There is therefore no reason to refuse the claim of the Union for introduction of scales of pay for the workmen of this Company in order to ensure security and prospect for the labourers who contribute towards the prosperity of the Company.

Now the question is what should be the scales of pay and how to categorise the various workmen engaged in the business. In fixing the wage scale, we shall have to fix the minimum wage and the maximum wage, and prescribe the manner of reaching the maximum. Coming to the question of minimum wage, Shri Sen Gupta on behalf of the Union suggests that the Company should pay the bare minimum to its workmen. His argument is in the following manner. Taking 1939 as the base of 100, the basic pay should be fixed at 180 points. The standard family should be taken as one having three consumption units and one wage earner. Reference is made in this connection to the Buckingham Carnatic Mills case reported in L.A.C. 1952, page 490, and Caltax case reported in L.A.C. 1952, page 402. The minimum requirement per head is calculated at Rs. 5-8, and for 3-consumption unit it would be Rs. 16-8. This is taken as the minimum requirement of food which constitutes 60 per cent. of family expenditure of working class, and to this 40 per cent. is added in respect of other expenditure; and the total amount comes to Rs. 27-8. This is taken as 100 point base of 1939. According to Shri Sen Gupta, the basic mininum wage should be fixed at

180 points, and on calculation it would be Rs. 48 approximately. This should be the minimum pay of working class. In respect of middle class workmen, 80 per cent. should be added, and the minimum wage on such calculation would come to Rs. 88. This is the argument advanced on the side of the Union in support of minimum wage. The Union claims some margin for fair wage, and this is how the minimum wage in respect of subordinate staff is claimed at Rs. 70 and at Rs. 125 in respect of clerks who belong to middle class families. The Hon'ble Supreme Court has laid down the principle of fixation of wage in the Express Newspapers case reported in 1961 I L.L.J., page 339. In that case, the concept of living wage was considered. There is distinction between bare subsistence or minimum wage and a statutory minimum wage. The former is a wage which should be sufficient to cover the bare physical needs of the worker and his family, and that is a rate which has got to be paid to the worker irrespective of the capacity of the industry to pay. If an industry is unable to pay to its workmen at least the bare minimum wage, it has no right to exist. I am not coming to the question of fair wage, but the minimum wage, as has been pointed out by the learned representative for the Union, should be Rs. 48 for the working class and Rs. 88 for the middle class. While the lower limit of the fair wage must obviously be the minimum wage, the upper limit is equally said to be what may broadly be called the capacity of the industry to pay. This will depend not only on the present economic position of the industry, but its future prospect as well. Between these two limits, the actual wage would depend on a consideration of the following factors:

1. Productivity of labour,
2. Prevailing rates of wages in the same or similar occupations in the same or neighbouring localities,
3. Level of national income and its distribution,
4. Place of the industry in the economy of the country.

This is taken from the report of the Committee on Fair Wages quoted in the Express Newspapers case at page 364 of the L.L.J. mentioned above. In the same reported judgment, it has been observed that whereas the bare minimum would have to be fixed irrespective of the capacity of the industry to pay, the minimum wage thus contemplated postulates the capacity of the industry to pay, and no fixation of wages which ignores this essential factor of the capacity of the industry to pay could ever be supported. This is at page 364. Then the Hon'ble Supreme Court turned to the measure of the capacity of the industry to pay. This capacity of the industry to pay should be gauged on an industry-cum-region basis, after taking a fair cross-section of that industry. This is the burden of that decision. This decision has been followed in other cases. There are several book-selling and publishing concerns in Calcutta in the College Street Area and also in other parts of the City. The scale of pay for the workmen of Das Gupta & Co. should be fixed on taking a fair cross-section of all such concerns in Calcutta region. This Company does not plead its incapacity to bear the burden of the pay structure claimed by the Union, and it intentionally withheld its balance sheet lest it should show that its condition is very prosperous. The mere fact that this particular unit of the industry (Das Gupta & Co.) can pay the wage scales claimed by the Union is not sufficient to accept the Union's claim in toto. The industry as a whole should be considered, as otherwise introduction of scale of pay in this particular Company would create disparity in wages in respect of similar other concerns with the resultant unrest in labour, and that is why a fair cross-section is considered necessary. Accordingly, I will turn to the comparable units of this industry in the Calcutta region in fixing the wage structure for this Company. The Union claims five categories, namely, accountant, cashier, clerks, salesmen and subordinate staff, i.e., bearers. I will now consider whether these categories are to be accepted in respect of the present Company. On the other hand, the Company divides its workmen into three categories, namely, clerks, salesmen and subordinate staff. Annexure to the Union's written statement mentions three book-selling and publishing concerns for the guidance of the Tribunal. The Company supplied a list of other concerns engaged in this particular business, and the names of such concerns can be found in Ext. B-series. Coming to the question of categorisation, I find from the Union list that in the case of Oxford University Press there are only three categories of workmen, and they are accountant, clerks and peons and bearers. In the case of Oxford Book & Stationery, there are accountant, cashier, clerks, salesmen and bearers, and this is also the case with Thackers Spink. The three business concerns cited by the Union are located in Lalbazar, Park Street and Esplanade in the city of Calcutta. The Company also filed a list of concerns located in College Street Area and Mahatma Gandhi Road. Das Gupta & Co. whose case is now before this Tribunal is located in the College Street Area. I do not think there is much difference between the College Street Area and other places mentioned in the Union's Annexure C. The region is the same and all are book-sellers and publishers whether it is College Street Area, or Lalbazar Area or Esplanade Area. In my opinion all are busy areas attracting a large number of purchasers. Of course, the balance sheets as demanded by the Union have not been filed. Since the present Company (Das Gupta & Co.) does not care to file its balance sheets, I may safely assume that the financial capacity of this Company will be at par with the Companies quoted in the Union's annexure. Now the Union's exhibits show only three main categories besides accountant and cashier, and they are clerks, sales clerks and subordinates. It is significant to note that the persons who are working as accountants in the instant Company do not possess any special qualification as accountants. They are only senior clerks, having acquired knowledge of keeping accounts by experience. Though the accountant does not possess any technical qualification, still the fact remains that the job of accounts is onerous and full of responsibilities. The work of an accountant cannot be put on par with the work of an ordinary clerk or salesman. The accountant should therefore be treated as a separate category. In fact, the Company pays a little higher salary to the

accountant, and it is Rs. 155 in the case of Sudhir Chatterjee. It will however appear that one Sauren Das Gupta gets Rs. 175, though he is described as a clerk. In my opinion, the salary of the accountant, though he is recruited from the senior clerk, should be higher than the wages of the ordinary clerks and salesmen. There are accountants in Oxford University Press, and the salary is Rs. 400—750. In case of Oxford Book & Stationery it is Rs. 400, while Thackers Spink pays Rs. 275 to the accountant and grants very high annual increments. In the College Street Area there is no special grade for the accountant. But considering the sepcial and onerous work of the accountant and having regard to the pay scales of the accountants in Oxford University Press and other concerns, I introduce the following scale of pay for the accountant in respect of the present Company. The Assistant Accountant, if any, will also fall under the same scale. The scale which I recommend for the accountant of this Company is Rs. 175—225 with annual increment of Rs. 10 or in other words, it is Rs. 175-10-225. This scale is quite in keeping with the present salary of a clerk which is Rs. 200. In fixing the grade of the accountant, I have taken into account the pay which is paid to the accountant in other units of the same industry, as well as the pay of clerks which I am going to introduce in this award.

Regarding cashier, I am not in favour of introducing any separate category for that post, and so no separate scale of pay is recommended for this post.

I am thus dividing the rest of the employees of the present Company into three categories, namely, clerks general, sales clerks or salesmen and subordinate staff. Now let us consider what should be the scale of pay for these three categories. The Union's Annexure C has been proved by P.W. 1 Shri Chandra Nath Majumdar, who is working in the Company (Das Gupta & Co.) since 1955. At page 2 of his evidence he has stated that he collected the figures of Annexure C and prepared the statement with the help of the Union Secretary which was correct. This evidence is not challenged either by way of cross-examination or by giving a denial by Shri Amulya Chandra Das Gupta, who was examined on the side of the Company. I must therefore accept the statement of Annexure C to the Union's written statement as correct. The Union also filed two other exhibits—one in respect of Indian Associated Publishing Company (Ext. 2) and another in respect of Rupa & Co. (Ext. 1). I will now compare all these scales. There was an industrial dispute over scales of pay and dearness allowance in respect of Oxford University Press, and the award made in that case has been filed before this Tribunal. Amulya Babu has stated in his evidence that Oxford University Press is principally a publishing concern. The work of publication, so far as Das Gupta & Company is concerned, is of limited nature. Annexure C to the Union's written statement shows the wage structure of Oxford University Press for clerks, and it is Rs. 80—300, for peons it is Rs. 55—90 and for packers it is Rs. 60—115. There is separate dearness allowance for the workmen of this Oxford University Press. Oxford Book & Stationery Co. pays Rs. 125 with dearness allowance to clerks and typists with annual increment of Rs. 20, Rs. 175 with dearness allowance to the salesmen with the same annual increment of Rs. 20 and Rs. 70 including dearness allowance to bearers with annual increment of Rs. 5. Thackers Spink & Co. pays Rs. 75 to clerks, Rs. 90 to salesmen and Rs. 35 to bearers excluding dearness allowance. The annual increment is 6½ per cent. of the basic pay in each case. Exhibit 1 shows that Rupa & Co. which is in the College Street Area pays Rs. 110 to clerks, Rs. 112 to assistant salesmen and Rs. 70 to bearers. There is no scale of pay for the employees of this Company. Exhibit 2 shows that Indian Associated Publishing Company pays wages to its employees according to different departments. There is division of work there. In this Company, the usual pay of clerks ranges from Rs. 80 to Rs. 175. This is exclusive of dearness allowance. This is the evidence on the side of the Union. The concerns cited on the side of the Company will show that the starting salary of clerks is Rs. 60, sales clerks Rs. 50 and subordinate staff Rs. 23 in the case of Indian Associated Publishing Concern (vide Ext. B). Other companies pay consolidated sum which includes dearness allowance. The pay scales mentioned in Exts. B-1 to B-4 on an analysis will show that the minimum basic pay including dearness allowance varies from Rs. 70 to Rs. 80 and the maximum varies from Rs. 100 to Rs. 185 in the case of clerks. In the case of sales clerks it varies from Rs. 50 to Rs. 75 on the minimum side, and Rs. 100 to Rs. 190 on the maximum side. With regard to subordinate staff, it varies from Rs. 35 to Rs. 50 in the minimum and Rs. 65 to Rs. 75 in the maximum including dearness allowance. Thus the minimum basic pay which may be collected from Ext. B-series excluding dearness allowance would be Rs. 60 in the case of clerks, Rs. 55 in the case of sales clerks and Rs. 30 to Rs. 40 in the case of subordinate staff. The maximum excluding dearness allowance would be Rs. 175 in the case of clerks, Rs. 160 in the case of sales clerks and Rs. 55 in the case of subordinate staff. These rates can be found in Ext. B-series. The Company wants me to compare those units, but their balance-sheets are not filed. On the side of the Union it is said that those concerns are inferior to the present Company (Das Gupta & Co.) and as such they cannot be compared with this Company.

Now I will proceed to the fixation of wages for the workmen of Das Gupta & Co., after taking a fair cross-section of the industry in the region. In fixation of wages, the established principle is that the total wage packet is to be considered. The pay structures of different companies exhibited both by the Company and the Union are to be considered closely while introducing a new scale for the workmen of Das Gupta & Co. First of all, I will take up the case of clerks. The total pay packet of clerks on the minimum side in Oxford University Press is Rs. 80+D.A. Rs. 44=Rs. 124. In Oxford Book & Stationery Company it is Rs. 125 inclusive of dearness allowance. In Thackers Spink it is Rs. 75+35=Rs. 110. On the side of the Union, relying upon Ext. B-series it is urged the minimum pay packet of clerks should be Rs. 85 broadly. Taking an overall estimate of the total pay packet, I am in favour of introducing a scale for clerks with a minimum of Rs. 74 (basic). This should be the basic salary excluding dearness allowance. Now with regard to the maximum, it is Rs. 300 in Oxford

University Press. In respect of Oxford Book & Stationery Co. no maximum is shown, but the annual increment of Rs. 20 indicates that the maximum is high enough. This is also the case with regard to Thackers Spink. Das Gupta & Co. at present is paying the maximum of Rs. 155 to its clerks. The Company also pays Rs. 175 to another clerk under the existing pay position. I am ignoring the case of Shri Ranjan Das Gupta who draws a salary of Rs. 300 per month as a special case—he being the son of the Managing Director and also for doing a special job. The Company therefore at present pays basic salary of Rs. 175 in the maximum to one individual. Generally the pay is confined to Rs. 155. Now the maximum in Ext. B-series including dearness allowance is Rs. 190. Having taken the maximum of the industry as a whole, I am of opinion that maximum basic salary of the clerk should be Rs. 174. Now the question is how the maximum is to be reached. The annual increment in Union Exhibits is very high. There is no increment shown in the Company's exhibits. But considering the fact that the Company pays annual increment of Rs. 4 and Rs. 5, I adopt this principle in the following manner —Rs. 74 — 4 — 114. This should be reached in 10 years. There should be Efficiency Bar when the stage of Rs. 114 is reached. Thereafter increment should at Rs. 5 and the maximum of Rs. 174 would be reached in 12 years. Thus the scale of pay to be introduced for clerks would be Rs. 74 — 4 — 114 — E.B. — 5 — 174.

Now I come to the case of salesmen. They used to start under the existing arrangement at a lower pay. Their pay is lower than that of the clerks. Of course, the evidence is that the work of a clerk and a salesman is more or less interchangeable—particularly in this Company. So, there should not be much difference in the pay scale of the salesmen. I am in favour of introducing the same scale of pay for the salesman with the modification that the salesman should start at the minimum of Rs. 70, and the scale would be Rs. 70 — 4 — 114 — E.B. — 5 — 174.

Next I come to the case of bearers and peons. The bearers at present start at Rs. 40. They get dearness allowance of Rs. 20. The total per packet in the existing arrangement is Rs. 60. The total pay packet at its minimum in Oxford University Press is Rs. 55+33=Rs. 88. In Oxford Book & Stationery Company it is Rs. 70 including dearness allowance, and this is also the case in respect of Thackers Spink. Exhibit B-series will show that the total pay packet of subordinate staff is Rs. 55 to Rs. 60. The total pay packet of bearers should approximately be Rs. 70. Regarding scale of pay, they should start at Rs. 45 basic. Next I come to the question of maximum. The maximum in Oxford University Press is Rs. 115+50=165. The Oxford Book & Stationery Co. pays annual increment of Rs. 5 which indicates that the maximum is high up. The same is the case with Thackers Spink which pays 6¼ per cent. of the basic as dearness allowance. The maximum of subordinate staff in Ext. B-series appears to be Rs. 75. Considering the industry as a whole, I am in favour of putting the maximum of basic pay at Rs. 69. The next question is how the maximum is to be reached. The Company gives annual increment of Rs. 2 to bearers, and the same rate should be maintained in reaching the maximum. At this rate, in 12 years the maximum would be reached. The scale accordingly would be Rs. 45—2—69.

In fixing the above scales of basic pay, I have taken into consideration the total pay packet of the different Companies that have been exhibited in this case.

The next question is with effect from what date, the new scale should come into force. I should not give retrospective operation of the scales as it is against normal principle. The present reference was made in November 1963. The charter of demands was submitted earlier in 1962. I think, it would be fair and reasonable to give effect to the newly introduced scales with effect from 1st August 1964. In this Company, increment used to fall due in November each year, and this is the evidence on the side of the Company. After the new scale is introduced, the annual increment will fall due every year on 1st of August instead of 1st of November.

Coming to the question of adjustment, it is suggested on the side of the Union that the employees who are already in the employment of the Company, should get the same increment as recommended in the scale on the basis of past service. It is true that past services should be considered, and specially when the pay scale was low in this Company. So, the employees already in service of the Company should get some benefit of their past service. I am in favour of giving the following benefit. For every five years of completed past service to be calculated backwards from 1st August 1964, an employee of each category would be entitled to one increment to be added to his existing basic pay and the rate of increment will depend upon his salary, as it stands, on the day previous to the day on which the new scale of pay comes into force. The rate of increment will be at the rate as mentioned in the particular slab of the newly introduced scale. In the case of clerks and salesmen, it would be Rs. 4 drawing less than Rs. 114 basic on 31st July 1964 and Rs. 5 if drawing above Rs. 114 on that day, and thereafter they will be pulled up and fitted to the new scale. An employee who has not put in five years of completed service on 1st August 1964 would not get any benefit besides being pulled up and fitted to the new scale. For the purpose of further clarification, the following directions are given for fitting in the employees in the new scales fixed by me. All employees for whom a scale has been stated above shall be stepped up in the same stage next above which the present pay is drawn. A special increment in the scale for every five years of completed service should be given. Employees whose salary is less than the minimum prescribed will be pulled up to the minimum of the prescribed scale. If the existing salary of any employee is higher than the maximum prescribed, he will be subjected to no cut.

Coming to the question of dearness allowance, the Union claims Bengal Chamber of Commerce rate. The Bengal Chamber of Commerce rate is a high rate of dearness allowance, and it seeks to neutralise

90 per cent. rise of the cost of living index of employees drawing below Rs. 100 as basic. The Bengal Chamber of Commerce rate is nowhere applicable to book-selling and publishing concerns. That being so, there is no reason why I should accept that rate of dearness allowance in the present case. The Union's claim on this score is therefore rejected. Dearness allowance should be fixed along with pay scale by a comparative study of other units of the same industry and in the same region. I have considered the dearness allowance of book-publishing and book-selling concerns. In fixing the scale of pay, I have already considered the total pay packet, and the scale has been fixed with an eye to dearness allowance as well. The Company is paying dearness allowance of Rs. 20 to subordinate staff, Rs. 25 to employees drawing annual increment of Rs. 3 and Rs. 30 to those who are drawing annual increment of Rs. 5. I think, dearness allowance should be fixed at Rs. 30 for the subordinate staff, so that the total wage packet comes to Rs. 75 in the minimum which is the general total wage packet on the industry-cum-region basis. So, the subordinate staff should get dearness allowance of Rs. 30.

Regarding clerks and salesmen, they belong to middle-class family, and for them higher dearness allowance is claimed. But this argument is untenable in view of the observations of the Hon'ble Supreme Court in Greaves Cotton case reported in 1964, L.L.J. I, page 342. It was observed in that case that the same rate of dearness allowance to the factory workmen and members of the clerical and subordinate staff employed in the same establishment should be given. Dearness allowance is accordingly fixed at Rs. 30 for all employees drawing basic salary less than Rs. 100. The employees drawing basic salary above Rs. 100 would be entitled to Rs. 40 as dearness allowance. With Rs. 30 as dearness allowance, the initial total wage packet would be Rs. 104 and in the case of sales clerks or salesmen it would be Rs. 100. It is significant to note that there should not be complete neutralisation of the rise in the cost of living, as such neutralisation would be disastrous on the economy of the country and has been studiously discouraged by the Supreme Court. I have fixed dearness allowance for subordinate staff at Rs. 30 and for employees drawing basic salary above Rs. 100 at Rs. 40. The scale of dearness allowance is fixed on the Labour Commissioner's consumer price index of the last calendar year, i.e., year ending on 31st December 1963. The cost of living index stood at 447 point, as will appear from the calculation sheet of the Company. It is necessary that a sliding scale of dearness allowance should be prescribed for rise and fall in the cost of living index taking 447 point as the base. It has been usually taken on the basis of the Central Pay Commission's report that dearness allowance will be liable to increase or decrease on the basis of Re. 1 for every five-point rise or fall in the cost of living index. The position will have to be reviewed at the end of each calendar year. In the circumstances, a sliding scale is attached to the dearness allowance in respect of Rs. 30 and Rs. 40 as the case may be. It is liable to increase or decrease on the basis of Re. 1 for every five-point rise or fall on the cost of living index from the base of 447 point, and it will take effect from 1st August every year. In this connection, I may refer to the case reported in 1963 L.L.J. I, page 108. The pay and dearness allowance which I have fixed in this case is related to the living index of 447 point, taking the point of 1939 as 100. The new rate of dearness allowance shall take effect from 1st August 1964.

This is my award which is to be implemented within 30 days of its publication.

In the case of a female candidate whose age is not recorded in the Matriculation or School Final Certificate, any of the following evidence of age is accepted by the Commission:—

1. A certificate from the Headmistress of the School, which she last attended, showing her exact age as recorded in the school register.

2. An affidavit regarding her age sworn by her father or mother or some other person in a position to know by having been present or heard of her birth at the time of occurrence.

3. A certificate regarding her age, from a Member of the Legislature or a gazetted officer, who must have known the candidate and her family, indicating clearly the evidence on the basis of which he/she satisfied himself/herself on the point.

(4) **Fee:** Candidates must enclose with their applications a fee of Rs. 5/- in the form of a receipted chalan from a Government Treasury or the Reserve Bank of India under the head "XXI—Miscellaneous—Receipts of the Public Service Commission, West Bengal". Money orders, cheques, etc., in lieu of treasury chalans are not accepted. Postal orders, however, may be accepted from candidates. They should be crossed and made payable to "The Deputy Secretary, Public Service Commission, West Bengal". No application will be considered unless accompanied with the requisite application fee.

Candidates abroad may deposit their application fees with the High Commissioner of India or the Embassy, as the case may be, and obtain receipts for the same, which will have to be attached to their applications to be submitted to the Commission.

Candidates in Government service should make sure before depositing fee that their applications will be forwarded by their superior officers. In no case will the fee paid with the application be refunded.

Note.—A member of the Scheduled Caste or Scheduled Tribe claiming age concession must furnish with his application a certificate in original from a gazetted officer or a Member of Parliament or State Legislature belonging to the Scheduled Caste or Scheduled Tribe, specifying the particular caste or tribe to which he claims to belong.

(5) **Address:** Candidates should give their present address and should communicate at once any subsequent change of address.

(6) **Canvassing:** Any attempt on the part of candidates to enlist support of their applications through persons of influence or officials of Government will disqualify them for appointment. Spontaneous recommendation from persons interested in the candidates or otherwise known to them will be disregarded.

(7) Applications from candidates who are in permanent or temporary employment under any Government, a local or Statutory Body (e.g., Damodar Valley Corporation), in India will be rejected unless they are submitted through the appointing authority of their posts or service.

Candidates serving under Government or a local or Statutory Body should submit an advance copy in the prescribed form. The application fee should in such cases be attached to the advance copy and not to the original. The candidature of such applicants may not however be considered if the original applications do not reach the Commission's office within a fortnight from the closing date. Unless applications in original or advance copies with application fees are received within the closing date, late applications may be rejected.

NOTIFICATION

No. 2275-L.—27th August, 1964.—The Governor having been pleased to order, under rule 66 of the Rules of Procedure and Conduct of Business in the West Bengal Legislative Assembly, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information:—

THE WEST BENGAL CRIMINAL LAW AMENDMENT (SPECIAL COURTS) (AMENDING) BILL, 1964.

A

BILL

to amend the West Bengal Criminal Law Amendment (Special Courts) Act, 1949.

WHEREAS it is expedient to amend the West Bengal Criminal Law Amendment (Special Courts) Act, 1949, for the purpose and in the manner hereinafter appearing; West Ben. Act XXI of 1949.

It is hereby enacted in the Fifteenth Year of the Republic of India, by the Legislature of West Bengal, as follows:—

Short title.

1. This Act may be called the West Bengal Criminal Law Amendment (Special Courts) (Amending) Act, 1964.

Amendment of section 4 of West Bengal Act XXI of 1949.

2. In section 4 of the West Bengal Criminal Law Amendment (Special Courts) Act, 1949, after sub-section (*2*), the following sub-section shall be, and shall be deemed always to have been, added, namely:—

"(*3*) If at any time the State Government thinks fit so to do, it may withdraw any case from any Special Court and transfer the same to any other Special Court for disposal:

Provided that where in any case the offence has, under sub-section (*1*) of section 5, been taken cognizance of by a Special Court, such case shall not be so withdrawn or transferred.".

STATEMENT OF OBJECTS AND REASONS.

On a few occasions the Government has, because of special circumstances arising in relation to a case after its distribution, withdrawn a case distributed to a Special Court under section 4(*2*) of the West Bengal Criminal Law Amendment (Special Courts) Act, 1949 (West Bengal Act XXI of 1949), and re-distributed it to another Special Court. Such re-distribution has not, however, been made on principle where the Special Court to which the case has originally been distributed has already taken cognizance of the offence. But questions have been raised in certain quarters about the legality of such re-distribution of cases among Special Courts. In order that the action of Government in the matter may not be illegal requiring *de novo* trial of certain cases it is proposed to make a specific provision in the said Act for legalisation of the withdrawal of any case once allotted to a Special Court from such Special Court before cognizance of the offence is taken by such Court and its re-distribution to any other Special Court.

The Bill has been drawn up accordingly.

I. D. JALAN,
Member-in-charge.
